A Page of Free Seeds

JUNG'S WHITE WONDER TOMATO

TOMATO—Jung's White Wonder

A wonderful tomato having creamy-white skin and flesh. The fruit is free of the usual acids and can therefore be enjoyed by persons who cannot eat red tomatoes on account of the acids they contain. The plants are very strong growers and produce a heavy crop of the large handsome fruits. The fruits are very firm and when cut open show a firm flesh. As a tomato for slicing or salads it is unsurpassed. Be the first one to grow this new tomato and surprise your neighbors. We offer you choice seed of our own growing.

CUCUMBER—Japanese Climbing

A fine cucumber for small gardens as you can grow them on a fence or trellis, the vines grow very vigorous and have strong tendrils which enable them to climb, the fruits will then always be straight; also an excellent variety to grow like other varieties. Comes into bearing quickly and is very prolific, as many as 40 fruits having been grown on a single vine. Full grown fruits will measure 12 to 16 inches long. Flesh is pure white, tender and of delicate flavor. When young the fruits make very attractive pickles.

HELICHRYSUM—Everlasting Flowers

These everlasting flowers should be grown in every flower garden and for this reason we have placed them in this list. The plants grow about 2 feet high and produce the beautiful flowers, like a half-open rose in great profusion. They make a very pretty bed and if picked will last all winter, excellent for Christmas and New Year decorations. Our seed includes all colors such as white, yellow, rose red and purple. Easy to grow, full instructions are on each packet.

JUNG'S SCARLET GEM ASTER

As has been our custom for a number of years we annually give free many thousands packets of new and choice seeds. We are offering you a very select list on this page and we know you will be delighted to have these fine varieties in your garden. These seeds are free as follows: 1 pkt. for each 25c worth of seed ordered but not more than six pkts to a customer. Your free seeds must be selected from this page.

LITTLE GEM LETTUCE

LETTUCE—Little Gem

An ideal lettuce for the home garden as it is sure to head, requires but little space and has the most perfect solid hearts. It will grow to perfection in the small space of 6 inches and will produce a solid head in a remarkably short time. In serving you need not remove any leaves as the outer leaves are tender. Sow a packet if you want a surprise.

SWEET CORN

Jung's Wayahead

A new sweet corn and as its name indicates is "way ahead" of all others. It originated in the east with a gardener who is always the first to have sweet corn fit for market. It is not only extremely early but is also of the finest quality. You will be surprised how quickly you can have sweet corn if you plant some of this seed. Our stock is very limited so we advise early orders.

EVERLASTING FLOWERS

ASTER—Jung's Scarlet Gem

The most striking Aster yet produced, being a bright blood-red in color. Most effective for either beds or bouquets as their brilliant color makes them attractive wherever they may be put. We know you will be delighted with it and want everyone of our customers to have a packet.

GERANIUMS—Fancy Hybrids

Few people are aware that these beautiful flowers can be easily grown from seed. The seed which we offer was saved from choice select strains which produced large flowers and includes many fine colors. Full growing instructions on every packet.

Greetings

To Our Friends and Customers:

Another year has passed, 1922 is before us, we hope that it will bring our many thousand customers success and prosperity. Planting time will soon be at hand and the question of procuring your supply of seeds will have to be decided. Will you buy seeds which have only their cheap price to commend or do you want the very best which time and money can produce? In growing seeds quality is always our first consideration for as actual planters we know that unless you have good seeds it is impossible to grow good crops. Jung's Seeds may cost a little more than some others but this extra cost is very trifling when you consider the difference in value of the resulting crop. If you want seeds of the **HIGHEST QUALITY** at **REASONABLE PRICES** we can supply your wants.

Although Reduced Our List is Complete

We have spent much time and gone to considerable expense in getting out a catalog that will contain but a limited number of varieties and still be complete. You will find that our list will meet every requirement as each item has been selected for its superior qualities.

It's Easy to Order Jung's Seeds

With each catalog we enclose an order sheet and self-addressed envelope. Be sure to write your name and address on order sheet. After writing down the list of articles wanted place same together with remittance in the envelope. Remittance may be made by Money Order, Bank Draft or Check, amounts of 50c or less may be sent in clean postage stamps. You will be surprised how easy it is to make out your order and how soon the seeds will reach you after the order is sent in.

Our Prices Include Free Delivery

Except where noted we pay the postage on all seeds, offered by the packet, ounce, quarter-pound, pound, half-pint, pint and quart. On seeds offered on wholesale page, farm seeds and potatoes in quantities over one pound purchaser pays transportation charges. We also pay the postage on all bulbs and plants. You do not have to figure out complicated parcel post rates. Please remember this when comparing prices.

We Guarantee Safe Delivery

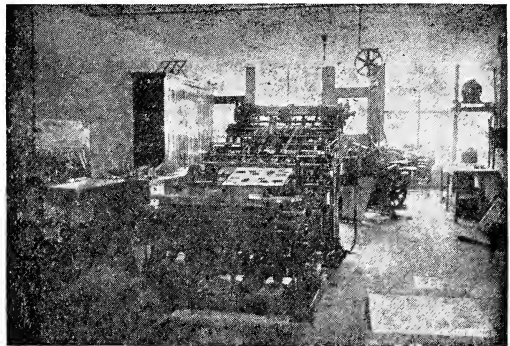

If any parcel of seeds, plants or bulbs reaches you in bad condition advise us at once and we will refill the order free of charge or refund your money. Also if any goods you receive from us are not satisfactory in every way they may be returned and your money will be refunded.

The Jung Business Policy

We are firm believers of the principle that no firm is or can be a success unless humanity or the country is better by its having existed. Our business is our pleasure, profit alone is not our only aim. We know that we cannot succeed unless we supply you seeds through the use of which our customers can raise better crops and beautify their home surroundings. Our greatest delight is to see planters raising better crops from Jung's Seeds and the ever increasing number of complimentary letters we receive from our customers is the best proof that our work is not in vain. Our greatest asset is our satisfied customers and you may rest assured that we at all times use our greatest care to send out only the best quality seeds it is possible to produce. Plant your garden with Jung Quality Seeds this year, we assure you of a bountiful crop.

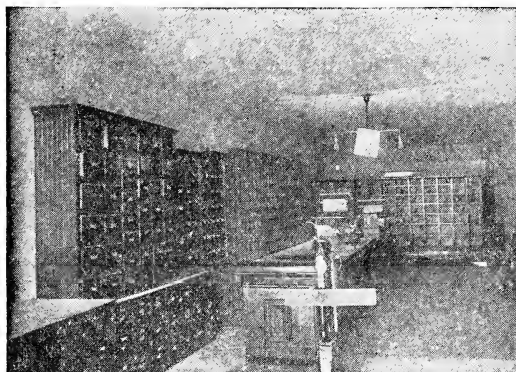

A FIELD OF ASTERS

OUR PRINTING DEPT.

Why You Should Make A Garden

Few things bring such large returns for time and money invested as a well-kept garden. You not only get your vegetables at low cost but you will also find that there is no comparison between vegetables crisp and fresh from the garden and those bought at the stores. To have real quality in vegetables they should be taken fresh from your garden.

MAIL ORDER DEPT.

We Guarantee Satisfaction or Refund Your Money

We are very anxious that our customers shall be satisfied in every way. Upon receiving any seeds, bulbs or plants from us examine them carefully and if you are not perfectly satisfied they may be returned and your money will be refunded.

Jung's Wholesale Prices for Market Gardeners

As is the custom with most seedsmen we make special prices to market gardeners or those planters requiring seeds in large quantities. These seeds are of the highest quality being grown either by us or growers who have made a specialty of producing high grade pedigreed seeds. Quality considered we believe you will find our prices very reasonable. Remember it costs more to produce good seed but they are also worth much more when the resulting crop is taken into consideration. Without good seed the best land and cultivation cannot yield you a profitable crop.

At the prices quoted on this page we do not pay shipping charges, please state on your order whether we should ship by freight or express.

Note—We cannot fill any order at these prices unless it amounts to \$3.00 or more.

NOTE—Half bushels may be ordered at bushel rates. Half lbs. at lb. rates.

The Garden Seed Leaders

On the following eight pages we are offering a list of select varieties. They have been tested out in all sections of the U. S. and have proved to be all we claim for them...You can order these with the assurance that they are the best to be had.

BUSH BEAN

Jung's Stringless Black Wax

An absolutely stringless Bush Bean. Large Pods. Good Yields. Free from rust and disease.

A comparatively new variety but coming rapidly into popular favor. The merits of the old Rust-Proof wax-bean are well known, this variety has all the good qualities of the old variety and is superior to it as the pods are longer and are stringless at all stages of growth. The plants are strong growers, with large lustrous green leaves and bear an enormous crop of pods of beautiful yellow color. This color is maintained clear to the tips of the pods making it an ideal variety for fancy trade. The pods are from 6 to 7 inches long, very fleshy, tender and stringless. Pkt. 7c.; ½ pt. 20c.; pt. 30c.; qt. 50c.

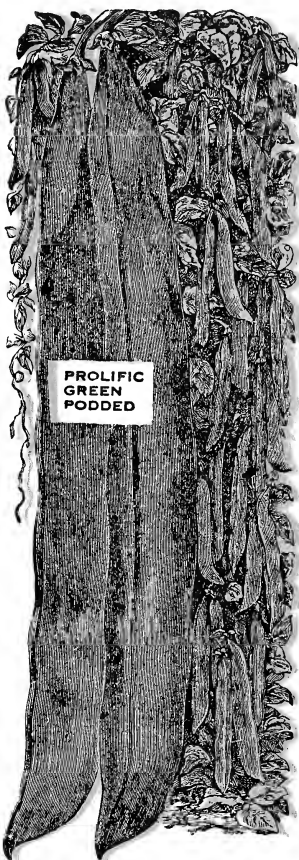

JUNG'S STRINGLESS WAX

STRINGLESS GREEN POD

Stringless Green Pod Bush Bean

This variety combines the following essential points: Extreme earliness being the first to produce pods, unusual hardness and great productiveness. The pods are from 5 to 6 inches long, very round, of a rich green color and entirely stringless even when matured. They are tender, brittle and of the finest flavor. It is without exception the finest green podded bean in cultivation. Pkt. 7c.; ½ pt. 20c.; pt. 30c.; qt. 50c.

PROLIFIC GREEN PODDED

POLE BEAN—Prolific Green Podded

The best green podded Pole Bean in cultivation. It is earlier than most varieties and covers a longer season of productiveness. The vines are vigorous growers, being loaded with pods from summer until frost. It is a very sure cropper even in unfavorable seasons producing large crops. The pods, borne in clusters average six to eight inches in length, are uniformly straight, of a dark rich green color and so meaty as to be nearly saddle-backed. The pods are entirely stringless, very tender and sweet and of a mild flavor. The dry beans are of a pearly whiteness. Pkt. 7c.; ½ pt. 20c.; pt. 35c.; qt. 65c.

LIMA BEAN—Wonder Bush Lima

A great improvement on Burpee's Bush Lima, as it is earlier and more productive, the pods are borne more to the center of the plant. This is a great advantage as the pods are held up from the ground. The bushes grow 18 to 24 inches tall and require no stakes or poles. Pods are truly mammoth in size and are borne in clusters of from 5 to 8 pods and contain from 4 to 6 of the large luscious beans. There is nothing quite so delicious in the vegetable line as nice fresh Lima Beans. Pkt. 8c.; ½ pt. 25c.; pt. 35c.; qt. 65c.

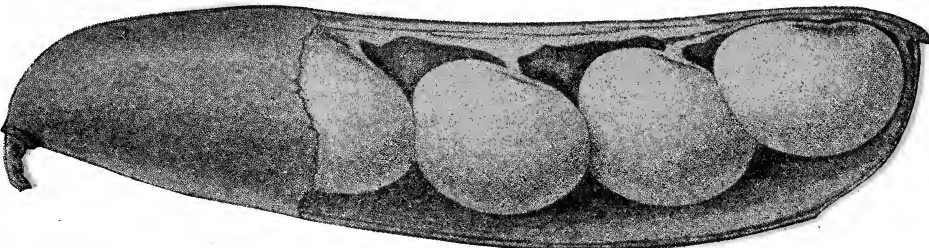

Special Offer

The four fine beans listed on this page should be planted in every garden.

1 Pkt. of each for 25c.

½ pt. of each for 65c.

1 Pt. of each for \$1.10.

WONDER BUSH LIMA

A good garden goes a long ways towards cutting down living expenses.

CABBAGE

Extra Early Copenhagen Market

The earliest of all round-headed cabbages maturing as soon as the pointed varieties. Earliness, compact growth, large head and fine quality are fast bringing it to the front as one of the most popular extra early sorts. It matures very evenly so practically the entire crop can be cut at one time. Heads weigh 8 to 10 lbs., are very solid and seldom crack, inside pure white, fine grained and of exceptional quality. Our seed is from one of the most reliable growers and equal to any no matter what price you pay.

Pkt. 8c.; ½ oz. 20c.; oz. 30c.; ¼ lb. 95c.

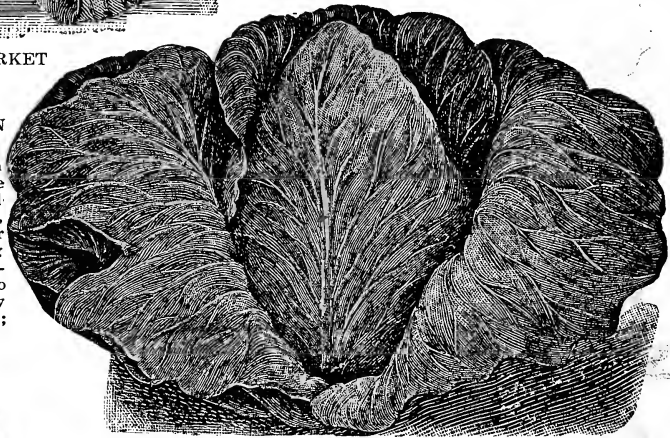

EXTRA EARLY COPENHAGEN MARKET

Extra Early Express

POSITIVELY THE EARLIEST CABBAGE ON EARTH

It produces heads of good size a week to ten days earlier than Jersey Wakefield. There are few loose leaves and it forms a head of good size and fine quality. It can be planted close, always yields a large crop. A fine variety for shipping, as the heads remain solid for a long time. It is a beautiful appearing cabbage, being of fine color and general uniformity. Also called "Lightning" and other fancy names by some seedsmen. Pkt. 8c.; ½ oz. 20c.; oz. 30c.; ¼ lb. 75c.

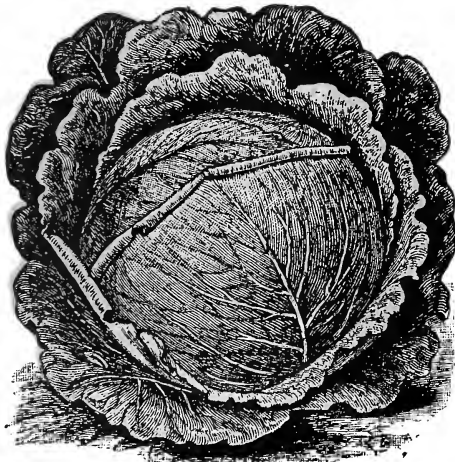

EXTRA EARLY EXPRESS

Danish Ballhead or Hollander

TRUE SHORT STEMMED STOCK

This celebrated Cabbage is now recognized the world over as the Hardest Headed, Longest Keeper, Best Shipping and Biggest Money Maker of all winter varieties. It is now grown almost exclusively in the large Cabbage growing sections north of the Ohio River. It is not especially suited to the south but for 'northern states and in cold climates it beats all other varieties a mile. It is a strong vigorous grower, producing large, round, compact heads almost as hard as lead, weighing when trimmed one-third more than any other sort of equal size. Flesh is pure white, sweet, crisp and tender. Our strain of this excellent variety is highly bred and from our repeated trials as well as from the experience of our many customers purchasing this seed annually we are convinced that **Our Strain Surpasses** in even growth and heading, as well as in uniform size and solidity of heads, any other strain we have ever seen of the so-called "Hollander Cabbage." Pkt. 8c.; ½ oz. 15c.; oz. 25c.; ¼ lb. 75c.

DANISH BALLHEAD

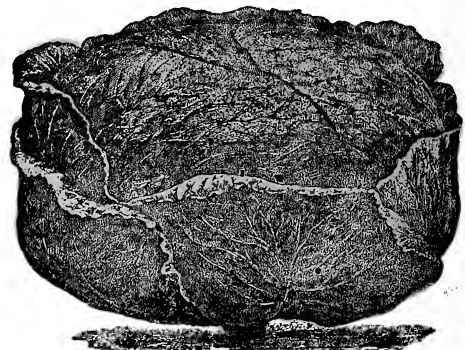

Short Stem Drumhead

A STANDARD FALL SHIPPING SORT

It makes a large, round firm head, uniform in shape and color which seldom bursts or rots. With good cultivation heads attain a weight of 20 to 30 pounds and are of the finest quality. Sureness in heading and regularity in growth has made this one of the most popular standard sorts for winter keeping. The quality, either for slicing, for kraut or for general table use is unsurpassed. It is as natural for this cabbage to form heads as leaves. This variety is much used by market gardeners in northern Illinois and has proven a great moneymaker to them. It is a very fine strain of late Cabbage and can be profitably grown anywhere in this country; it is a splendid sort for general use giving unbounded satisfaction.

Pkt. 5c.; ½ oz. 12c.; oz. 20c.; ¼ lb. 60c.

SPECIAL OFFER—1 Pkt. of each of these four fine Cabbages for 25c.

SHORT STEM DRUMHEAD

EARLY SNOWBALL

CAULIFLOWER

Early Snowball

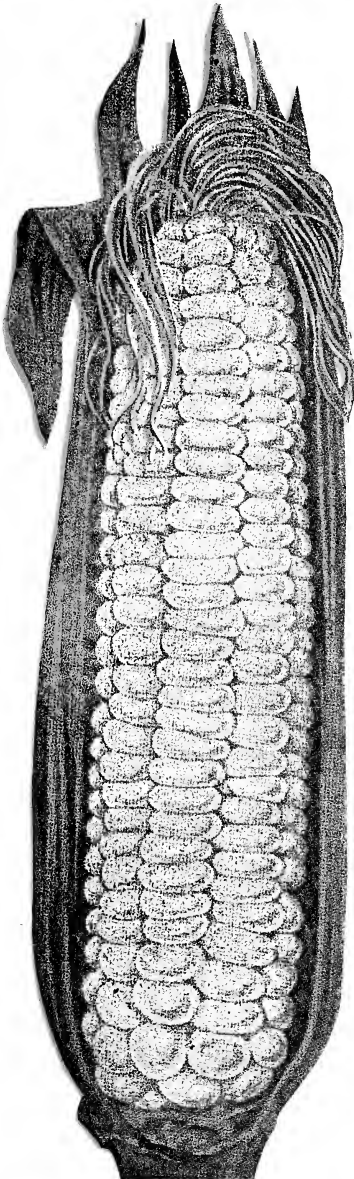

For earliness and reliability to produce a head of good size and rich, white curly appearance it is unexcelled. It forms snow white heads, six to ten inches in diameter, of good quality. While originally recommended and used as an early variety, it has not only supplanted all other sorts for spring planting but it has largely driven out the large late sorts for fall use, being much finer in quality and the one cauliflower that is absolutely certain to head when conditions are ordinarily favorable. The heads are so solid, compact and deep they will out-weigh those of any any other strain. There is a great difference in the strain of this variety offered but our stock is the very best. Pkt. 12c.; $\frac{1}{4}$ oz. 60c.; $\frac{1}{2}$ oz. \$1.00 oz. \$1.85.

CHINESE CELERY CABBAGE

Chinese or Celery Cabbage

Until recently this new vegetable was unknown but as its good qualities become known it is rapidly gaining popular favor. For best results the seed should be sown the latter part of July in rows 2 feet apart and thinned to stand 15 inches apart in the rows, then a most excellent vegetable can be grown. Develops quickly and as the weather gets colder it heads up nicely producing crisp, celery-like stalks, beautifully blanched. It can be eaten raw, made into salads or cooked as cabbage or greens. Pkt. 8c.; $\frac{1}{2}$ oz. 15c.; oz. 25c.

GOLDEN BANTAM

SWEET CORN

Golden Bantam

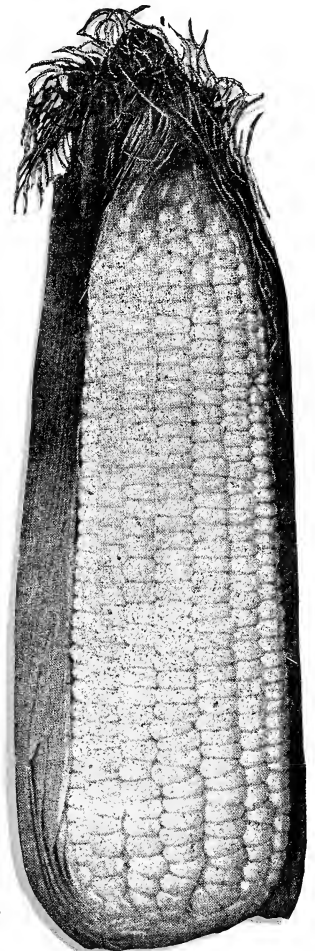

The Best, the Largest, the Sweetest of All Early Sweet Corns, Retaining Its Delicate Tenderness Even When a Little Old

This variety is pronounced the favorite because of its extreme early character, vigorous growth and surpassingly delicious flavor. It is the ideal garden Sweet Corn, with the richest flavor of all. Besides being early it is very hardy and permits of the earliest planting. Especially recommended for Northern States also desirable for warmer locations, because the ears are protected by good firm husks and is not liable to smut. The stalks are dwarf in growth, averaging four feet in height. The ears are from 5 to 7 inches long and the grain is a bright golden yellow color. In flavor it is exceptionally rich and sugary and by every one admitted to be the finest flavored Sweet Corn. The small stalks can be planted closely together. For productiveness and quality it leads all varieties. Pkt. 8c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 50c.

Howling Mob

The largest eared, sweetest flavored early variety in cultivation.

This variety is of exceptional hardiness and productiveness. It produces ears of large size, combined with an unusual sweet flavor for so early a corn. The stalks are strong and vigorous, four to four and one-half feet high. The ears are seven to nine inches in length with 14 or more rows of medium sized pearly white grains. The grains are sweet and rich in flavor. The ears are protected by a heavy husk which extends beyond the tip of the ear and forms a safe-guard against the destructive green worms. Pkt. 5c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 45c.

HOWLING MOB

Four Splendid Cucumbers

JUNG'S FAIRFIELD GIANT

Chicago Pickling

The most popular and widely grown pickling variety. The fact that it is used by most of the large pickling factories is the best proof of its leadership in its class. The vines are very vigorous growers and will produce a large number of fruits if kept gathered before they become too large. Skin is extremely thin, tender and free from toughness when pickled. Quality excellent. Pkt. 5c.; oz. 12c.; ¼ lb. 30c.

CHICAGO
PICKLING

Jung's Fairfield Giant

The darkest green and most nearly seedless cucumber in cultivation.

The vines are unusually vigorous in growth and produce an enormous crop of handsome fruits. They are quite smooth, of a deep green color and grow from 12 to 18 inches long, being one of the handsomest cucumbers grown. When the fruits are from six to eight inches in length or just the right size for slicing, they are practically solid, there being hardly a trace of seed to be found. The pure white flesh is very firm, sweet and crisp, and of the finest flavor. As shown in the illustration the fruits are very long and slim, which together with their deep green color will make them bring the top prices on all markets. Pkt. 8c.; oz. 20c.; ¼ lb. 60c.

Special Offer

The four cucumbers offered on this page are leaders.

- 1 Pkt. of each for 20c.
- 1 Oz. of each for 50c.

DAVIS PERFECT

Davis Perfect

A cucumber which for shape, quality, color and forcing indoors or growing outside is unexcelled. The type is perfectly fixed and has an ideal shape, slim and symmetrical. The eating qualities surpass all other varieties. The seeds that are contained in it when in slicing condition are so small and tender that they are unnoticed. The vines are very strong and rampant growers; the fruit resembles the hot-house product so closely that dealers cannot detect the difference. The most nearly perfect CUCUMBER yet introduced. Pkt. 7c.; oz. 15c.; ¼ lb. 35c.

Early Fortune

This variety is exceedingly productive and is distinguished by its vigorous growth and large healthy leaves, making it less susceptible to disease than other varieties. The fruits are very uniform in size and shape and rich dark green in color; this color does not fade when shipped a long distance. As a pickling variety **EARLY FORTUNE** IS ONE OF THE BEST VARIETIES as the fruits are so uniform. Pkt. 5c.; oz. 12c.; ¼ lb. 35c.

Mrs. Wm. Johannes, Shawano, Wis.—I had JUNG'S seeds last year and it did fine. All seeds came up and had the finest garden in the neighborhood.

EARLY FORTUNE
CUCUMBER

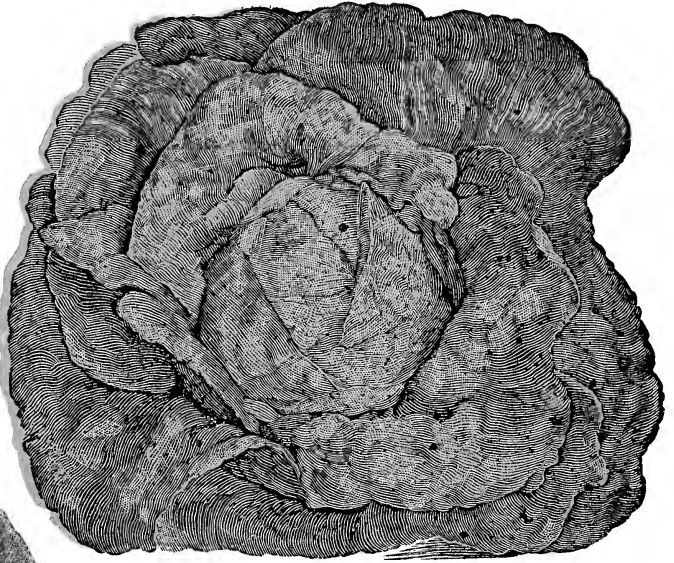

Mrs. Chas. Swallow, Birnamwood, Wis.—You will make no mistake if you order JUNG'S seeds, everyone is sure to grow. I have used them three years and know they are good.

LETTUCE

Earliest Wayahead

This is the quickest growing and most attractive extreme-early Lettuce producing handsome, solid heads fully one week earlier than Black Seeded Tennis Ball. Its earliness makes it the ideal variety for market gardeners as the early heads always bring the best price. Its quality is unsurpassed; the heads are very solid; have weighed 6 oz. when trimmed. The interior of the heads is blanchd to a beautiful creamy color; while the leaves are tender, juicy and sweet-flavored. The quality of this variety is unequaled among the early sorts. Pkt. 8c.; oz. 20c.; ¼ lb. 45c.

EARLIEST WAYAHEAD

Big Boston

Extra Select Strain for Critical Planters

This market variety is very popular for outdoor culture and is also in demand as a compact, large heading forcing sort for cold-frames. The plants are large, very hardy and vigorous. The leaves are broad, comparatively smooth but wavy at the edge, thin, very hard and crisp. In color they are bright light green, the head slightly tinged with reddish brown. The inner leaves blanch to an attractive greenish white, tinged with light yellow. It heads up under cold weather conditions better than any other variety and is grown very extensively in the south for shipment north in the winter. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.

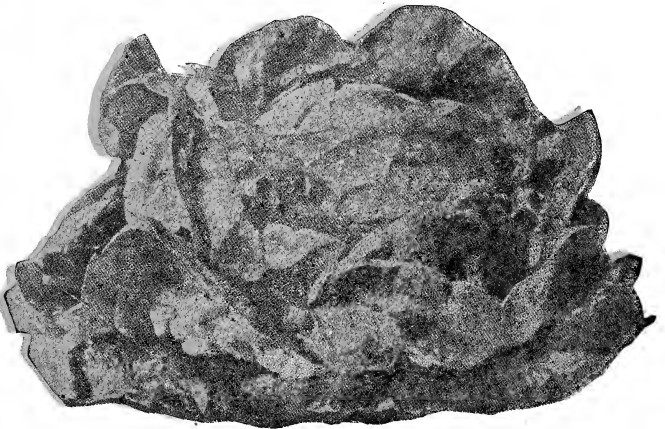

CALIFORNIA CREAM BUTTER

California Cream Butter

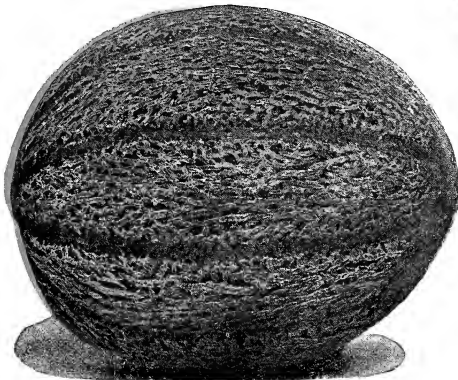

The Finest and Largest Cabbage Headed Sort

A smooth leaved lettuce forming very large, compact, cabbage-like heads of thick, yellowish green leaves, the inner ones beautifully blanchd, very crisp, tender and buttery. Matures in 50 days. It is one of the most largely grown sorts, suitable for the home garden as well as market. Pkt. 5c.; oz. 12c.; ¼ lb. 30c.

BIG BOSTON

Mrs. L. Fitzwater, Loveland, Ohio.—I have been planting your garden seeds for several years and find them equal if not better than firms that charge more. Last summer I had beautiful asters, people passing by would come in to admire my flowers.

EARLY KNIGHT

Musk Melon—Early Knight

(Jung's Earliest Ripe)

Positively the earliest green-fleshed muskmelon ever grown. Of medium size, weighing from 2½ to 4 pounds. The skin is green, ribbed and netted, the flesh deep and thick and light green in color inclining to yellow toward the center. In flavor it is exceedingly fine. A heavy cropper and absolutely the earliest of all muskmelons. We recommend it particularly to all whose profit depends upon being first in market and their uniform size and shape combined with their delicious flavor, sell rapidly at high prices. If you want a firm, solid melon and the first on the market plant **EARLY KNIGHT**

Pkt. 7c.; oz. 15c.; ¼ lb. 35c.

BABY DELIGHT

WATER MELONS

Baby Delight or Climbing

A real climbing watermelon of luscious sweetness. The melons weigh from three to six pounds each. The rich carmine flesh is always solid and of exceptionally sweet flavor. They have small apple-like gray seeds which separate easily from the flesh. The long vines are of vigorous growth, the heavy foliage nearly concealing the fruit. The first melons mature early but the strong vines bear in great abundance all season. This melon will become popular alike for the family table and for restaurants, both on account of its fine flavor and convenient size. There are absolutely no misshapen melons on the vines, all running uniform and marketable. Pkt. 10c.; 3 pkts. 20c.; oz. 25c.; $\frac{1}{4}$ lb. 75c.

Fordhook Early

This is the only extra early watermelon we have that is of good size and quality. The fruits are of large size rather short and blocky in form with large diameters. Flesh is bright red, crisp, sweet and of splendid quality. The quality continues to improve after ripening. The heart is large, there is no seed cavity and very few seeds. The vines are of strong, vigorous growth, setting large melons in good numbers. Skin is dark green with occasional faint stripes of light green. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.

Halbert Honey

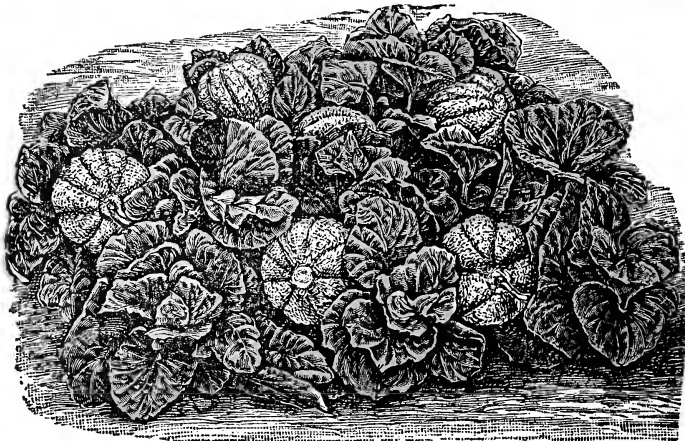

The very finest melon in cultivation for home use or nearby markets.

A melon that has no equal in beauty, quality and productiveness. The melons are smooth and regular in outline, 14 to 18 inches long and 6 to 8 inches in diameter. Color of the rind is a clear glossy deep green. The flesh is a beautiful crimson extending to within less than half an inch of the rind which is so tender that it will not stand shipping a long distance unless carefully handled. The first melons ripen early and the vines continue to develop fine fruit throughout the season. The sweet flesh melts away in your mouth like honey. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 30c.

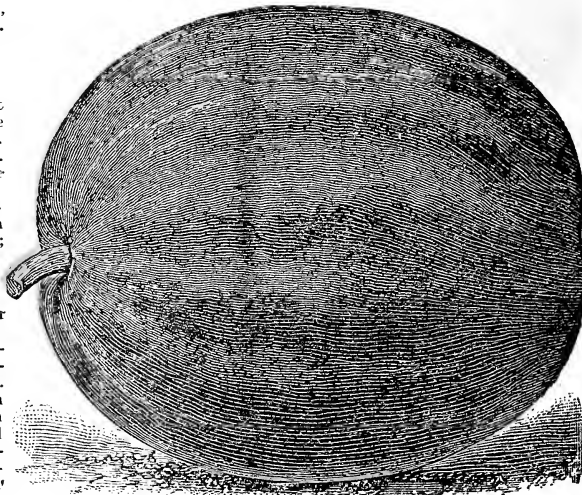

Musk Melon—Henderson's Bush

THE MELON FOR SMALL GARDENS. REQUIRES LITTLE SPACE
RIPENS EARLY

The fruits are of the popular "Jenny Lind" type but larger, averaging five inches in diameter; vines are vigorous and healthy, resisting heat and drought better than most other varieties. The flesh is very deep, edible almost to the rind and is light green flushed with salmon towards the center; the seed cavity is very small. The quality is superb, lusciously sweet and juicy, of most gratifying flavor and delightful aroma. Its vineless character of growth or "bush habit" is a distinct advantage as it saves space thus permitting it to be grown even in small gardens. The plants are stocky and vigorous, growing from fifteen to eighteen inches in length and three or four plants to a hill form a mound three feet in diameter and will produce many delicious melons. Pkt. 10c.; 3 pkts. 20c.; oz. 35c.

HENDERSON'S BUSH —

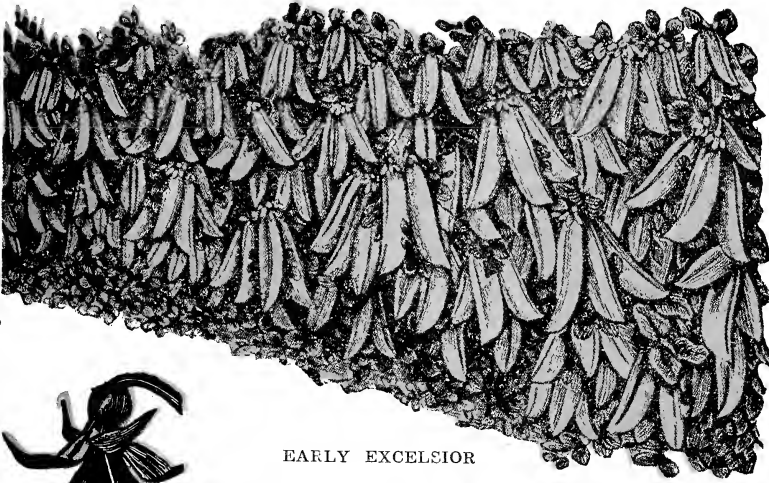

FORDHOOK EARLY

HALBERT HONEY

SPECIAL OFFER—I pkt. of each of these four fine Melons for 25c

EARLY EXCELSIOR

Four Delicious Peas

Early Excelsior

The leader of the early dwarf wrinkled Peas. It grows to a height of about twelve inches; of compact growth, being similar to Nott's Excelsior in this respect, but superior to it in the following particulars: First: The vines are more dense and sturdy. Second: The peas and pods are decidedly larger, measuring from $3\frac{1}{2}$ to 4 inches in length and contain from 6 to 8 large peas of delicious quality and is a much surer cropper. It is also very early; the past three seasons it was ready for use in 45 days after sowing. One of the most valuable EARLY PEAS, surpassing in earliness, yield and quality. Pkt. 8c.; $\frac{1}{2}$ pt. 22c.; pt. 35c.; qt. 65c.

Jung's Aristocrat

This grand pea produces pods of good hize and is such a good cropper that it should be planted in every garden. The vines are healthy, very stocky in growth, from 16 to 18 inches tall and do not require brushing. The pods are borne in great profusion and mostly in pairs and are closely packed with peas, which are sweet, tender and of exquisite flavor. They remain fit for use a long time and retain their dark green color when served. Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 35c.; qt. 60c.

Lord Leicester

THE GIANT OF THE PEA FAMILY

This is one of the largest podded varieties in cultivation and also a sure cropper. We have grown it for six years and it has never failed to produce a good crop. The plant is of branching habit, growing about five feet in height, with dark green foliage. It is of very vigorous and robust constitution, which enables it to withstand drought and mildew. The pods are produced in great profusion, mostly in pairs, some measuring 6 inches in length and contain 9 to 12 peas. You will be delighted to show your friends such enormous pods of peas, which in addition to large size, combine rich and succulent flavor, not surpassed by any other variety. For quality it is superb, the peas fairly melt in your mouth. Pkt. 8c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c.

Nott's Excelsior

The sweetest and most prolific of all Early Dwarf Peas. A very fine variety of dwarf, compact growth, with pods three inches in

length which are well filled to the squared end with large peas of unusually sweet fla-

LORD LEICESTER

vor. It is of vigorous growth and wonderfully productive. It grows from 12 to 14 inches high. In favorable weather and soil it will mature in the remarkably short period of 45 days. The best sort for the home or market gardens. Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 35c.; qt. 60c.

Special Offer of Peas

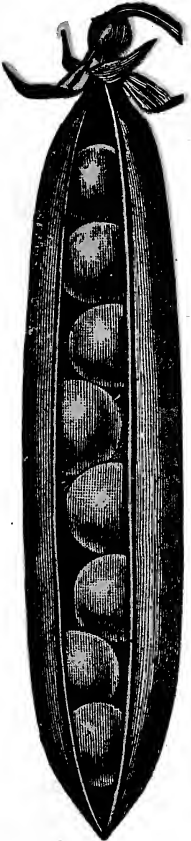

The four splendid Peas offered on this page will give a continuous supply of sweet, tender peas throughout the season.

1 Pkt. of each for 25c.

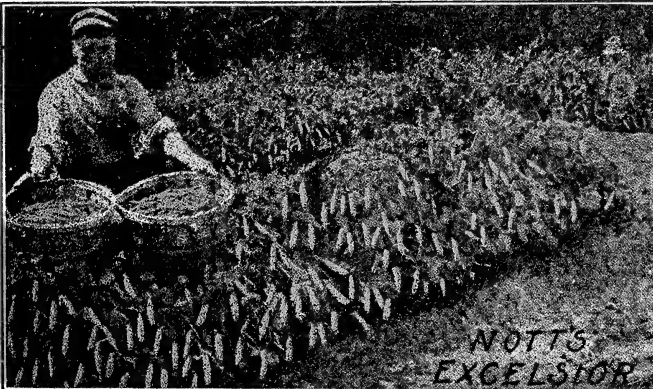

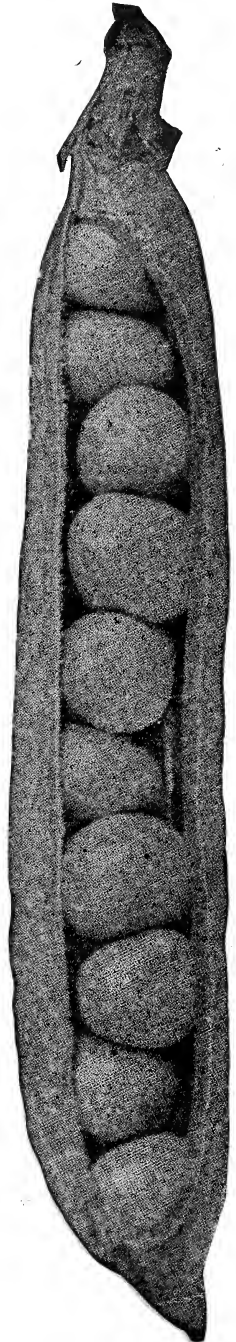

$\frac{1}{2}$ Pint of each for 70c.

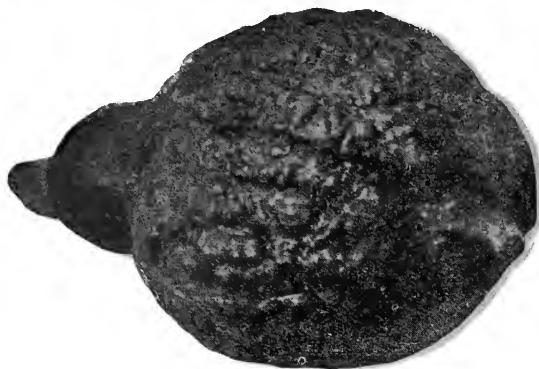

1 Pint of each for \$1.25

1 Quart of each for \$2.25

ARISTOCRAT

IMPROVED HUBBARD

SQUASH New Delicious

For table quality there is no other Squash that can be compared with Delicious in sweetness and richness of flavor. Excellent for Fall as well as for Winter use, keeping well until late in the Spring. The fruits are of medium size, usually weighing from 5 to 10 pounds. The rind is dark green, mottled in lighter shades. The flesh, dark orange, very fine grained and thick. Pkt. 5c.; oz. 12c.; ¼ lb. 35c.; lb. \$1.00

NEW DELICIOUS

JUNG'S WAYAHEAD The Earliest Tomato

First to Produce Ripe Tomatoes. Good Sized Fruit.
Smooth and Solid. Bright Red Color.
Fine Quality

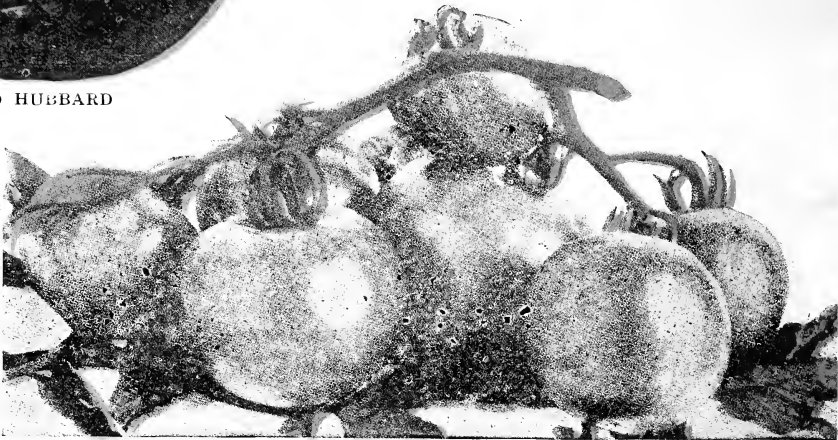

As its name indicates it is way ahead when it comes to early ripening of fruit, even ahead of our famous John Baer and Earliana. We know this is a strong claim to make but it is an actual fact and we know that after you give it a trial you will be more than satisfied. It is of heavy-leaf type, a sure indication of hardiness and vigor, as it is free from disease. The fruits are of good size, bright scarlet color, almost round, very smooth and remarkably handsome in appearance. The flesh is solid and of the finest flavor. Although it is the first to ripen vines continue bearing for a very long time. Every tomato grower knows that the first tomatoes always bring a big price and we are confident that this variety will more than please every one who plants it.

Pkt. 15c.; 2 pkts. 25c.; ½ oz. 60c.; oz. \$1.00

SQUASH—Improved Hubbard

The Famous American Standard Winter Squash

This is a superior selection of this famous variety and one of the best winter Squashes; flesh bright orange yellow, fine grained, very dry, sweet and rich flavored; keeps perfectly good throughout the winter; boils or bakes exceedingly dry, and is esteemed by many to be as good baked as a sweet potato. Our stock is most carefully selected with regard to quality of the flesh and color and wartiness of the shell but the latter peculiarities are largely determined by the soils in which the Squashes are raised. Our customers can plant this variety in perfect confidence that every fruit will be a pure Hubbard. Pkt. 5c.; oz. 12c.; ¼ lb. 35c.; lb. \$1.00.

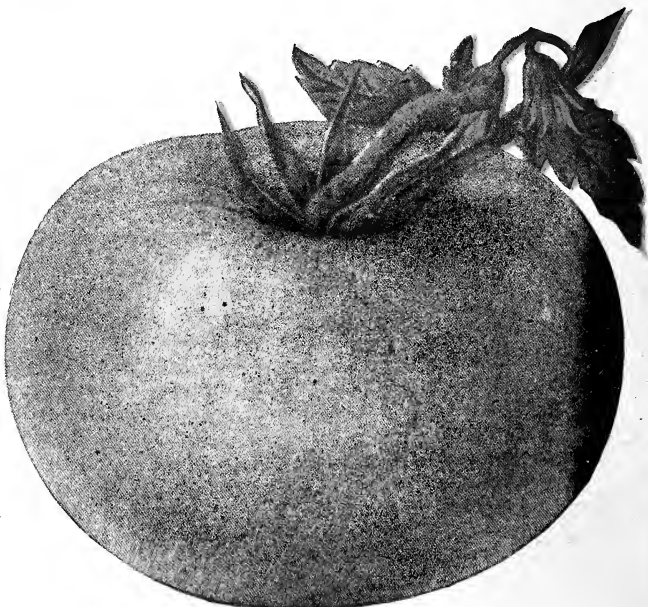

GARDENER'S DELIGHT

TOMATO—Gardener's Delight

The most prolific and finest flavored of all tomatoes. It commences to ripen extra early and continues to bear throughout the season. It is so productive that a dozen plants will produce enough tomatoes for an ordinary family, as many as 375 ripe and green fruits have been counted on a single plant at one time. Fruits will average 2½ inches in diameter, almost globe shaped and are of a handsome red color. They are always smooth, very solid, ripen up evenly and for quality are unsurpassed. We offer seed of our own growing which is sure to be early. Pkt. 7c.; ½ oz. 25c.; oz. 45c.

Mrs. Joe Ledrich, Big Prairie, Ohio.—The seeds I got from you are just grand, they sure are what you represent them to be.

Mrs. Wm. Ackermann, Hubbardt, Ohio.—Your seeds certainly are fine, I had the best garden last summer. Your Cream Lettuce is wonderful, I sold \$5.00 and had just 2 rows. Your tomatoes also are fine, we never had a crop before, but last summer we had tomatoes aplenty.

JUNG'S WAYAHEAD

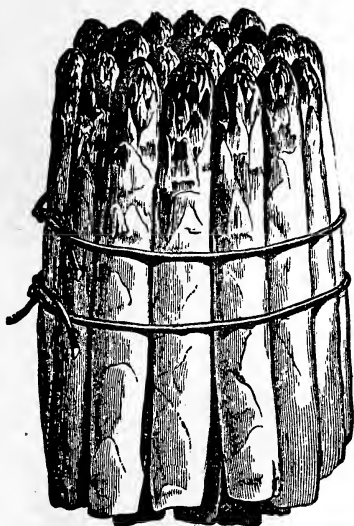

JUNG'S QUALITY GARDEN SEEDS

In the following pages you will find a complete but carefully selected list of both new and standard varieties of seeds, varieties which have been carefully tested and which we can fully recommend. All of these seeds are grown from carefully selected stocks and great care has been used to keep them pure; all have been carefully tested for germination. We make quality the first consideration for we know that without good seeds you cannot raise a good crop. Quality considered you will find our prices very reasonable.

ASPARAGUS—Barr's Mammoth

This is an excellent variety. The stalks are of a green color, almost an inch in diameter from the bottom completely to the tip. They are of quick growth and free from woody fibre. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.

ASPARAGUS

Webber Wax

A new variety which is considered by those who have grown it to be one of the hardest wax bush beans. It is extremely early and will produce a crop under conditions that would ruin many other kinds. The plants are very vigorous, holding the pods well above the ground and carry an immense load of pods. Pods are 5 to 6 inches long, flat, very fleshy and stringless. Sure to become popular both for home and market gardens. Pkt. 8c.; ½ pt. 20c.; pt. 30c.; qt. 55c.

WEBBER WAX

New Kidney Wax

One of the finest flat podded Wax Bush Beans in cultivation. A great improvement on Wardwell's Kidney Wax being more robust and prolific and having longer pods which are much handsomer and of finer quality. The plants are of erect bush habit reaching 18 to 20 inches in height. Their thick foliage is free from blight, while the pods are free from rust. The fleshy pods are flattened in form, six to seven inches long, one-half inch broad, and three-eighths of an inch thick; the color is a rich lemon yellow. The pods are remarkable for their meatiness, fine flavor and absolutely freedom from strings. The pods hang in rich clusters from the vines, making picking easy. Plants of this variety have been grown on our Fairfield Farm bearing forty pods each. It is without any doubt one of the best varieties to plant for either the home or market garden. Pkt. 8c.; ½ pt. 20c.; pt. 35c.; qt. 65c.

BUSH BEANS

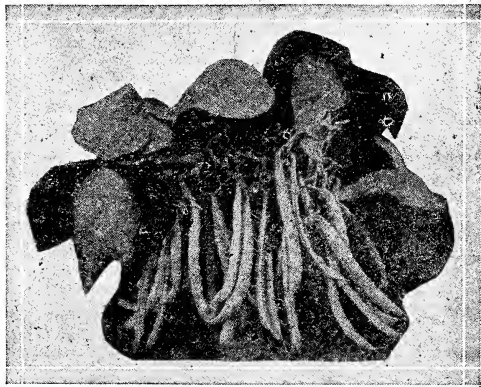

EXTRA EARLY RED VALENTINE

Our Seed Beans are extra fine! They were grown on the Fairfield Seed Farm; were thoroughly rogued, hand picked, and are worth much more than the less carefully selected strains as are usually sold.

Extra Early Red Valentine

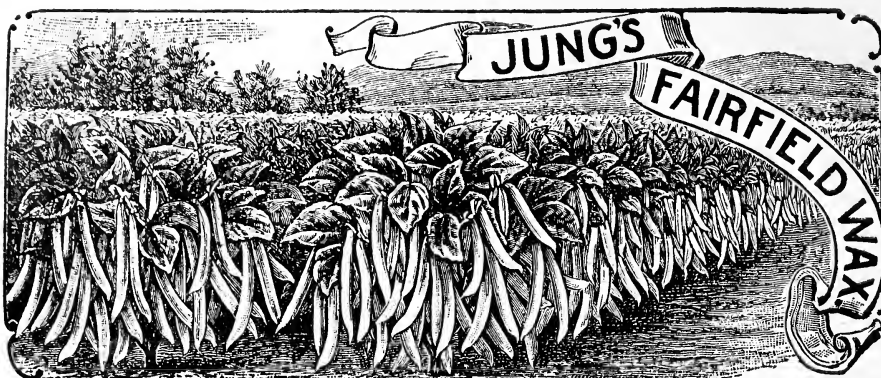

One of the most popular green-podded sorts for either home use or market, many prefer it to the wax or butter beans. Pods are four to five inches long, medium green in color, round and very fleshy, crisp and tender. Under adverse weather conditions we know of no other variety that is more sure to produce a crop. Our strain is extra select and far superior to the stock usually offered. Pkt. 5c.; ½ pt. 20c.; pt. 30c.; qt. 50c.

NEW KIDNEY WAX

A good garden goes a long ways towards cutting down living expenses.

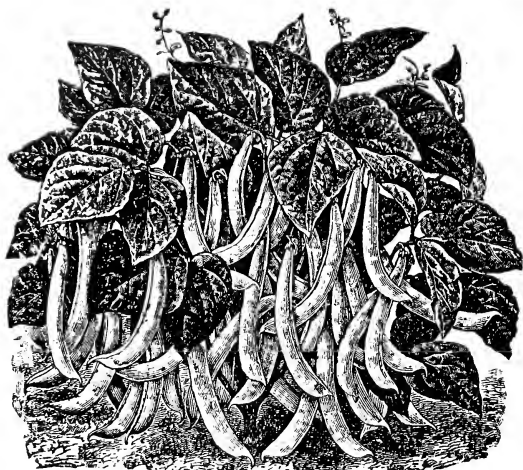

Four Superb Wax or Butter Bush Beans

Jung's Fairfield Wonder Wax

Without a doubt the finest Wax or Butter Bean ever introduced

It is with pleasure that we offer our customers this grand new Butter Bean as we are sure it will please the most critical planters. This variety originated on our Fairfield Farm and is by far the finest wax bush bean we have ever seen. The bushes are unusually vigorous and free from disease. They grow from 15 to 20 inches high, have large, foliage and bear an immense load of pods, which are from 6 to 9 inches long, one-half inch broad and have absolutely no strings whatever. The color is a rich lemon yellow. If you want the very best Butter Bean of them all try Jung's Fairfield Wonder Wax. Pkt. 10c.; $\frac{1}{2}$ pt. 25c.; pt. 40c.; qt. 70c

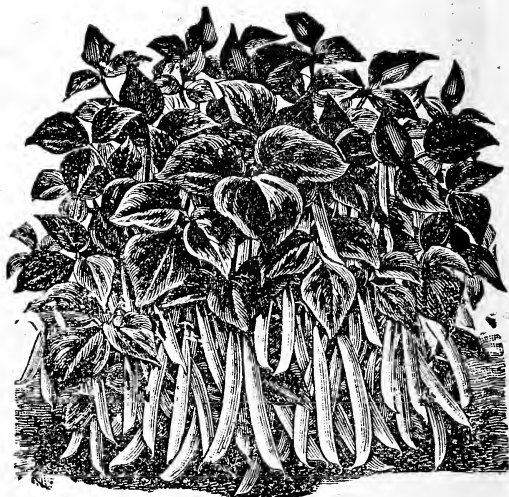

BRITTLE WAX

Brittle Wax

The Earliest of all BUSH BEANS. Of such excellent quality that it might well be termed "best of all."

The plants are very hardy and vigorous of true bush growth about fifteen inches high and heavily laden with the long, straight round, and very solid pods, from five to seven inches long. The pods are of a rich golden color, very tender and entirely free from strings at all stages of its growth. It will stand longer than any other bean without becoming hard. The pods are unexcelled for snap-shorts, having white seeds showing only a black dot at the eye. Any pods allowed to ripen will be readily saleable as winter shell beans. Include this great bean in your order...Pkt. 8c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c , postpaid

PENCIL POD BLACK WAX

Pencil Pod BlackWax

We consider this one of the best Wax Beans yet introduced. It is very productive and of most excellent flavor. The pods are long, straight and round like a pencil, fleshy and of a bright yellow color; tender, brittle and absolutely stringless. The plants are of true bush growth, 15 inches high, with abundant foliage. The magnificent pods are from 5 to 7 inches long! Pkt. 5c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 50c.

Refugee Butter Wax

One of the heaviest yielding of all wax Bush Beans, also one of the surest croppers. Many times when all other varieties were a failure, Refugee yielded a heavy crop. It is a very hardy variety, having withstood frosts which seriously checked other varieties. The bushes are literally covered with fine transparent yellow pods which are from 4 to 5 inches long, remarkably tender and brittle as it has no strings whatever. Plant it once and you will want it every year. Pkt. 5c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 50c.

REFUGEE BUTTER WAX

BUSH BEANS—Continued

Currie's Rust Proof Wax

One of the Earliest and Most Prolific Wax Bush Beans

The bushes are strong, vigorous growers and bear an immense load of long, flat meaty pods which are of the most handsome appearance. Not only does this variety possess the merit of being rust-proof but it is also extra early. The pods are exceedingly crisp and tender and of a most delicious flavor. Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 55c.

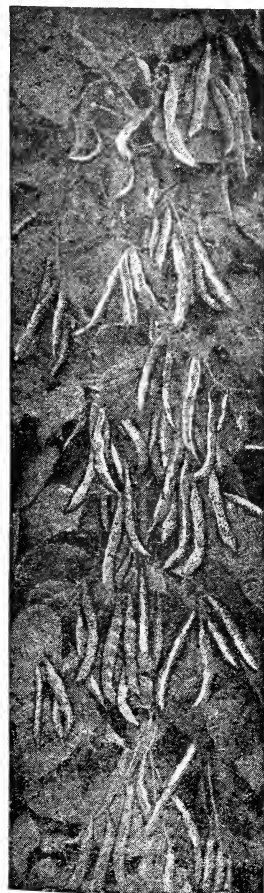

CURRIE'S RUST PROOF WAX

Wonder Bush Lima

This variety is a great improvement on Burpee's Bush Lima. While the bushes are fully as productive the pods are borne more at the center of the plant. This is a great advantage as the pods are held up from the ground. The bushes grow 18 to 20 inches high, requiring no poles or stakes whatever. The pods are of truly mammoth size and contain from three to four large beans each. Pkt. 8c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c.

WONDER BUSH LIMA

HENDERSON'S LEVIATHAN

POLE BEANS

Henderson's Early Leviathan Pole Lima

This is the very earliest. It will not only give pods earlier than any other strain but is also much more productive, both early and throughout the season. It is a strong grower, clinging well to the poles and is a sure cropper. The pods hang out from the foliage in large clusters and contain 3 to 5 large beans to a pod. It bears until frost. Pkt. 5c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 60c.

Kentucky Wonder Wax

The merits of the old Kentucky Wonder Pole Bean are well known. This variety has all its superb qualities with the addition of a beautiful transparent yellow pod. It is a rampant grower one plant filling a pole with vines densely loaded with almost a solid mass of pods from bottom to top. The pods are very large, being from 6 to 8 inches in length, exceedingly tender and very fleshy. The pods are so plump and fleshy that frequently they are of greater thickness than width. Deliciously rich and buttery when cooked. Pkt. 8c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c.

Perfection

VERY EARLY, HANDSOME PODS FINEST QUALITY

An early maturing, green podded pole bean, very desirable for snaps and also unsurpassed as green shell beans. The vines are strong and vigorous growers and carry a great mass of pods in clusters making them easy to gather. The pods are rich green in color, very long, often 8 to 9 inches, fleshy and tender and of fine flavor. The beans when shelled green are very large, tender and white; this is a very desirable feature when compared to some other varieties of this class the seed of which are dark colored. You will be delighted with our Perfection Pole Bean. Pkt. 8c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 60c.

PERFECTION

KENTUCKY WONDER WAX

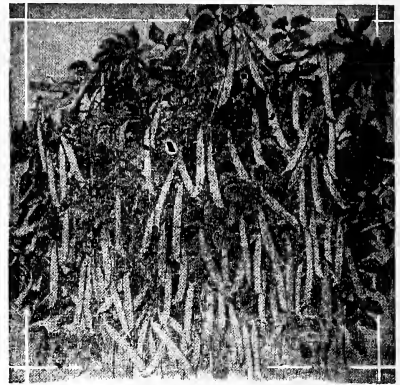

FIELD BEANS *Snowflake or 1200 to 1*

Ripens Early. Immense Yielder. Handsome Appearance. Unequalled for Soups or Baking

We again sent out many thousand packets of this wonderful bean the past season and are delighted to hear of the excellent results our customers are having with it. This is decidedly one of the best Pea Beans to grow for either market or home use both on account of its great yield and handsome appearance. Its cooking and baking qualities are unsurpassed. Vines are very healthy, dwarf or bushy in growth and bear an immense number of pods which are well filled with the pearly white beans. Get at least a pint of these wonderful beans and grow enough for your winter use. Pkt. 7c.; ½ pt. 20c.; pt. 30c.; qt. 55c., postpaid. Not prepaid: qt. 35c.; pk. \$1.50;

California Wonder

This is unquestionably the heaviest yielding bean known and a sure cropper. It is very early, having dry beans in 80 days from planting. The large pods are filled with pure white, even sized, nearly round seeds of excellent cooking qualities. The plant grows upright and holds the thick cluster of pods well away from the ground. The leaves fall early which allows the sun to quickly mature the pods. This is not so much a garden variety but distinctly the Farmer's Field Bean, closely resembling the well known "Navy" Bean. No other bean approaches it in yield, quality and readiness to find sale on the market. Pkt. 5c.; ½ pt. 20c.; pt. 30c.; qt. 45., postpaid. Not prepaid: Qt. 30c.; pk. \$1.45; bu. \$4.50.

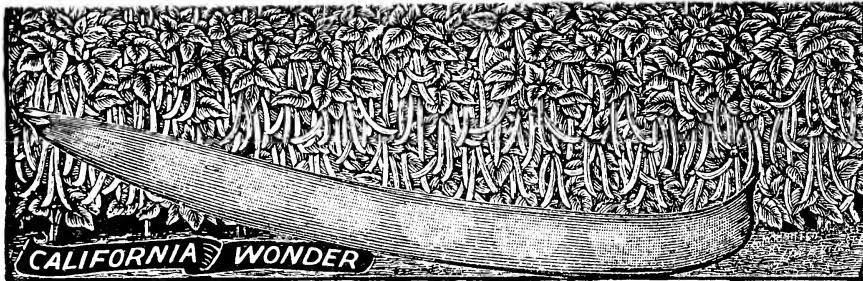

SNOWFLAKE OR 1200 TO 1

Mrs. John T. Kelly, Castygne Mont.—Your Snowflake Beans sure are fine.

Mrs. J. M. Trent, Trent, Ky.—I have used your seeds for three years and find them to be just what you say they are. Wont use any other sort

Isabella Buckley, Cheyenne, Wyo.—The seeds I received from you were fine and expect to order all my seeds from you.

BRUSSELS SPROUTS *Long Island Improved*

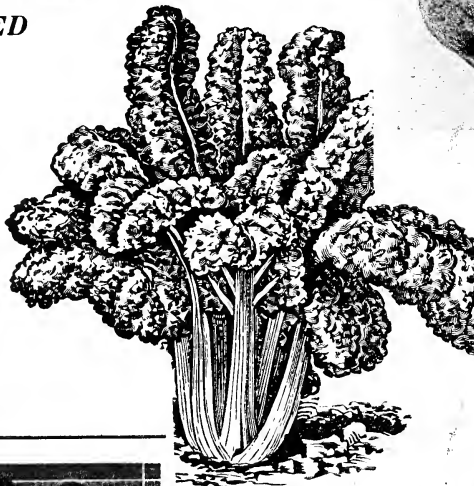

The Sprouts resemble miniature cabbages growing closely on the stalk of the plant. They are more tender and delicious than any cabbage. Hard frosts do not injure sprouts but improve them and they are left in the garden until desired for cooking. Strip off the outer covering of the Sprouts and cook them whole. They are a delicacy not surpassed by the finest cauliflower. Pkt. 5c.; oz. 15c.

BRUSSELS SPROUTS

GREEN CURLED ENDIVE

Mostly sown in June or July for fall use, in rows about one foot apart; thin out to 8 inches apart and when 8 inches long, blanch by tying the top together. Green Curled is a hardy variety, the most desirable for home use or market garden. Deep green leaves beautifully cut and curled; easily blanched and becomes crisp, tender and very fine flavored. Pkt. 5c.; oz. 15c.; 2 oz. 25c.;

SWISS CHARD

SWISS CHARD—*Lucullus*

Plants grow two feet high and consist when fully developed of about a dozen creamy white, attractive curled leaves. These leaves, are carried on broad, thick stalks about 12 inches long. The leaves may be cooked in the same manner as Spinach. Pkt. 5c.; oz. 10c.

CRESS—*Fine Curled*

An annual, making a good salad. Leaves are finely cut and feathery, like a good parsley. It is dwarf and compact in growth. Very ornamental, of quick growth, crisp and refreshing. Pkt. 5c.; oz. 10c.

ENDIVE

BORECOLE OR KALE

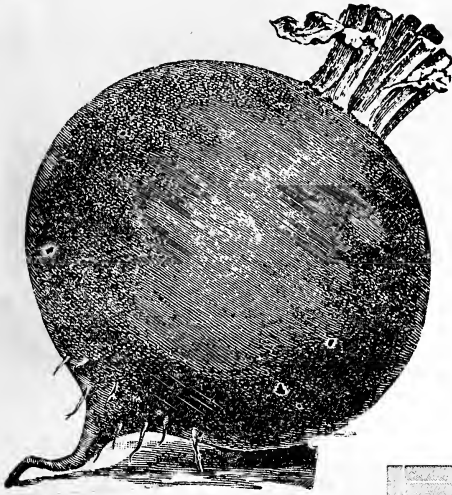

BORECOLE or KALE *Dwarf German*

Useful for furnishing greens or boiling, during the early fall, winter and spring months. The leaves are very curly, bright green, tender and delicate in flavor. The plants are hardy and the quality is improved by freezing. Pkt. 5c.; oz. 10c.

TABLE BEETS

Early Model

This splendid variety has attained perfection for table use. It is extremely early, of perfect globe shape and of finest quality. It is a fine selection of blood red beet, extremely smooth and of symmetrical growth, fine rich color and desirable shape. The roots of Early Model are of good size and run uniformly perfect; almost round, with small, dark crimson-colored leaves and a slim tap-root. It makes a rapid growth and matures very early. In quality and color it is peerless; very fine grained, tender and sweet, never woody or stringy. The tops are small, making it a good forcing variety. It retains its choice quality and freedom from woodiness until the Beets have reached their full size. Pkt. 7c.; oz. 12c.; $\frac{1}{4}$ lb. 25c.

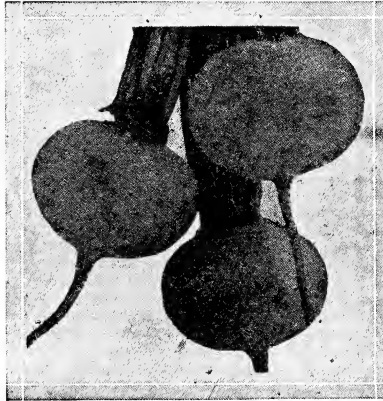

EARLY MODEL

Detroit Dark Red

SPECIAL SELECT STOCK

Detroit Dark Red beet has long been regarded as the standard of excellence. It is very early, nearly as early as Egyptian and greatly surpasses that variety in flavor. The color is rich, dark red and the shape is globular. It is fine-grained in texture and has a small top. It is free from side or fibrous roots, being always smooth. It is excellent for forcing; for a main spring and summer crop or for use in winter, as it is a good keeper. It cooks sweet, tender and crisp and is in every way a standard sort for the market or home gardener. Has made a good crop in seven weeks from sowing. Pkt. 5c.; oz. 12c.; $\frac{1}{4}$ lb. 30c.

DETROIT DARK RED

Improved Blood Turnip

Extremely Early, Deep Red, Tender and Sweet

This wonderful early beet is the result of years' reselecting and improving and is now so perfected that we believe it is one of the earliest and best turnip shaped beets grown. It is much earlier than Crosby's Egyptian, maturing in about 40 days, of perfect shape and beautiful, deep red color. The tops are not quite as large as Crosby's Egyptian, which permits close planting and is excellent for bunching; a desirable early sort for the home garden as well as for market. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.

KLEIN
WANZLEBEN
SUGAR BEET

SUGAR BEET

Klein Wanzleben

This Beet is the result of years of methodical and persevering selection. It gives better results than any other variety. It is extremely rich in sugar, thousands of analyses showing that the average percentage of sugar obtained from this variety is about eighteen and its average yield may be stated as from 15 to 16 tons an acre but crops of 25 to 40 tons per acre have been obtained off it. Flesh finely grained and very sweet. Pkt. 5c.; oz. 8c.; $\frac{1}{4}$ lb. 25c.

COLLARDS

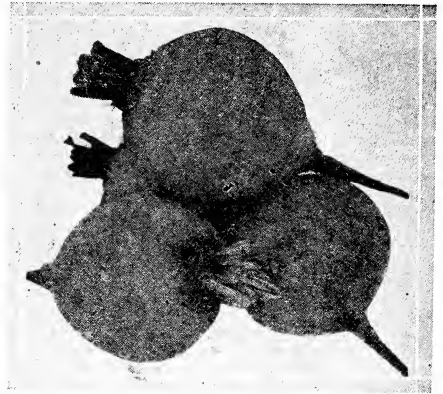

True Georgia

A tall, loose form of cabbage grown in the South as a substitute for cabbage and extensively used there for the table as well as for stock feeding. It continues in growth and is usable all winter. Hardier, easier to grow and can be grown in poorer soil than cabbage. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 40c.

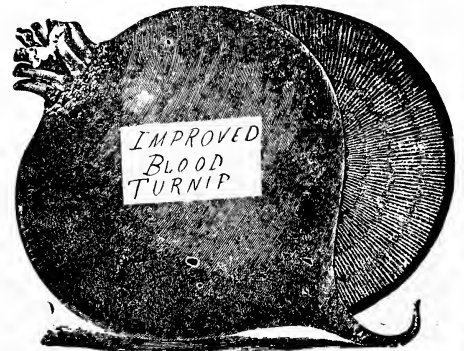

Dark Leaved Globe

Excellent for the Home Garden or Canning

This early globe-shaped beet of excellent quality is especially esteemed on account of its dark red color, which extends entirely thru the beet and without the light colored ring seen in some varieties. The medium sized beets are smooth and handsome and are now being largely used for canning as well as for the home garden or market. It retains its good quality even after it gets large, and is an excellent variety on this account for fall use as well as for spring. Maturing in about 50 days. Pkt. 5c. oz. 10c.; $\frac{1}{4}$ lb. 30c.

DARK LEAVED GLOBE

MANGELS

Mammoth Long Red

The heaviest cropper. This mangel is enormously, wonderfully productive. The flesh is red, of very fine texture and quality, containing less water and more sugar than any other Mangel, except it be the Half Long Sugar, making it most nutritious and milk producing. Sheep and other stock thrive better when fed on it, picking out pieces of it in preference to other kinds. Oz. 8c.; 2 oz. 15c.; ¼ lb. 20c.; ½ lb. 30c.; lb. 50c.

Golden Tankard

A smooth, yellow-fleshed Mangel; roots are of large diameter, tapering quickly to the bottom which is quite broad, with only a small taproot. It grows largely above the soil and is easily harvested. It yields an enormous bulk on good soil and can be closely grown in rows. No root crop is a better paying investment for farmers to grow than Mangels. Oz. 8c.; ¼ lb. 20c.; lb. 50c.

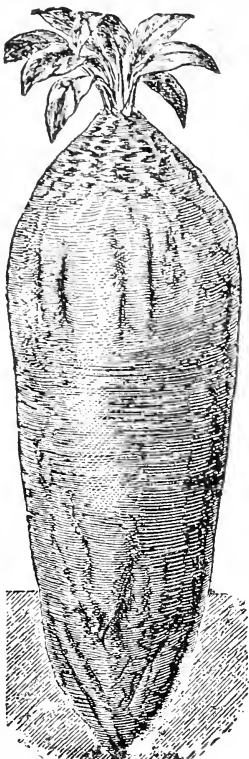

GOLDEN TANKARD

We Pay the Postage

Except where noted we pay the postage on all seeds by the pkt. oz., ¼ lb., ½ pt., pt., and qt. Please remember this when comparing prices.

CABBAGE

The Cabbage seed we are offering was grown with exceptional care. The plants were grown from selected stock and the heads were all carefully inspected before being set out. Our packets of Cabbage each contain seed enough to produce 500 plants.

MAMMOTH LONG RED

Early Jersey Wakefield

The standard pointed-headed Cabbage throughout the United States

The heads are uniformly hard and solid and are pyramidal in form, generally pointed at the end with but few outside leaves. The outside leaves are usually thick and heavy and it is thereby enabled to withstand more cold weather without injury when carried through the winter. Having but few outside leaves it may be planted close so that more heads can be grown to the acre than with other sorts. It is exceedingly tender, fine grained and as a cropper no early cabbage can approach it. Size is ideal for marketing. Pkt. 5c.; ½ oz. 15c.; oz. 25c.; ¼ lb. 65c.

EARLY JERSEY WAKEFIELD

grow so compact that fully one thousand more heads than is usual with large cabbage can be grown to the acre. Seeds sown in July and plants set in August will produce good heads for wintering. It is a money maker for gardeners. Pkt. 5c.; ½ oz. 15c.; oz. 25c.; ¼ lb. 65c.

ALLHEAD EARLY

Allhead Early

This variety has proved itself to be adaptable to a wide range of both soil and climate and is well-worth recognition as a standard American sort. It is the earliest of all large cabbage and considerably larger than any other early summer cabbage. The deep flat heads are remarkably solid and the most uniform in color, shape and size of any variety. Good quality and tenderness are marked features. It is suitable for growth in spring and early summer or for use as a winter sort. The heads

Surehead

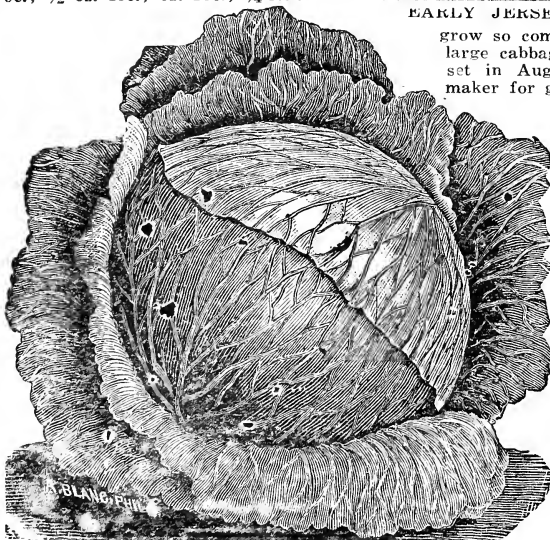

Sureness in heading and regularity in growth have placed this at the top of the list, and we have no fear of using words of praise too high for its merits. It forms large, hard, solid, flattened heads, uniform in shape and color and of handsome appearance. It has a very short stem and is a compact grower. It is as natural for this cabbage to form a head as to form leaves and reports of 99 marketable heads from 100 plants are of frequent occurrence. Nobody will be disappointed in our strain. Pkt. 5c.; ½ oz. 12c.; oz. 20c.; ¼ lb. 60c.

Red Drumhead

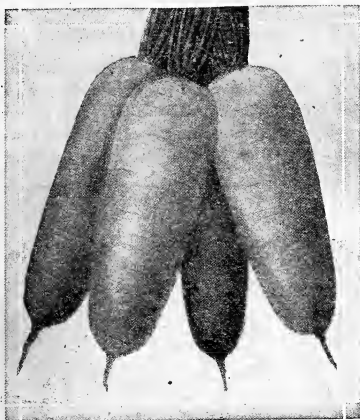

This is the well known Standard Cabbage. Heads are of large size, slightly rounded and from seven to eight inches in diameter. A valuable variety for pickling; very sweet, tender and of excellent quality. Pkt. 5c.; oz. 20c.; ¼ lb. 70c.

Perfection Savoy

This is the hardest heading and best all-round SAVOY. Plants are of strong growth, having only a moderate amount of outer foliage growing closely around the large, solid heads. It is very sweet and crisp and always tender. The heads are beautifully blanched and of the finest flavor. Pkt. 5c.; oz. 20c.; ¼ lb. 60c.

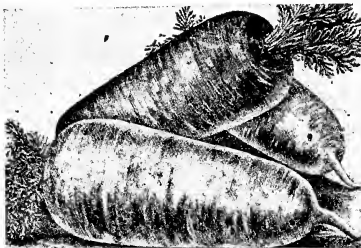

SUREHEAD

JUNG'S EARLY MARKET

Danvers Half Long

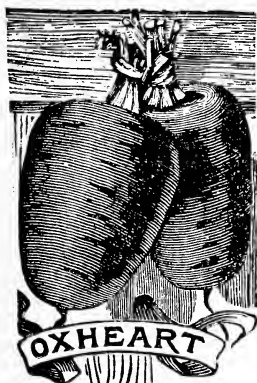

A handsome half-long cylindrical, stump rooted carrot of good size and of a rich, orange color. It grows to a large size, is smooth and the flesh very close in texture, with little core and a small, tapering taproot. It is a good carrot for all soils and under good cultivation it has yielded 25 to 20 tons per acre. It is very easily harvested. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.; lb. 80c.

DANVER'S HALF-LONG

Chantenay

This variety is desirable in all respects. It is stump-rooted and therefore very easily dug. Roots are very smooth, fine in texture and of a beautiful orange color. For table use it is considered to be the best of all, both on account of shape and quality. It is a heavy cropper and undoubtedly one of the best for both the market and private garden, while its great productiveness makes it very desirable as a field sort. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.; lb. 80c.

Oxheart

A magnificent carrot for general culture; indeed by many considered the best of all. It is very thick through, about 5 inches long, stump rooted, often attaining a weight of 5 pounds. Flesh is a rich orange in color, very tender and sweet. We recommend this variety for both home and market gardens; especially for hard or stiff soils where longer varieties will not thrive. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.; lb. 75c.

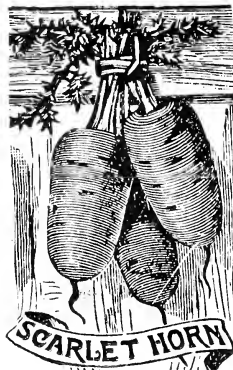

Large White Belgian

This is the largest heaviest yielding stock carrot grown. Nearly half its length grows above the ground making them very easy to harvest. Carrots are often 18 inches long and 4 to 5 inches in diameter. Yields of 15 tons per acre are nothing unusual. Excellent for either cows or horses. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.; lb. 70c.

CARROTS

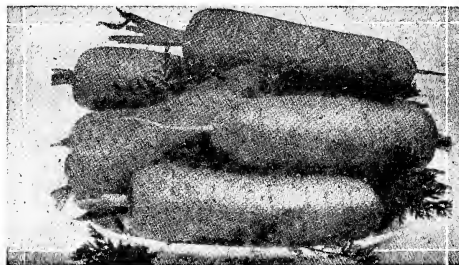

Jung's Early Market

A handsome half-long variety, the shape of which is well shown in the illustration. They average 6 inches in length by $1\frac{1}{2}$ inches in diameter and are ready for use quite early. The skin is very smooth and clean and of rich orange color. The flesh is of fine texture, free from all stringiness, while the core is very small, having no pithy or woody fibre. Our sales of this grand Carrot are increasing every year. Pkt. 5c.; oz. 12c.; $\frac{1}{4}$ lb. 30c.; lb. \$1.00.

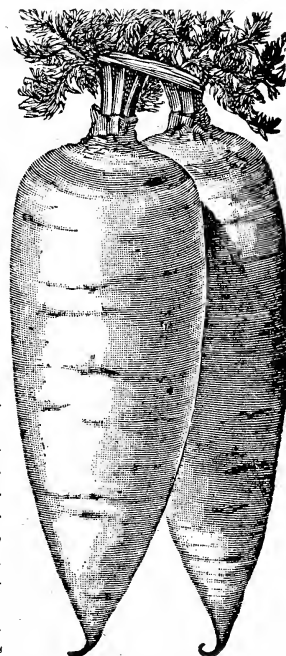

Early Scarlet Horn

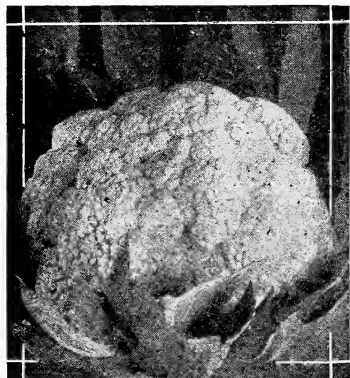

This is a popular early variety, three to four inches long, and is a great favorite for bunching for market and is sometimes used for forcing. Flesh is fine grained and a deep orange in color. It has a small tap-root and does fine in shallow soil. A fine table Carrot and when pulled young it is considered the best table sort. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 45c.

CHANTENAY

LARGE WHITE BELGIAN

DRY WEATHER

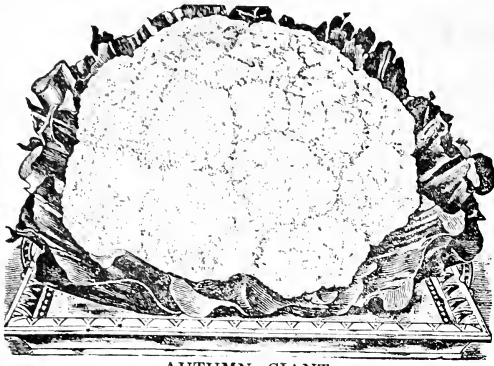

CAULIFLOWER

Dry Weather

Especially adapted to resist drought. Reaches perfection where ordinary sorts fail. Preeminently the best early variety for the family garden and also for market gardeners in sections which are not especially adapted for cauliflower. Plants are of vigorous growth, producing heads of snowy whiteness and fine quality. It has heavy foliage and is not liable to rot in hot weather. It is in all respects a first class cauliflower, but is particularly adapted to dry situations and to resisting the effects of drought. It also does well in wet or moist situations, producing heads equal to the best. Pkt. 12c.; $\frac{1}{2}$ oz. \$1.25; oz. \$1.90.

CAULIFLOWER—Autumn Giant

A distinct and valuable late variety with long stems and dark green leaves. The heads are very large, white, firm and compact and being well protected by foliage remain a long time fit for use. The plants should be started and transplanted early in the season to insure their full development. Pkt. 8c.; $\frac{1}{2}$ oz. 30c.; oz. 50c.

AUTUMN GIANT

CELERY

White Plume

This is the earliest and most easily blanched celery. The plants grow rapidly and blanch easily during the summer months. Later in the fall the central stalks and leaves are of pure snowy whiteness even without earthing up; but stalks should be gathered together and earthed up as in the other varieties so as to produce close, attractive bunches. As for succulence, crispness and quality the White Plume is unequalled. Pkt. 5c.; $\frac{1}{2}$ oz. 15c.; oz. 25c.

Easy Blanching

A new celery of special merit. Strong and stocky in growth with light green foliage, showing a yellowish hue. The stalks are large and heavy, solid, crisp tender and of a most delicious nut-like flavor. The creamy-yellow hearts are exceptionally large and firm and of handsome appearance. It is easily and quickly blanched. Due to the solidity of the stalks it is an excellent keeper and may, therefore be grown for fall and winter use. Pkt. 10c.; $\frac{1}{2}$ oz. 25c.; oz. 45c.

Golden Self-Blanching

The best of all self-blanching varieties. It is without doubt the most popular celery grown. The ribs are perfectly solid, crisp, brittle and of a delicious flavor which is not surpassed by any other variety while it has the decided merit of being self-blanching to a remarkable degree. It is extensively grown for market and private use not only on account of its easy culture but for its superior quality. The hearts are large and hard and blanched to a beautiful golden yellow. When grown in moist soil the stalks are numerous and large in size. Pkt. 8c.; $\frac{1}{2}$ oz. 25c.; oz. 45c.

Giant Pascal

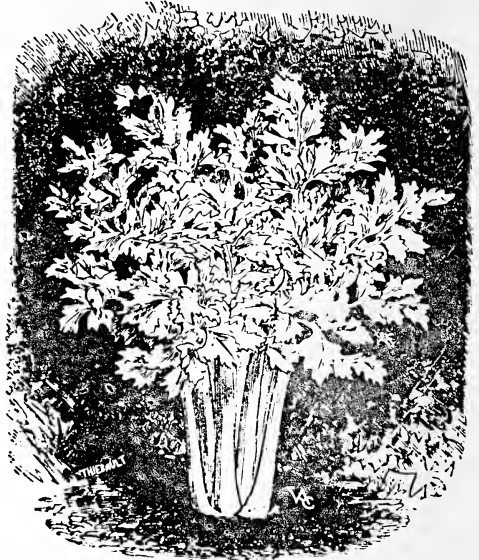

One of the most popular sorts for winter use. It grows about two feet high, the stalks are thick, solid and stringless and almost as brittle as glass. The stalks are of strong growth, wide and thick, quite heavily ribbed, very brittle and crisp when nicely blanched making large bunches. It blanches easily and keeps well. Especially recommended for the south where it is prized more than any other kind. Pkt. 5c.; $\frac{1}{2}$ oz. 12c.; oz. 20c.

Winter Queen

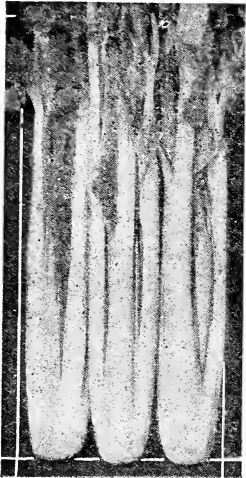

The most popular of all Celeries for winter. It grows very stout, thick and very heavy with a much larger heart than any other variety. It is a close compact grower, blanches to a beautiful creamy white and is showy and attractive in appearance when ready for table use. The stalks are solid, crisp, and of a rich nutty flavor. It bunches up handsomely and presents an attractive appearance on the market. Pkt. 5c.; $\frac{1}{2}$ oz. 12c.; oz. 20c.

Turnip Celery

This is an excellent vegetable. It produces large turnip-shaped roots which keep well for winter use. It is highly esteemed either cooked in the same manner as other vegetables, for flavoring soups, or sliced and used as a salad. Pkt. 5c.; $\frac{1}{2}$ oz. 12c.; oz. 20c.

WHITE PLUME

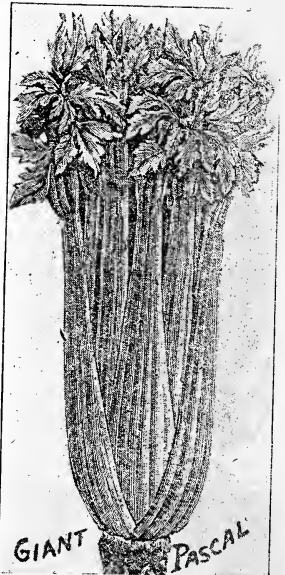

EASY BLANCHING

Be sure and order some of our Hardy Berry Plants, p. 50

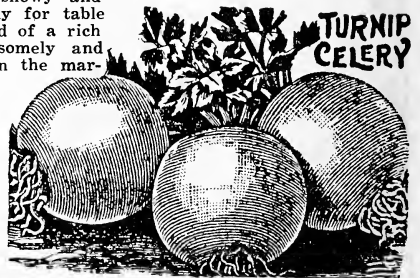

GOLDEN SELF-BLANCHING

GIANT

PASCAL

EVERBEARING

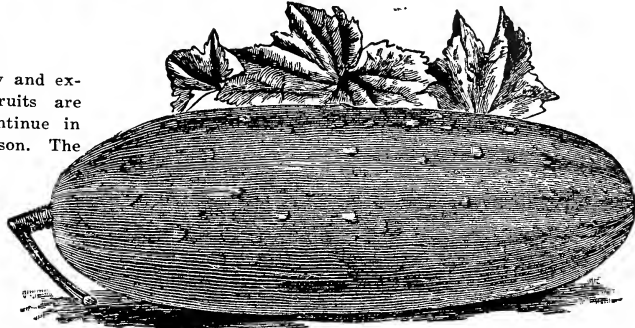

Everbearing

"This is a very early variety and extremely prolific. If the fruits are kept gathered, vines will continue in bearing throughout the season. The fruits of a rich, dark green color, average from 4 to 5 inches in length. Owing to its productiveness it is a fine variety to plant for producing small pickles. Pkt. 5c.; oz. 10c.; ¼ lb. 35c.

CUCUMBERS

Extra Early White Spine

A dark green, handsome Cucumber, often attaining a length of 12 inches and straight and attractive in shape. It makes a hard brittle pickle when small and a grand table variety when large. Excels in earliness, often ready for slicing when other sorts are only pickles. Vines are vigorous growers and bear large crops. It makes a valuable variety to plant for early market. Pkt. 5c.; oz. 10c.; ¼ lb. 35c.

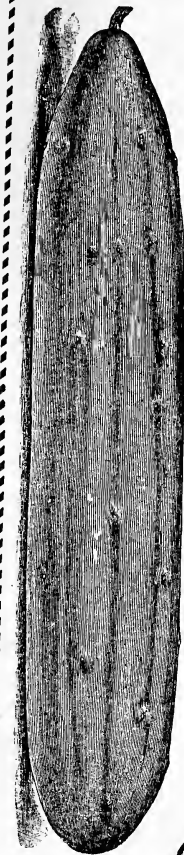

EXTRA EARLY WHITE SPINE

White Wonder

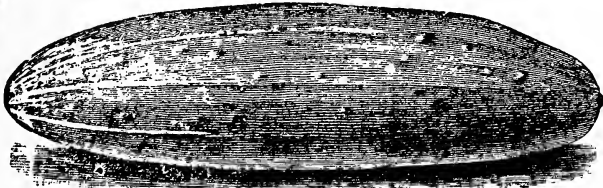

A wonderfully good slicing cucumber. In color it is a beautiful pure snow white. Grows to good size, usually 8 to 10 inches long and is very uniform. In season almost the same as White Spine but keeps in eatable condition longer. Its smooth, clear surface makes this an ideal pickle. The firm, crisp flesh with its pleasing flavor is just right for slicing or in salads. WHITE Wonder furnishes you Quantity and Quality. A packet of seed yields Cucumbers in abundance for canning, pickling and slicing. Pkt. 5c.; oz. 15c.; ¼ lb. 40c.

Fordhook Famous

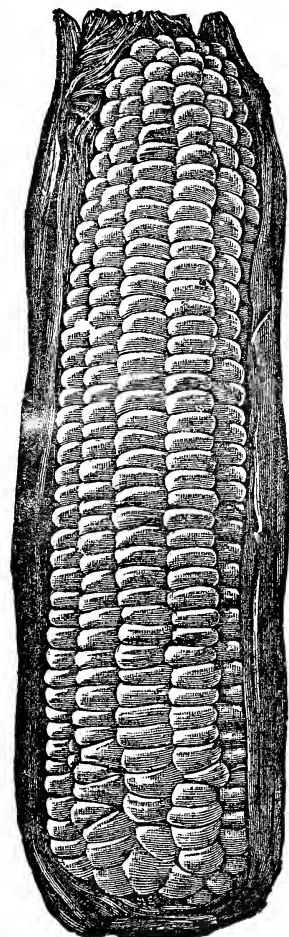

The longest white spine, finest flavored of all Cucumbers. This is the handsomest of all long green cucumbers; always straight and well formed; they never turn yellow. Critical buyers are willing to pay an extra price on market for these unequalled fruits. The vines are of strong, vigorous growth with heavy foliage and set the extra large fruits freely throughout the season. The cucumbers are smooth and regular in form averaging 12 to 14 inches in length and have a very thin and tender skin. The flesh is very thick, crisp and exceptionally mild in flavor. The cucumbers are about all flesh as the seed spaces are very small. Pkt. 5c.; oz. 10c.; ¼ lb. 30c.

WHITE WONDER

FORDHOOK FAMOUS

JUNG'S EARLY FORTUNE

JUNG'S NORTHERN GROWN SWEET CORN

Our stocks of Sweet Corn are mostly of our own growing, and is of extra fancy quality and high germination. You will find that for earliness our northern grown seed is way ahead of western grown seed. If you want to be the first on the market with Sweet Corn plant some of this seed.

Jung's Early Fortune

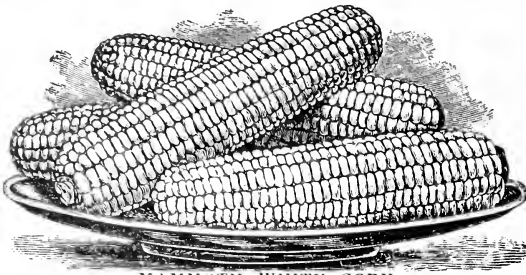

We sent out this variety for trial the last four years and it has given the best of satisfaction. This variety originally came from Canada and at our Fairfield Farm trials it was the earliest of all. There is no product of the garden so eagerly waited for as the first sweet corn of the season. Early Fortune is the real tender, juicy sweet corn, ready for use before the summer has really commenced. Not only is it early, but it is also sweet and delicate in flavor, being excelled in this respect by no other corn except Golden Bantam. On account of its extreme earliness, Early Fortune is especially adapted for planting in northern latitudes and in high altitudes where other varieties fail entirely. The stalks do not grow very large but have two and often three unusually large ears. Ears are about seven inches long and well filled with sweet and tender grains. Pkt. 8c.; ½ pt. 20c.; pt. 30c.; qt. 50c., postpaid.

SWEET CORN—Continued

Mammoth White Cory

Considered one of the best early sweet corns. It produces stalks about four feet high, each generally bearing two large, finely shaped ears which become fit for use in about 72 days. Six to seven inches long; very symmetrical and handsome, seldom with any opening between the rows at the base. Grain large, broad, very white and of remarkably good quality.

Pkt. 5c.; ½ pt. 20c.; pt. 30c.; qt. 45c.

MAMMOTH WHITE CORY

Jung's Select Golden Bantam

The Best, the Largest of all Early Sweet Corns, Retaining Its Delicate Tenderness Even When a Little Old

This variety is pronounced the favorite because of its extreme early character, vigorous growth and surpassingly delicious flavor. It is the ideal garden Sweet Corn, with the richest flavor of all. Besides being early it is very hardy and permits of the earliest planting. Especially recommended for Northern States also desirable for warmer locations, because the ears are protected by good firm husks and is not liable to smut. The stalks are dwarf in growth, averaging four feet in height. The ears are from 5 to 7 inches long and the grain is a bright golden yellow color. In flavor it is exceptionally rich and sugary and by every one admitted to be the finest flavored Sweet Corn. The small stalks can be planted closely together. For productiveness and quality it leads all varieties. Pkt. 5c.; ½ pt. 20c.; pt. 35c.; qt. 50c., postpaid.

Be sure to order Jung's Great
\$1 00 Collection.

Bantam Evergreen

Golden Bantam Crossed With Stowell's
Evergreen

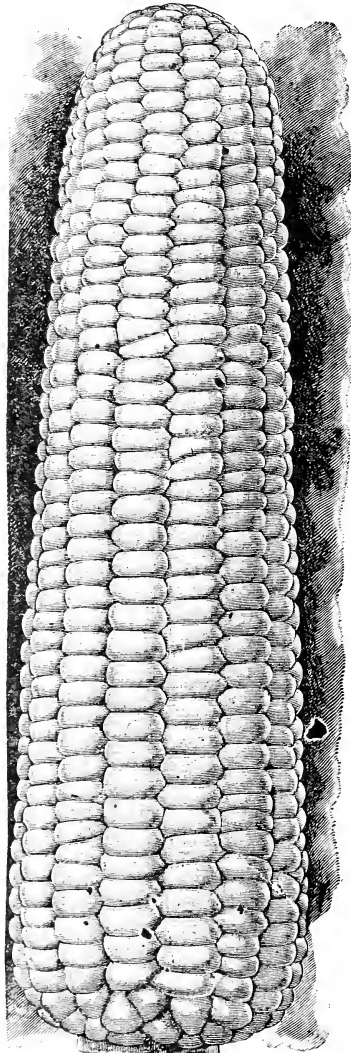

This variety of golden or yellow Sweet Corn combines the size of the Evergreen ear with the color and quality of the Golden Bantam. In crossing these two excellent varieties none of the good qualities have been lost, rather it surpasses them in sweetness and tenderness. The ears are 7 to 9 inches long, well filled with deep kernels of rich yellow corn. Not an extra early sort, yet it comes just right in season to follow the first earllysorts. The larger ears and prolonged season make it the favorite, both in the home garden and for fancy market trade. All lovers of Sweet Corn must at least give Bantam Evergreen a trial.

Pkt. 7c.; ½ pt. 20c.; pt. 30c.; qt. 55c.

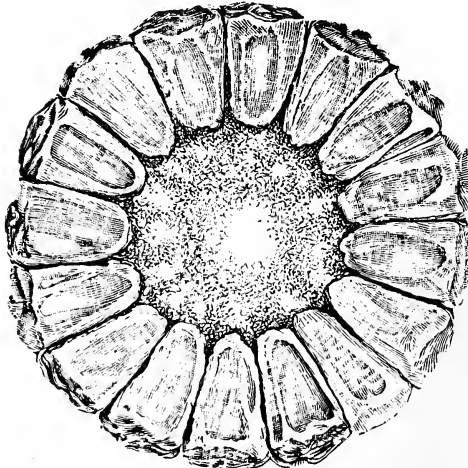

White Evergreen

The Leading Late Variety of Sweet Corn

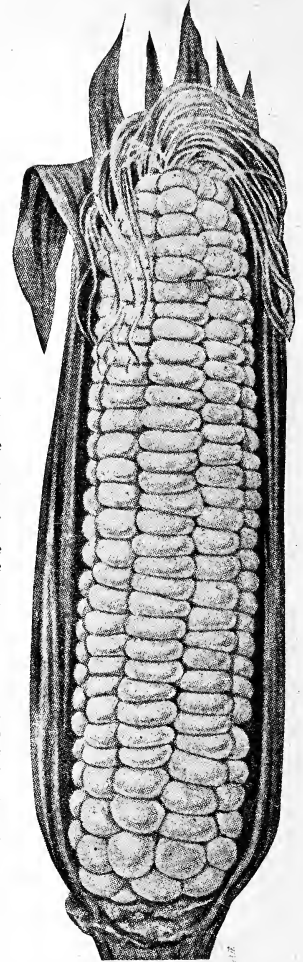

The most valuable Sweet Corn ever produced. White Evergreen is much superior to Stowell's. It retains all the most desirable features with the added merits of pure whiteness in color, a more tender grain and distinctly sweeter flavor. The ears average very large and are well filled to the tips with the long sweet grains of pure whiteness and most delicious flavor. The stalks are very strong growers, from 6 to 7 feet high and sometimes bear three fine ears to a stalk. The ears contain 16 or more rows of deep grains which are protected by a thick heavy husk. Pkt. 5c.; ½ pt. 20c.; pt. 28c.; qt. 45c.

BANTAM EVERGREEN

WHITE EVERGREEN

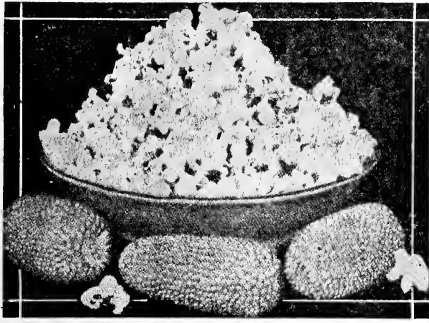

GOLDEN BANTAM

Special Offer

Almost everyone loves Sweet Corn. To have a continuous supply of sweet and tender corn throughout the season the four varieties offered on this page will meet every demand.

1 Pt. of each for \$1.00
1 Qt. of each for \$1.85
Postpaid.

Mrs. J. A. Chandler, Boyd Tex.—Your seeds are fine, am as much in love with John Baer Tomato as ever and I was delighted with Golden Bantam Sweet Corn and Fordhook Bush Squash.

BANTAM RICE

POP CORN

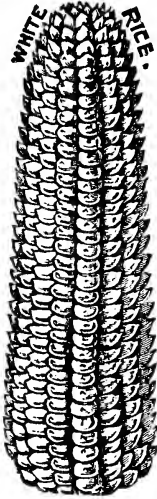

Bantam Rice

The Bantam Rice is a dwarf growing corn, a heavy yielder of attractive ears which are very thick and yield an unusually large quantity of shelled corn. The kernels are similar to the best strains of White Rice, only they are longer and slimmer and pearly white in color. Its greatest merit, however, lies in its superior popping qualities, there being hardly any hull or shell when popped. It is most tender and delicious as it fairly melts in your mouth. It combines both quality and quantity being a heavy yielder and superior to any other in quality. Try it once and you will not be without it again. Pkt. 7c.; ½ pt. 20c.; pt. 30c.; qt. 60c.

White Rice

A very handsome and prolific variety. The grains are pointed and somewhat resemble rice. The ears are from six to eight inches long and very fine in appearance. Pops full and white, very crisp and delicious. Pkt. 5c.; ½ pt. 20c.; pt. 30c.; qt. 50c.

Charles C. Stout, Johnson City, Tenn.—I used your seed last year and was very much pleased with them. The results were splendid.

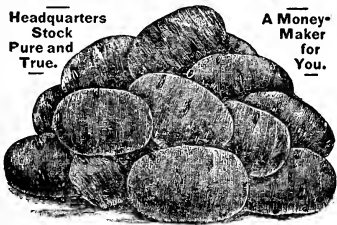

Grow New Varieties of POTATOES

potatoes of all conceivable colors, shapes and sizes—50 or more new varieties. One may make your fortune. This may be your last chance to obtain this rapidly vanishing seed. Please tell your friends.

Packet with full Directions for Growing, 15 cts. 4 for 50 cts. 10 for \$1.00.

EGG PLANT

Black Beauty

The earliest and best of all large fruited Egg Plants. It is an extra early variety with fruits of a beautiful jet color. The fruits set freely and develop quickly so that the crop can be gathered before there is any danger from frost. It is of dwarf growth and bears its fruits which weigh from one to three pounds each, close to the stem. The calyx is entirely free from spines and thorns. The intensely brilliant coloring is uniform over the whole fruit. The plants usually bear eight to ten immense fruits before being killed by frost. Pkt. 8c.; ½ oz. 25c.; oz. 40c.

BLACK BEAUTY EGG PLANT

PEANUTS

Early Virginia

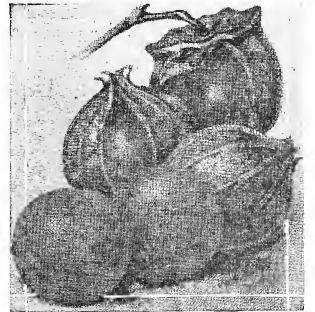

This splendid variety is very desirable because so early and prolific. It grows perfectly erect and seed planted early in May will ripen a crop in September and for this reason can be grown in the north. Let the boys and girls try them, it will give them lots of fun and provide peanuts for the winter. Full culture instructions on every package. Pkt. 5c.; pt. 25c.; qt. 45c.

GROUND CHERRY

True Yellow

These plants are low and spread and produce their luscious fruit in great abundance. Excellent for pies and makes delicious preserves as the fruit has a strawberry flavor. May also be dried in sugar like raisins and figs. Of easy culture and will succeed in most any garden. Pkt. 5c.; 3 pkts. 10c.

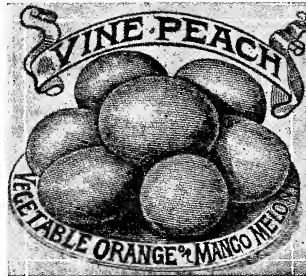

GROUND CHERRY

OKRA

White Velvet

The long tender pods of Okra are very delicious when sliced and cooked in soups. While this is its chief use it can be boiled and served like other vegetables. The pods should be gathered while young as they are then very tender. Pkt. 5c.; oz. 10c.

VINE PEACH

Grows on a vine the same as a melon. The fruit has the size, shape and color of an orange. The flesh is snow white and makes excellent preserves or sweet pickles, may also be sliced and fried like egg plants. Vines are quite hardy and productive. Fruit will keep a long time after picking. Pkt. 5c.; 3 pkts. 10c.

OKRA

TOBACCO

Connecticut Seed Leaf

Tobacco growing is gaining in popularity from year to year and we are offering this seed to supply your wants. Connecticut Seed Leaf is one of the best known and most widely grown varieties as it produces a leaf of good size and fine quality. Pkt. 5c.; oz. 40c.

HERBS

Herbs delight in a rich mellow soil. Sow in early spring in shallow drills 1 foot apart; cover lightly with fine soil and when up a few inches thin out or transplant into prepared beds. Care should be taken to harvest properly. Do this on a dry day just before they come into full blossom; dry quickly in the shade; pack closely in bottles or tight boxes to exclude the air.

ANISE

Used for cordials, garnishing and flavoring. The seeds have an aromatic taste. Pkt. 5c.

SAGE

Sow in rich ground and thin out the plants to stand 15 inches apart. Used for flavorings and dressings. Pkt. 5c.

DILL

This herb is used in large quantities in the making of Dill Pickles; also for flavoring vine gar. Pkt. 5c.; oz. 20c.

MAJORAM SWEET

The leaves and end of the shoots are esteemed for seasoning in summer and also dried for winter use. Pkt. 5c.

SUMMER SAVORY

The leaves and flowers are used extensively for flavoring, particularly in soups and dressings. Pkt. 5c.

THYME

The leaves are used for seasoning. Pkt. 5c.

Leek—Large American

Most highly esteemed for flavoring soups, stews etc. The plants are of strong, vigorous growth and have extra long stems which blanch to a snowy whiteness and are of delicious flavor. Cultivate the same as for onions. Pkt. 5c.; oz. 20c.

MOSS CURLED PARSLEY

PARSLEY

Moss Curled

The leaves are of an extra dark color. It is very productive and on account of its densely curled character of leaves, a large quantity can be gathered in a short time. It is much used for flavoring and garnishing. Pkt. 5c.; oz. 10c.

Trunip-Rooted or Hamburg

This variety, the roots of which resemble a small parsnip, is used in flavoring soups, stews, etc. For winter use store the roots same as turnips; as easy to grow as carrots. Pkt. 5c.; oz. 10c.

Frank G. Meuth, Paige, Tex.—I have planted your seeds for two years and am more than pleased, everything grows so nice.

L. M. Wells, Barton, Ky.—I find that your parsnips are the finest I ever saw and all other garden seed I have ever tried has proved O. K.

KOHL RABI

MUSTARD

Gigantic Thick Leaved

The leaves are large, light green with tinge of yellow, much crimped and frilled at edges. The plant is upright or slightly spreading in growth. This variety is highly esteemed in the south for the market as well as the home garden on account of its vigorous growth, hardiness and good quality. Pkt. 5c.; oz. 10c.

MUSTARD

Jung's Country Garden Collection 2.75

Our Country Garden Collection contains an ideal selection of seeds for the average country garden. These are all standard varieties and will produce for you a continuous supply of fresh vegetables throughout the season and a lot for canning and winter use. At the price of \$2.75 it is one of the greatest seed bargains we have ever made, most dealers will charge you from \$3.50 to \$5.00 for such an assortment, compare our price with those of other reputable seedsmen and you will find our statement to be true.

LETTUCE

JUNG'S TENDERHEART

MAY KING

Jung's Tenderheart

**VERY TENDER! SURE HEAD-
ER! SUCCEEDS EVERY-
WHERE**

A wonderful heat resister. Splendid for summer use. Medium size, light green and forms a hard buttery head of fine quality which blanches to a creamy white color. Grows compact and globular in form, leaves broad and much blistered. A very satisfactory head lettuce for the home garden as it can be planted any time during the season. Excellent for summer salads. Prices by mail postpaid: Pkt. 5c.; oz. 15c.; ¼ lb. 35c.

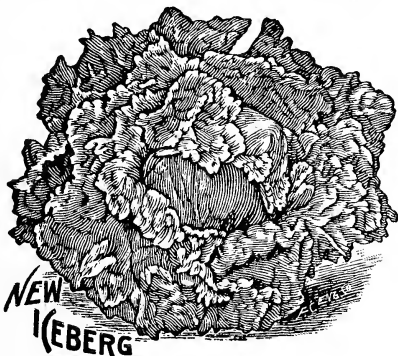

JUNG'S ALL CREAM

You should grow LETTUCE largely for your table. Nothing is more wholesome and if you do once acquire the habit you will wonder how you ever enjoyed a dinner without this delightful salad. Our stock is extra fine. Our packets contain one-fourth ounce of seed.

New Iceberg

The usual solidity of the heads is assured by the large white main ribs of the leaves, each of which, curving strongly into the center acts like a truss, making it impossible for the leaves to open outward and expose the center, which is thoroughly blanched. It is quick growing and always crisp and tender, whether grown in early spring or in the hot days of summer. The heads are of good size. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.

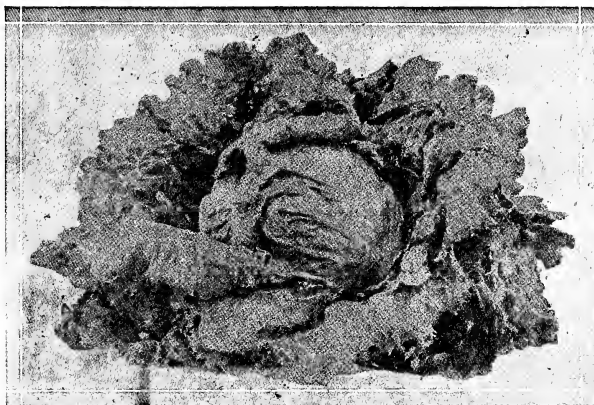

May King

This variety is not in the least affected by cold or wet weather, but produces large solid heads 10 to 14 days ahead of most other varieties. The plants grow from 6 to 7 inches in diameter with the outer leaves folding closely forming the plant into a solid head. The outer leaves are light green, slightly tinged with brown; the inner leaves are light yellow and of a fine rich buttery flavor. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.

Jung's All Cream

This remarkable Lettuce does not head but makes a large loose bunch of leaves of superlative fine quality. The leaves grow upright, the upper part of the outer turning outward very gracefully and are handsomely wrinkled. The inside leaves are almost white and wonderfully crisp and tender. It grows quickly, is ready for use early and remains for weeks. It is the cream of all sorts and should be grown in every garden. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.

NEW YORK OR WONDERFUL
New York or Wonderful

Recommended by critical market gardeners as the very best solid heading variety for Spring or Summer months. It will not scald or burn and will make solid heads where all other sorts fail. Very crisp and tender. Produces immense heads, 8 to 10 inches across and as solid as a Cabbage. It blanches beautifully. Crisp, Tender and Delicious. Absolutely free from Bitterness. The Largest-Heading Lettuce of all. It frequently weighs two or three pounds. The head is very solid, of pleasing light green color. As an example of its "standing" properties, perfect Lettucages were cut from the same bed for upwards of seven weeks. It is pronounced the finest in cultivation for exhibition purposes and for an outdoor all season variety it stands unrivaled. Pkt. 8c.; ½ oz. 15c.; oz. 25c.; ¼ lb. 80c.

LETTUCE—Continued

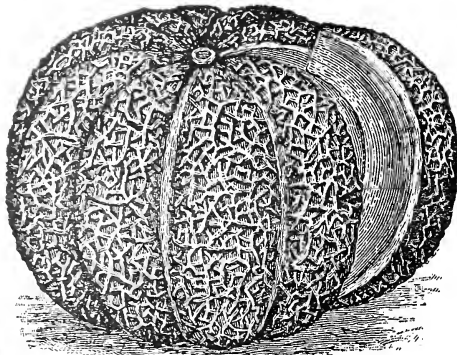

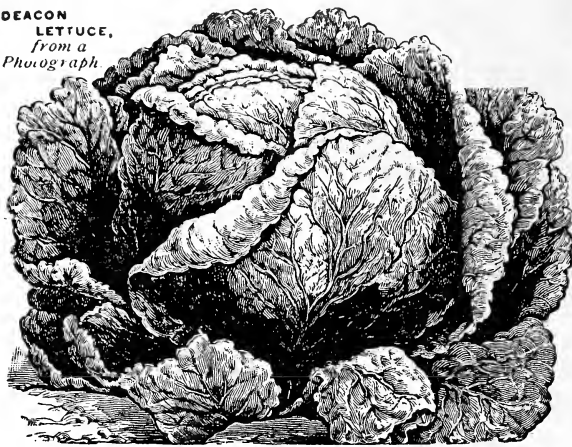

Deacon

This magnificent lettuce stands hot weather better than any other of the rich butter varieties. Plants make firm heads nearly as large and almost as solid as a cabbage. The heads are light green outside, while the inner blanched portion is cream-yellow and of a delicious, rich buttery flavor. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

GRAND RAPIDS--Select Stock

A well known forcing variety. It does not form heads but makes large bunches of light green leaves with fringed edges. Its upright habit of growth permits close planting. It will make a quick growth under adverse conditions and is not subject to rot. Quality excellent. Pkt 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

EXTRA EARLY HACKENSACK

Pollock No. 25

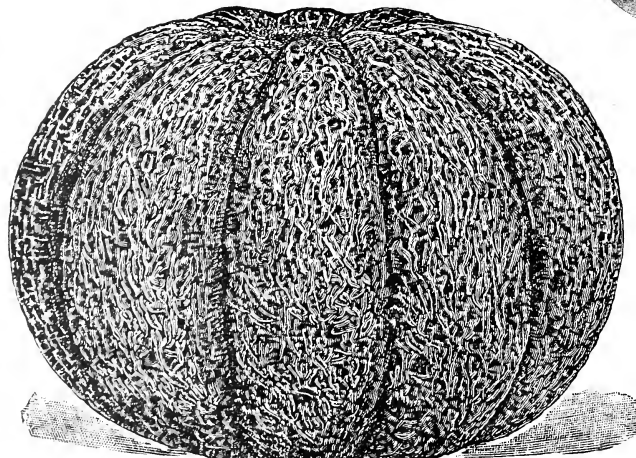

**SOLID NETTED. SALMON-PINK FLESH
UNEQUALED AS A SHIPPER**

In many of the great melon growing sections Pollock No. 25 is recognized as the best of all salmon-fleshed melons for shipping. It is rust-proof and growers know what it means to have a crop destroyed by rust. Pollock No. 25 was bred to meet every requirement for a first class shipping melon and is by far the finest melon for this purpose. It is an early melon of the solid netted type that is so very desirable. Seed cavity is very small, the luscious flesh is very thick, of genuine salmon tint and for quality is unexcelled. A splendid keeper and shipper always arriving in first class condition. We consider it one of the very best salmon-fleshed melons. Pkt. 7c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.; ib. \$1.25.

Mrs. W. J. Faust, Brookville, Pa.—I tried your seeds last year and found them excellent. I had the nicest garden I ever grew.

POLLOCK NO. 25

NEW EARLY FORDHOOK

MUSK MELONS

Extra Early Hackensack

This is a selection of the popular Hackensack, but ripens fully ten days earlier. A bountiful yielder and one of the most extensively grown of all Musk Melons. It is a large round, variety, flattened on the end, well ribbed and deeply netted. The flesh is green, inclining towards yellow at the center and of the most delicious flavor. Fruits attain a good size and vines make good strong growth and bear abundantly; a good shipper. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 35c.

New Early Fordhook

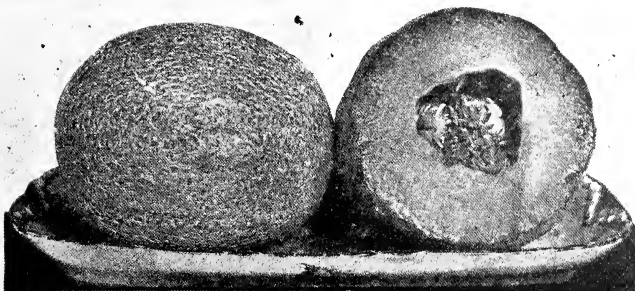

The finest flavored and sweetest Musk Melon in cultivation. Fully equal to the Emerald Gem in flavor. So firm is the rough netted skin and so solid the thick salmon flesh that the melons carry to market even better than Emerald Gem. The flesh is very thick, of an attractive deep salmon color and surpassingly sweet to the very rind. The rind, although thin, is usually firm so that the fruits carry well to market. It is most vigorous in growth, very early and extremely prolific. Each vine sets from five to nine melons around the stem and frequently touch one another. The melons are very even in size, weighing from $1\frac{1}{2}$ to 2 pounds each. For handsome appearance, extreme earliness, great productiveness and superb quality it is unexcelled. Be sure to give NEW FORDHOOK a trial. Pkt. 7c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

MUSK MELONS—Continued

Rust-Proof Rocky Ford

SELECT STOCK

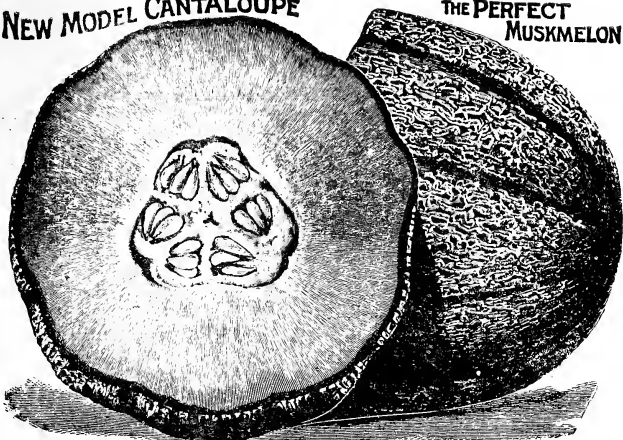

One of the most popular green fleshed Musk Melons. In the hands of Rocky Ford Growers it has made Colorado famous in eastern markets for melons of UNEQUALLED QUALITY. The vines are exceedingly healthy and vigorous, bearing an enormous quantity of fruits during the entire season. The color of the skin is a rich greenish gold; the netting is prominent and light in color, appearing very attractive. The flesh is deep, ripening clear to the rind, very solid, yet thoroughly melting. It is very sweet and luscious in flavor. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 30c.

RUST PROOF ROCKY FORD

NEW MODEL CANTALOUPE

THE PERFECT MUSKMELON

New Model

Spicy Green Flesh, Small Seed Cavity
A PRODIGIOUS BEAKER

The Model is an early cantaloupe, about twice the size of Rocky Ford and more productive. It is almost round, the flesh is thick and firm, green-colored, while in delicacy and flavor it is unexcelled. The flesh extends from the rind almost to the center of the melon. The Model bears transportation well and can be carried to distant cities without injury. The average weight per melon is over two pounds. No one who wants good melons for either home or market use, should fail to plant this variety. Pkt. 5c.; oz. 12c.; $\frac{1}{4}$ lb. 40c., postpaid.

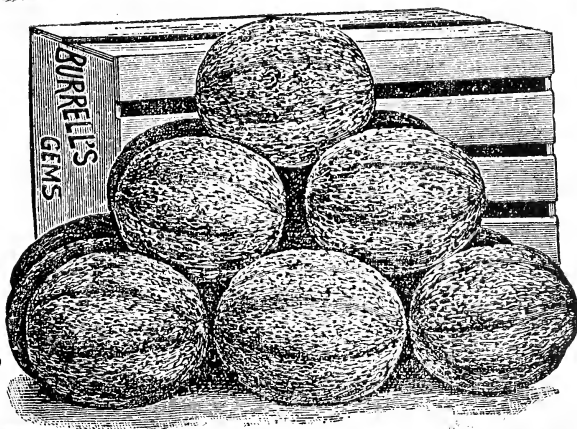

GOLD LINED ROCKY FORD

Paul Rose

This variety combines all the good qualities of Netted Gem and Osage, the varieties from which it originated, possessing the sweetness of the latter and the finely netted appearance of the Gem. The fruits are nearly round or slightly oval and of a light green color when fully ripe. The flesh is thick, of a rich orange color and ripens close to rind. Its firm flesh makes it an ideal shipper. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 30c.

Burrell's Gem

A popular salmon fleshed melon. The melons are 6 to 7 inches long by 4 to 5 inches in diameter, rather sharply sloping at the ends. They are quite well ribbed and covered with a fine grayish netting. The flesh is thick and firm, ripening close to the skin, leaving only a thin rind. The skin is a rich dark green contrasting finely with the deep orange-salmon colored flesh, which is very sweet and tender. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 30c.

Gold Lined Rocky Ford

This popular melon has been on the market for the past three years and has met with universal satisfaction wherever tried. We consider it the best type of Rocky Ford Melon grown for shipping and market gardeners trade. Its quality and productiveness are unsurpassed, every melon being marketable. Every care possible has been exercised in breeding this melon to a uniform type for an ideal crating melon and it will carry farther in good condition than any other melon we are acquainted with. It is green fleshed with a good lining next the seed cavity, heavily netted and rust resisting. Pkt. 7c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

Mrs. Elizabeth January, Corvallis, Ore.—Was very much pleased with your seeds, they are fine and so much cheaper than they are here.

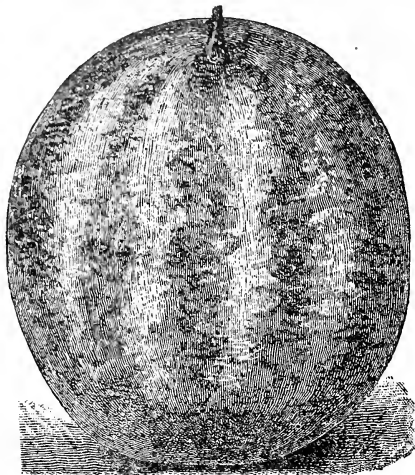

Richard Otto, Philadelphia, Pa.—Your seeds are unsurpassed for quality and yielding, they are my gardeners delight.

MUSK MELON—Select Early Osage

An excellent main crop, medium to large, oval, salmon-fleshed melon. The vines are vigorous and productive. The fruits are slightly oval, dark green, slightly ribbed and partly covered with shallow gray netting. The flesh is rich orange-salmon, very thick and fine grained and highly flavored. Of vigorous growth, the foliage is of such firm texture that the vines resist the attacks of insects and blight. It is very prolific for so large a variety, frequently producing as many as ten large melons to a vine. The seed cavity is so small that there is no tendency towards cracking open at the blossom end. Pkt. 5c.; oz. 12c.; $\frac{1}{4}$ lb. 30c.

SELECT EARLY OSAGE

HARRIS EARLIEST

Tom Watson

BEST QUALITY! BEST SHAPE! BEST SHIPPER! BEST SIZE AND BEST APPEARANCE

The Tom Watson is an extra large melon of attractive appearance, uniform in shape and quality. The luscious flesh is "sweet as honey" melting and of superb flavor. The average melon weighs from 35 to 40 pounds and measures about 20 inches in length and 12 inches in diameter. It is very prolific, producing in greatest abundance the delicious fruits. The dark green rind is tough, but thin and easily withstands shipping to far distant markets. The heart is large, with no sign of core. Pkt 5c.; oz. 10c.; $\frac{1}{4}$ lb. 30c.

Dixie

A Watermelon of highest quality and value. The size is large, specimens of 50 pounds being not infrequent. Flesh is scarlet, very fine and extra firm. The variety is the most prolific known, often producing six to eight melons on a single vine. The vines root at the joints and thus become more drought resisting and vigorous. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.

CITRON—Preserving Melon

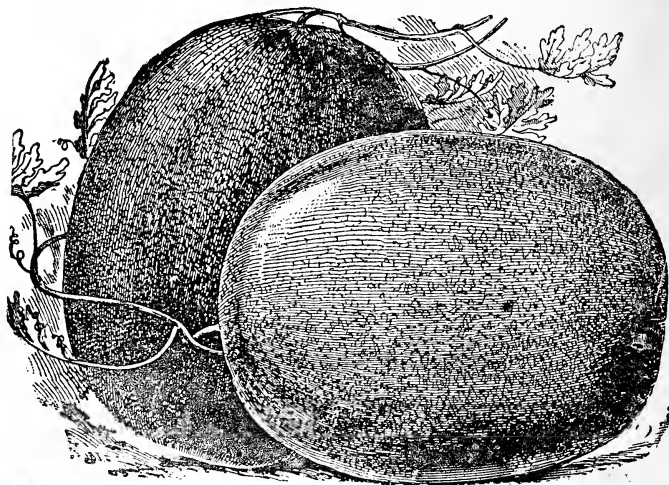

A large fruited variety, pure white flesh and thin rind. This is expensive when bought, yet can be grown and preserved by any energetic housewife, who will then also know it to be absolutely pure and good. It is planted like watermelon. Price, large pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.

WATER MELONS

Harris Earliest

THE BEST SHIPPER IN THE EARLY CLASS

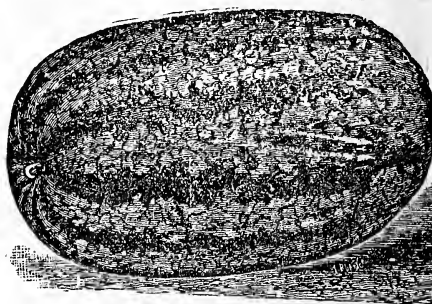

This is the sweetest early melon, the largest early melon and the best shipping early melon. It is slightly oblong, broadly striped light and dark green. Flesh is bright red, sweet and crisp; seed black. The vines are vigorous and productive, growing melons weighing 15 to 20 pounds. Plant this strain for home gardens, ready for use before other melons begin to ripen. Maturing in 60 to 70 days it is just the kind for northern latitudes. Harris Earliest beats all competitors for early shipping and is first on the market. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.

SWEET HEART

Sweet Heart

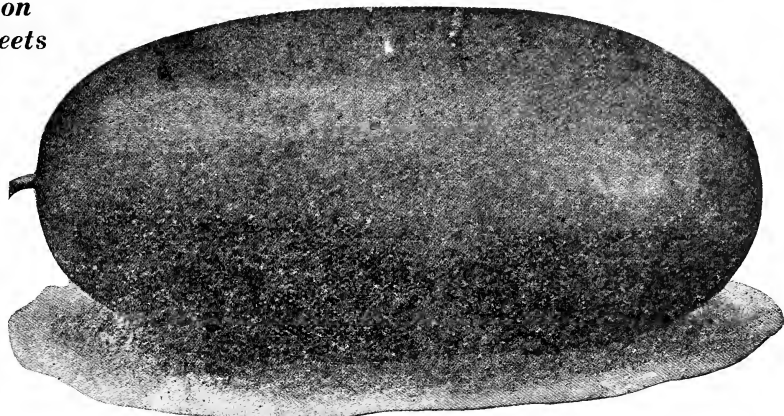

A large Melon, nearly globular in shape but a little longer than thick. Fruits are large and skin a very pale green, with distinct netted lines of a slightly richer shade. The solid flesh is a rich deep red, crisp and melting. Its excellent quality has made it a leading favorite on the market. The vines are vigorous and productive, ripening the fruits quite early. The handsome fruits bear shipping well. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.

DIXIE

The Leading Water Melon Improved Kleckley Sweets

There probably is no water-melon superior in quality to a good strain of Kleckley Sweets. The bright red flesh is the ideal of watermelon quality—firm, crisp, entirely free from stringiness and “sweet as sugar.” The melons are oblong in shape, about 20 inches long by 10 to 12 inches in diameter. The rind is dark green, thin, brittle and for this reason is not a good shipper for distances over 100 miles but for home use or close markets it is in a class by itself. Our seed is an extra select strain. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.; lb. 85c., postpaid.

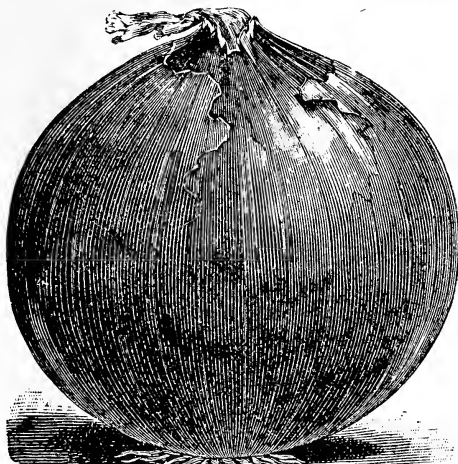

KLECKLEY SWEETS

Mrs. Emma Barndt, Norristown, Pa.—Have used your seeds two years and find there are none better, your All Cream Lettuce is the best for taste and crispness I have ever used.

Three True Globe Onions

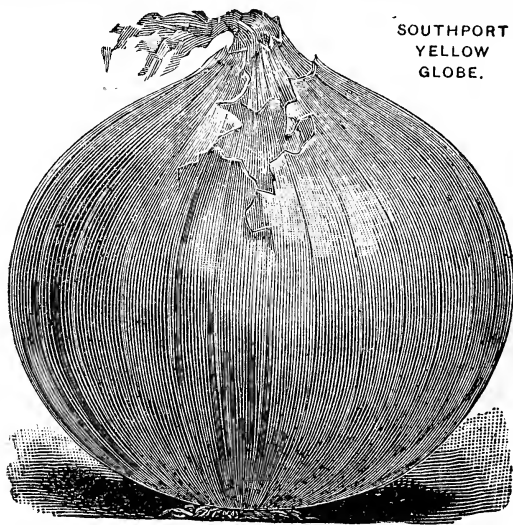

The Southport Globe Onions have increased wonderfully in public favor during the past few years, and they well deserve their popularity. In almost all markets they invariably bring top prices. They are not only of handsome appearance, remarkable solidity and good keepers, but also fully equal in yield to the best strains of any variety.

SOUTHPORT RED GLOBE

Southport Red Globe

A handsome onion of immense size, averaging from 9 to 10 inches in circumference, solid, heavy and of perfect globe shape. The skin is a glossy, deep purplish red color; the flesh is close grained, sparkling white, cooking tender and mild. It is hardy, a splendid keeper and a big yielder, averaging under good culture from 800 to 1000 bushels per acre. Our strain of this seed is unsurpassed, the bulbs being selected for largest size, solidity, brilliant rich color and typical globe shape, with small necks, thus insuring thorough and regular ripening and curing. You will make no mistake in giving this onion a trial. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 60c.; lb. \$1.95.

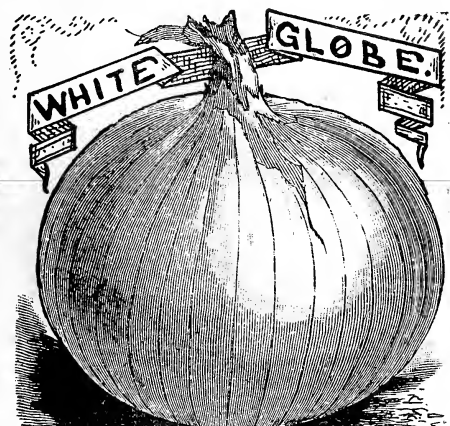

SOUTHPORT
YELLOW
GLOBE.

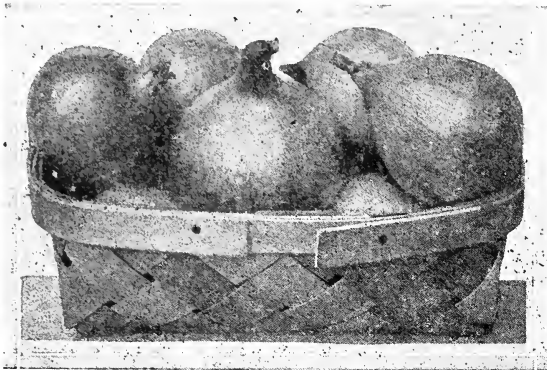

Southport Yellow Globe

This is one of the most satisfactory and popular varieties raised for family use or market. It is an enormous yielder, hardy and reliable, making under normal conditions often up to 1000 bushels per acre. The onions are models of perfection, growing uniformly deep and globular in shape, veritable globes of gold and extra large, averaging nine to ten inches in circumference. The color of the skin is an attractive golden yellow, the flesh snow white, firm, mild and juicy. The small necks enable the onions to ripen down evenly, insuring good keeping qualities. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 40c.; lb. \$1.40.

Southport White Globe

The most beautiful onion grown, being of symmetrical globe shape with a smooth satin-like skin, forming a perfect silver ball. It grows to a large size, averaging 7 to 9 inches in circumference and is solid and heavy; the flesh is purest white, close grained, mild and of delicate flavor. Owing to its large size, it is later in ripening than the White Portugal or Silverskin. As soon as ripe the bulbs should be stored in a cool, dark shed or dry cellar. It is a heavy cropper and for the family garden as well as for market it is a valuable onion. Pkt. 7c.; oz. 20c.; $\frac{1}{4}$ lb. 65c.

YELLOW GLOBE DANVERS

Ailsa Craig

The Giant Among Onions. Always Gets First Prize

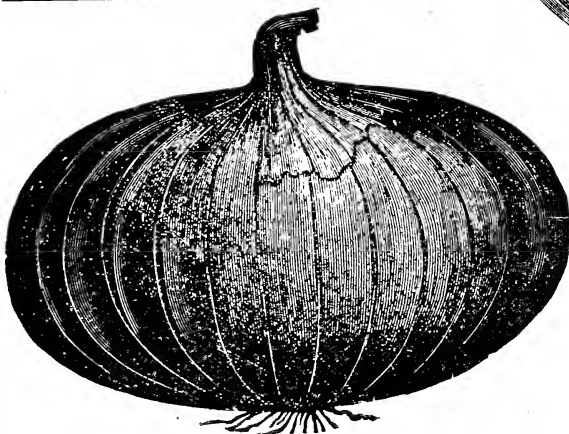

We offer a very choice strain of this popular Onion, which on account of its large size is in great demand. Specimens have been grown weighing two pounds and more. It is globe shaped and has a very small neck, a sure indication of fine quality. The skin is a beautiful straw color; flesh pure white, tender and of mild, delicate flavor; for eating raw it has no equal. It is a good keeper for such a large onion. If you want to grow big onions plant Ailsa Craig. Pkt. 8c.; oz. 25c.; ¼ lb. 60c.; lb. \$2.

We make a specialty of HIGH GRADE ONION SEED. It is better to plant no Onions at all than to sow seed of poor quality. Our seed is grown from the finest selected bulbs and is of strong vitality. Our packets of Onions contain sufficient seed to sow about 50 feet of drill.

AILSA CRAIG

B. J. Creighton, Mediapolis, Iowa.—The Ailsa Craig Onion was fine, also the Cardinal Climber was the delight of all that saw it.

LARGE RED WETHERSFIELD

Large Red Wethersfield

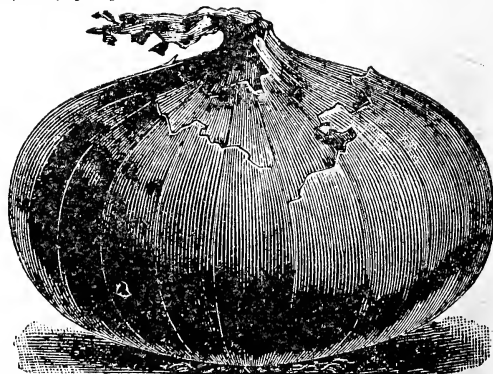

The most popular red variety. It is very productive, having yielded over 1000 bushels per acre. It is not an early ripening sort but continues in growth throughout the season and consequently makes a very large onion; the bulbs are large, though somewhat flattened as shown in the illustration. The outer skin is a deep purplish red, with flesh white, slightly tinged with rose. It is a fine keeper, suitable for later markets. The flavor is good and mild, admirable for boiling. The best variety for poor or dry soils. You will make no mistake by giving this variety a trial. Pkt. 5c.; oz. 15c.; ¼ lb. 40c.; lb. \$1.50, postpaid.

Australian Brown

This remarkable Onion is of medium size, wonderfully hard and solid and most attractive for market, both in form and appearance. They are extremely early ripening and make no stiff-necks or scallions. Every seed seems to produce a good size Onion and the bulb begins to form very quickly when the plant is not over three inches high. It has the reputation of keeping indefinitely and we think from its firmness and hardness that it will keep in good condition longer than any other Onion known. The color of the skin is a clear and amber brown. Pkt. 5c.; oz. 15c.; ¼ lb. 40c.; lb. \$1.35, postpaid.

Silverskin

A leading white, flat Onion. The bulbs attain a good size, ripen evenly and the color is a beautiful silvery white when cured. Its shape is flat but symmetrical. For a white variety it is not only early, but also a good keeper. For slicing and boiling it is one of the best, the flesh being mild and tender. It is largely grown for pickling, being sown three or four times as thick as usual and is also extensively sown for sets. For the family garden it is one of the best. Pkt. 5c.; oz. 20c.; ¼ lb. 50c.; lb. \$2.

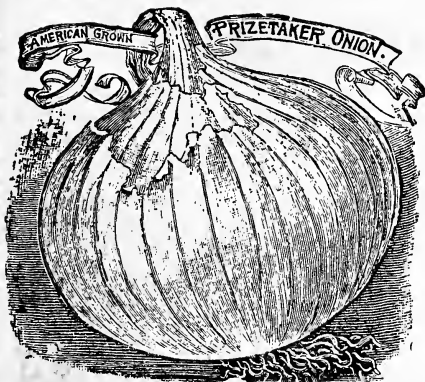

AUSTRALIAN BROWN

ONIONS—Continued

Yellow Globe Danvers

This is a standard yellow Onion and is more largely grown than almost any other variety. The bulbs grow to about 2½ inches in diameter, are nearly globe shaped and of a light yellow color. The flesh is pure white; the bulb is extremely hard and solid and its earliness, sure cropping character, handsome appearance and excellent quality have placed YELLOW GLOBE DANVERS among the leading varieties for the home and market garden. It forms a bulb very early in the season, so that it may be used almost all summer, and ripens crisp and solid in the fall. It is a very heavy cropper. Our strain of this variety is unsurpassed. Pkt. 5c.; oz. 15c.; ¼ lb. 40c.; lb. \$1.40.

ONION—Prizetaker

THE KING OF ALL YELLOW GLOBE ONIONS

This is one of the largest Onions in cultivation. It is a large beautiful Spanish variety, so often seen in the fruit stores and markets of the large cities.

Bulbs are nearly globe shaped, with a bright straw-colored skin, growing to an immense size the first season from seed. They ripen up without stiff necks and present a very handsome appearance. The flesh is pure white, fine grained, delicious and mild in flavor; fine for fall and early winter use. Bulbs measure from 12 to 14 inches in circumference and with rich soil and under special cultivation specimens have been raised weighing five pounds each. In the markets they attract special attention and sell rapidly at good prices. Pkt. 5c.; oz. 15c.; ¼ lb. 40c.; lb. \$1.40, postpaid.

ONION SETS

The planting of Onion Sets is increasing rapidly year after year. By planting sets you can have onion ready for use several weeks earlier than can be had from seed. Write for special prices if wanted in large quantities.

RED BOTTOM SETS

These are planted to produce both early green and late eating onions. Pt. 15c.; qt. 30c., postpaid.

YELLOW BOTTOM SETS

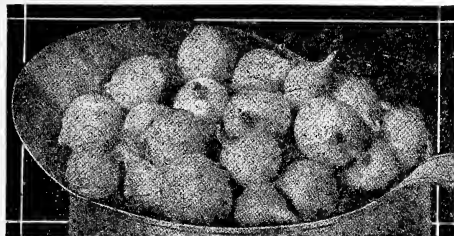

Produced from seed which makes the finest yellow sets. Fine and dry, medium in size and unsprouted. Pt. 15c.; qt. 30c., postpaid.

WHITE BOTTOM SETS

These are small, solid and of a beautiful white color. A favorite in private and market gardens. Pt. 20c.; qt. 35c., postpaid.

Japanese Onion Sets

The finest thing ever offered in Onion Sets and will no doubt displace all other sets. The common sets when grown during the summer often run to seed, these sets instead of running to seed will mature a large handsome bulb of yellow or golden color, very solid and excellent keepers. Those who have used these sets before are now planting them entirely. We guarantee them to give satisfaction or will refund your money. Pt. 20c.; qt. 35c.; 4 qts. \$1.25, postpaid. Not prepaid, Qt. 20c.; pk. \$1.00 bu. \$3.75. Our supply is limited, order early.

JAPANESE ONION SETS

IMP HALF LONG

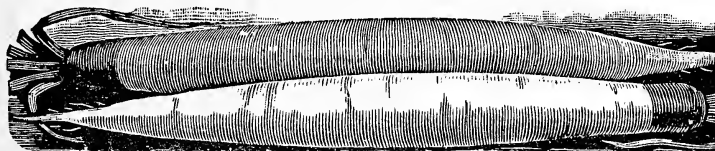

PARSNIPS

Jung's Private Stock

This is a highly improved type of the Half-Long, producing uniformly large and handsome roots of stocky form, heavy at the shoulder, well rounded, gradually tapering to the base, so that they can be easily dug, and if grown in properly pulverized soil the roots will be smooth and free from side roots and wrinkles. The flesh is white, of fine texture, free from core and stringiness, and especially fine flavored, cooking tender, sweet and rich. Pkt. 5c.; oz. 12c.; ¼ lb. 30c.; lb. \$1.00.

Improved Half Long

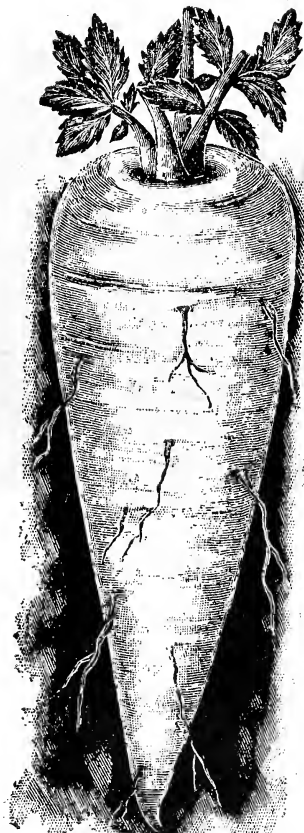

This variety is an improvement on the old Hollow Crown, forming roots shorter and thicker than that variety and is also more easily gathered. The flesh is white, of fine texture, free from core and stringiness and of the finest flavor when cooked. This parsnip is one of the heaviest croppers and we recommend it both for garden and field culture. Its quality is improved by freezing. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; lb. 85c.

SALSIFY

SALSIFY—Mammoth Sandwich Island

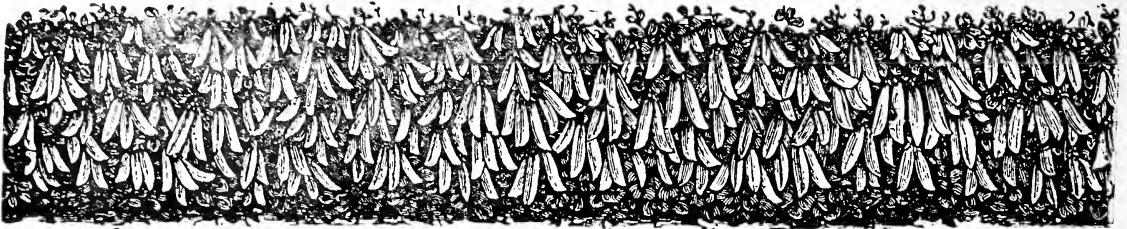

One of the most delicious vegetables and also one of the most nutritious. The flavor is very sweet and highly esteemed, whether boiled with butter or other suitable sauces, or sliced and fried or use in soup. The new variety is superseding the old type, as it produces roots nearly double the size and weight and of equally good quality. Seed sown in spring produces large, fine roots that may remain in the ground or may be dug and stored in sand or earth in November, thus keeping plump and sweet, to be used as desired during the winter. Mild and delicious in flavor. Pkt. 5c.; oz. 15c.; ¼ lb. 40c.; lb. \$1.50.

JUNG'S PRIVATE STOCK

JUNG'S NORTHERN GROWN GARDEN PEAS

Our PEAS are northern grown and free from bugs. They are the earliest, hardiest and most productive. They were grown from the finest selected stock, are bright, handsome, of perfect growth, were critically rogued and carefully hand picked. We advise our friends and customers to send their orders early so they may be filled before our stocks are exhausted.

LITTLE GEM

Little Marvel

A New Extra Early Dwarf Pea

The vines are of dwarf even growth, averaging fifteen inches in height, and are heavily set with fine pods, frequently borne in pairs. The pods average about four inches in length, are square at the bottom and well filled with six to seven quite large deep-green peas. The pods are ready for the table fully as early as American Wonder while the peas are larger and the vines produce a heavier crop. The peas retain their attractive dark green color and superb flavor when served at the table. You will be delighted with the choice flavor of Little Marvel.

Pkt. 7c.; ½ pt. 20c.; pt. 30c.; qt. 60c.

LITTLE MARVEL

British Wonder

The Sweetest Flavored Pea in Cultivation

Even sweeter in flavor than either Gradus or Thomas Laxton. The growth is similar to Carter's Daisy, except the foliage is a darker green and the pods are not as sharply pointed. It is, however, much more reliable and it is a **SURER CROPPER**. The vines are very stocky, 18 to 24 inches high and are well supplied with dark green foliage. Pods are produced in the greatest profusion, measuring about four inches in length and contain from 8 to 10 dark green peas each, which are of a most luscious flavor. It matures a little earlier than Dwarf Telephone and is most highly recommended. Pkt. 7c.; ½ pt. 20c.; pt. 30c.; qt. 60c., postpaid.

Little Gem

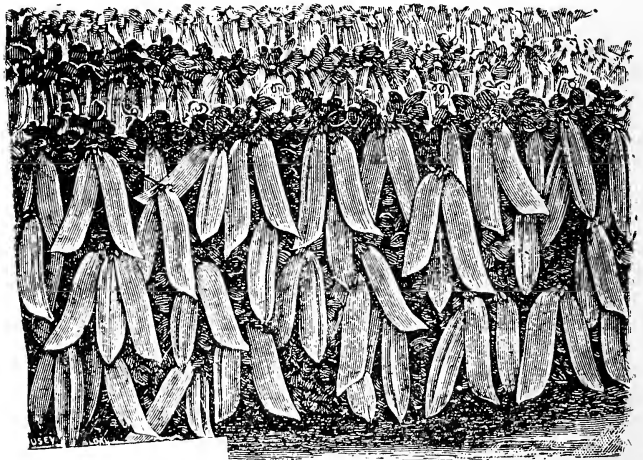

One of the most popular extra early dwarf peas. The demand for Little Gem increases every year which is a sure indication that it is giving satisfaction. The vines grow 14 to 16 inches tall and require no brush and are literally covered with pods. Pods contain from 6 to 8 peas of fine quality. A great favorite for home and market gardens. You will not be disappointed if you plant our "Gems." Pkt. 5c.; ½ pt. 20c.; pt. 30c.; qt. 60c.

HARBINGER

Harbinger

An extra early dwarf Pea of English origin which rarely grows over ten inches high and is immensely productive. It is quite distinct from all other varieties in habit of growth and appearance, the vines being unusually robust and stocky. The vines are literally covered with pods which are well filled with peas of delicious quality. The even, regular habit of the plants is a great advantage, particularly to market growers. Pkt. 7c.; ½ pt. 20c.; pt. 30c.; qt. 55c.

BRITISH WONDER

PEAS—Continued

Jung's Dwarf Telephone

GIANT PODS LUSCIOUS QUALITY IMMENSE YIELD

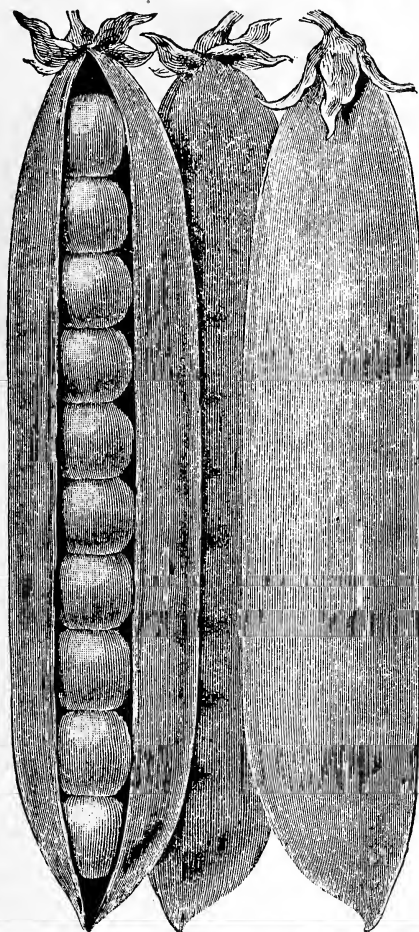

This is one of the finest dwarf green wrinkled Marrow Peas in cultivation and one that ought to be grown in every garden. A strong luxuriant growing variety, attaining a height of about 18 inches. The pods, which grow five inches long, are packed with immense wrinkled Peas, 7 to 8 being the average while 10 to 12 to a pod are frequently found. The quality is superb, rich sugary and meltingly tender. As high as 18 large, handsome pods have been grown on a single plant. Pkt. 8c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c.

Improved Senator

Big Yields. Sure Cropper. Fine Quality.

A splendid second-early variety which does well during hot weather and still retains its excellent quality. It is of the same season as McLean's Advancer but the pods are much larger and the vines produce more pods. Vines grow about two feet high, are very healthy and vigorous and produce a large crop of pods. The pods are of large size and contain from 7 to 10 peas which are sweet and tender, even when large. Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 60c., postpaid.

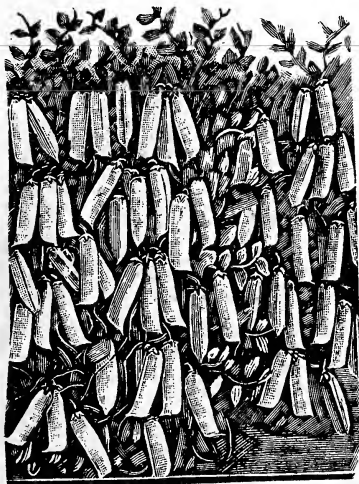

Sigurd Klofstad, Outlook, Mont.—Enclosed find order for some of your good seed. We find it superior to other seeds especially the John Baer Tomato and Jungs Private Stock Parsnip and will say the Snowflake Bean to be a good yielder. I am, a JUNG customer.

JUNG'S DWARF TELEPHONE

Everbearing

A fine second-early or main crop Pea which combines quality and yield and will continue bearing a long time if the pods are picked. It has a remarkable habit, sometimes forming as many as six stalks which accounts for its great yields. The pods are of good size and contain from eight to ten large peas which are of remarkable fine quality. Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 55c.

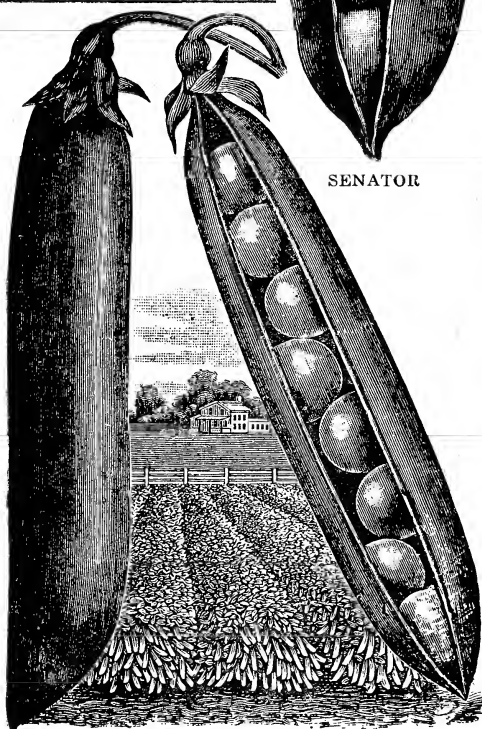

EVERBEARING

C. E. Bennett, Lynxville, Wis.—Will send you a larger order shortly as I had better success with your seeds than with anyone elses.

Bertha Bahr, Long Bottom, Ohio.—I like your garden seeds, have used them for 3 years, am sending for more, also for some of my neighbors.

Mrs. J. W. Tupman, Woodlawn, Ky.—I have grown vegetables from your seeds and they always give satisfaction.

DWARF CHAMPION

Dwarf Champion

The quality and productiveness of the old Champion of England is well known among all the gardeners but the one great fault was the long vines. In this variety you have the large pods superb quality and immense productiveness of the old variety, but a stocky vine that does not require brust. The vines grow only about 18 inches tall and are very healthy, never failing to yield a heavy crop of giant-sized pods. Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 55c., postpaid.

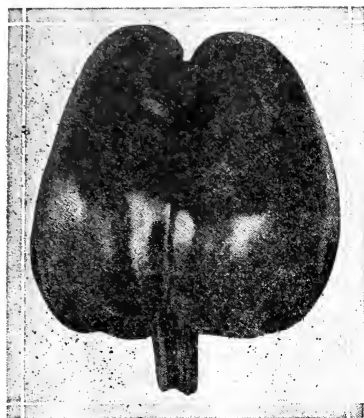

Edible Podded Pea—Mam. Luscious Sugar

This variety is far superior to all others of the edible class of garden peas, not only in size of pod but also in delicious quality. The large pods are sweet, brittle and tender and have none of the tough lining found in so many of the ordinary kinds. The pods are used the same as snap or string beans and will also make excellent pickles. The vines grow about four feet tall and are very productive. Full grown pods measure five inches long and are so tender and brittle that they snap like glass; they have no strings. The sweetness and tenderness of this edible-podded pea is unsurpassed. Pkt. 8c.; $\frac{1}{2}$ pt. 20c.; pt. 35c.; qt. 60c.

PEPPER

Sweet Upright

The best Peper for the family garden and unequalled for market. It produces fine, large fruits of nearly square or blocky form with exceptionally thick flesh of the mildest and sweetest flavor. The plants are of sturdy, erect growth; fruits are borne stiffly erect and form at each of the branches; they are very broad, divided into four lobes and when fully ripe are deeply indented at the blossom end. The color when ripe is a rich, glowing scarlet, both in the thin tender skin and in the unusually thick flesh. The flesh is as crisp and sweet as an apple. It ripens early; the fruits are large, weighing from six to seven ounces each. Pkt. 8c.; $\frac{1}{2}$ oz. 25c.; oz. 45c.; $\frac{1}{4}$ lb. \$1.50.

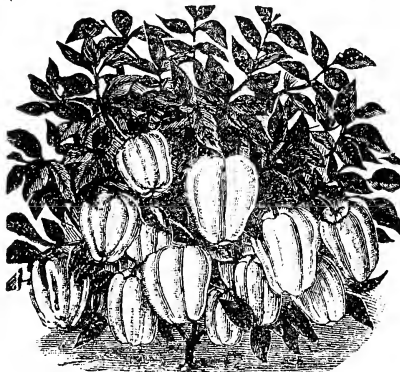

SWEET UPRIGHT

Chinese Giant

The finest largest and handsomest Pepper of them all. Chinese Giant is certainly a wonder.

Not only is it immensely productive for so large a Pepper, but its enormous size and magnificent appearance make it sell most readily. It produces monstrous Peppers of thick, blocky form which are of the most brilliant scarlet. They grow 4 to 5 inches broad at the top and are of equal length, divided into four or more ridges, when ripe they are indented at the blossom end. The flesh is thick, very mild and is entirely free from any other fiery flavor. They can be sliced and eaten like tomatoes. Pkt. 8c.; $\frac{1}{2}$ oz. 25c.; oz. 45c.

GOLDEN QUEEN

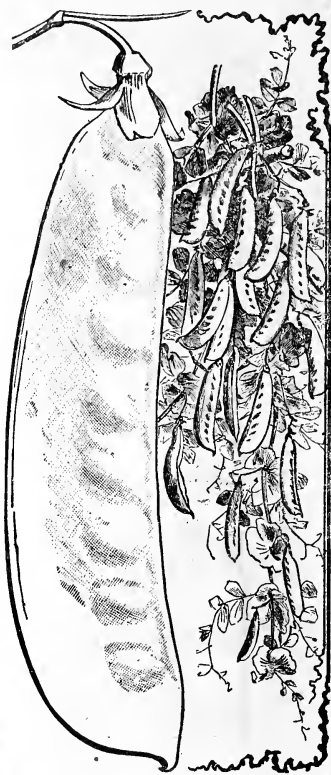

E. O. Swayze, Gillett, Pa.—Your seeds are of the very best quality and we have had an extra good garden since sowing your seeds.

Mrs. Al Collins, Canton, Pa.—I have had such good luck with your seeds that I am praising them all over town, am also enclosing an order from a neighbor with mine.

Early Neapolitan

THE EARLIEST, SWEET, LARGE, RED PEPPER

Immensely productive and so extremely early, this grand new Pepper is of exceptional value to market gardeners. The plants are open-branched spreading growth, two and one-half feet in height. Fruits average four and one-half inches in length by two to two and one-half inches in breadth at the stem end, retaining the thicknesses to a good portion of the length. After reaching full size the green fruits change to rich scarlet and have quite thick flesh of a very mild, sweet flavor. Single plants will grow from 35 to 50 Peppers of marketable size and at one time. Pkt. 7c.; $\frac{1}{2}$ oz. 20c.; oz. 35c.

MAMMOTH LUSCIOUS SUGAR

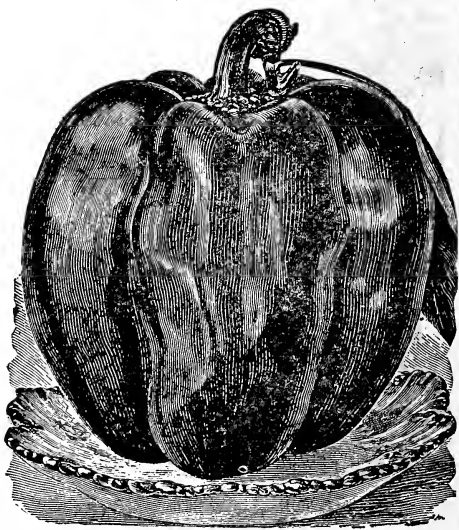

Golden Queen

Golden Queen is the Best of all Yellow Peppers

It is always large and sometimes remarkably so, specimens reaching six to ten inches in length and four to five inches in diameter are not uncommon. A single plant sometimes carries Twenty Large Peppers at the same time. The flavor is mild and pleasant and it may be eaten raw. It always commands the highest price on account of its large size and fine appearance. It is unexcelled for stuffing. Pkt. 8c.; $\frac{1}{2}$ oz. 25c.; oz. 50c.

EARLY NEAPOLITAN

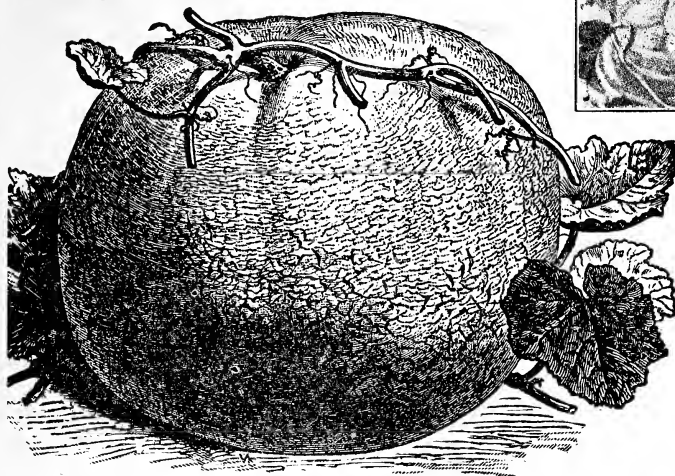

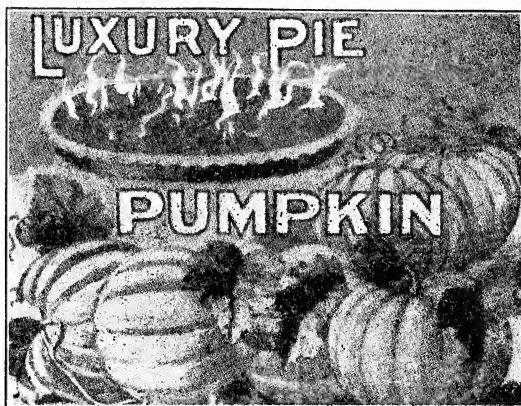

CHINESE GIANT

PUMPKINS

Luxury Pie

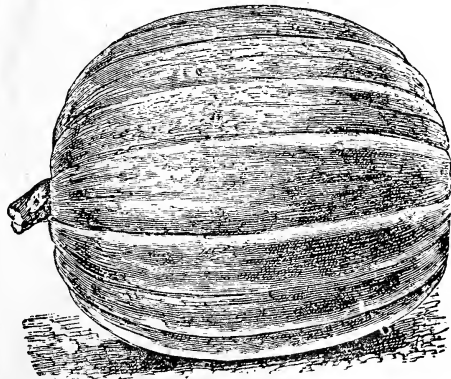

This is the very best Pumpkin that has ever come to our attention. It is enormously productive, medium in size, being about ten inches in diameter, almost globe shaped and ripens early. The skin is finely netted and in color a beautiful golden russet, which is a sign of finest quality. The flesh is very thick, sweet and sugary; tender and of fine flavor and deep golden in color. An excellent keeper for winter use. If you want some delicious pies for Thanksgiving day, plant LUXURY PIE. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.

TRUE MAMMOTH

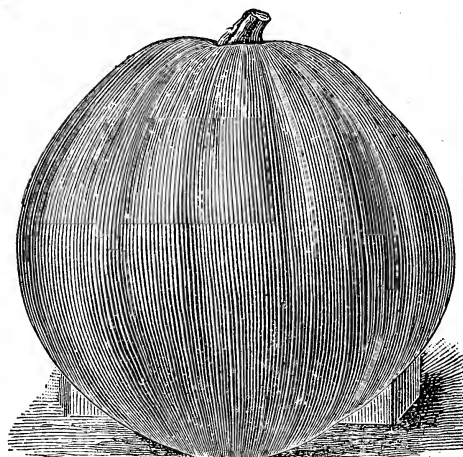

FIELD PUMPKIN—Big Tom

Also known as Connecticut Field. Vines are of strong vigorous growth and wonderfully productive. Fruits will average 15 to 20 inches in diameter, round or oval in form. The skin is smooth and hard, of a reddish orange color, slightly ribbed, with thick rich orange yellow flesh. It is the hardest of all pumpkins and is good for pies. This variety is extensively grown for stock feeding and is generally planted in with the corn. Pkt. 5c.; oz. 10c.; ¼ lb. 25c; lb. 85c.

BIG TOM

Jung's
Packets
are Large
in Size

QUAKER PIE

Quaker Pie

A most prolific variety. The fruits are broad, pear-shaped or slightly oval in form. The flesh is very thick and fine grained, of a beautiful golden yellow color; in texture and flavor peculiarly adapted for pie making purposes. It is very prolific and keeps well for winter use. It is sweet and delicate in flavor. Skin is a rich cream buff, which gives it a handsome appearance. Pkt. 5c.; oz. 10c.; ¼ lb. 30c.; lb. 90c.

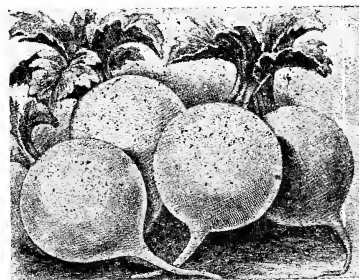

JUNG'S SELECT RADISHES

We take much pride in our select strains of Radish seed. The bulk of it is grown in Denmark and you will find that this seed will produce Radishes with milder flavor and less leaves than the cheap California grown seed.

Early Hailstone

The earliest and quickest growing WHITE RADISH in cultivation.

Ready for use from 15 to 18 days after sowing. The radishes are regular shaped, measuring one inch in diameter and about half an inch in depth. Flesh is solid, crisp and of mild flavor. The foliage is unusually small and owing to this fact, combined with extreme earliness, solidity and superb quality, cannot fail to make it the most popular, first early white Turnip Radish. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.; lb. \$1.25

EARLY HAILSTONE

A good garden goes a long ways towards cutting down living expenses.

Jung's Select Radishes

Jung's Rapid Red

This we find to be the quickest maturing of all Radishes, having been grown in the short period of 18 days from the sowing of the seed, fit for the table. However, its earliness is not its only good feature as it is also of elegant shape, finest quality and a rich red color. Taken in all it cannot be excelled for both the garden and forcing under glass. Its attractive color and small tops make it especially desirable for forcing. The flesh is pure white, very crisp and tender. If you want to be the first on the market with Radishes that will command fancy prices, then plant "JUNG'S RAPID RED." Pkt. 5c.; oz. 15c.; ¼ lb. 35c.; lb. \$1.00.

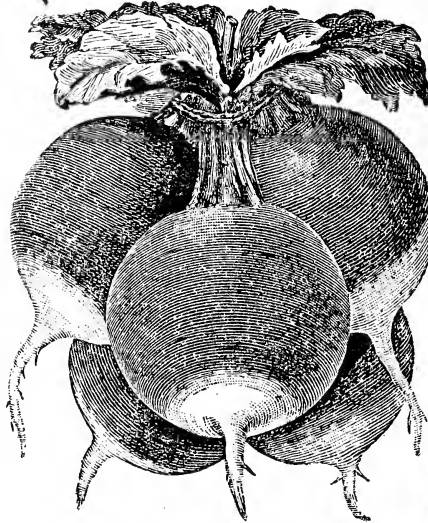

JUNG'S RAPID RED

EARLIEST SCARLET

Earliest Scarlet

A fine bright red Radish of quick growth. It is especially fine for bunching for early market from plantings in the open ground, being ready for market in from 18 to 20 days. It is solid in character and very uniform in size and shape. The tops are very small, thereby making it the best of all for forcing under glass. The flesh is purest white, firm and crisp in texture and of mild flavor. The roots are entirely free from the hollow center or pithy fibre so often found in Radish. The shape is well shown in the illustration. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; lb. 80c.

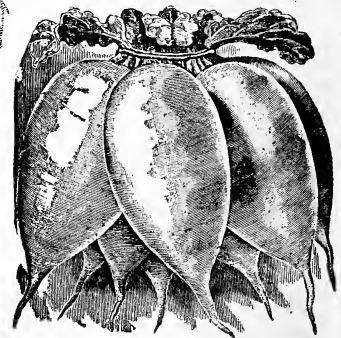

PERFECTION

White Icicle

Long, slender, crisp, tender, mild and of purest white. Unexcelled as a money maker. An entirely distinct variety from Europe and derives its name from the almost transparent whiteness of the roots. It produces slender, pure white Radishes very early in the season, much earlier and finer in quality than any other long white variety. The shape is well shown in the illustration. The leaves are short and few, making it an excellent variety for forcing. It is of the best flavor and very brittle and crisp. The roots grow about four inches long and are ready for use in about 25 days after sowing. It is a desirable variety for the home garden and market gardeners will find it a money-maker. Pkt. 5c.; oz. 12c.; ¼ lb. 25c.; lb. 85c.

WHITE ICICLE

WHITE DELICIOUS

White Delicious

A splendid new olive-shaped radish, pure white in color. Very early as it has produced radishes fit for pulling in 18 days after sowing the seed. It has a small top, is solid and crisp, of fine flavor, in fact a first-class radish in every respect. Size and shape are well shown in illustration. Pkt. 5c.; oz. 12c.; ¼ lb. 30c.

French Breakfast

An early medium sized radish, olive shaped, very crisp and tender, of a beautiful bright scarlet color, tipped with white. It grows about 2 inches long and is decidedly stump rooted. A splendid variety for the table, for its excellent quality and the beautiful color are unexcelled. It is a quick growing and exceedingly popular variety. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; lb. 75c.

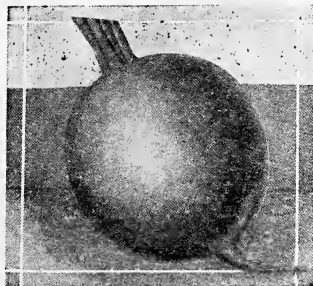

FRENCH BREAKFAST

RADISHES—Continued

Crimson Giant Globe

This new variety is suitable for both forcing and growing out doors. It is a fine shaped, bright red Radish, growing quickly to large size (see illustration.) The Radish is a deep globe in shape; it measures two inches in depth and 1½ inches in diameter. Skin is thin and tender and of a deep, crimson color. The flesh is pure white, crisp and of mild flavor. The roots are entirely free from hollow centers and pithy fibre. It is sure to become a leading variety. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; lb. 85c.

CRIMSON GIANT GLOBE

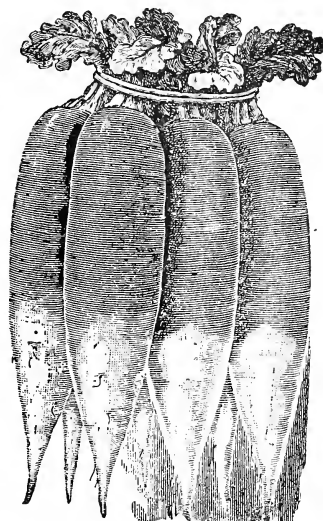

ROSY GEM

Rosy Gem

One of the most popular and attractive short varieties ever grown. Ready for the table in from 17 to 25 days after sowing. It is a rich, deep scarlet at the top, beautifully blended into pure white at the bottom. Exceedingly tender and crisp; flavor very mild and delicious. A gem in earliness, beauty and quality. Its smooth skin and fine color give it an appetizing appearance when served. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; lb. 75c.

Wood's Early Frame

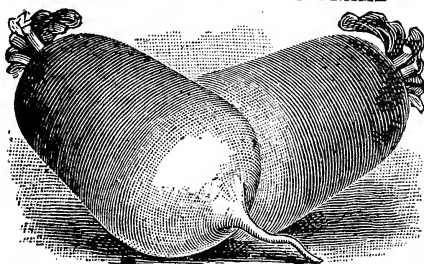

This is one of the earliest long varieties. It is of a beautiful scarlet color, shading to white towards the tip. It is always juicy, tender, delicious and free from pith and sharpness so often found in long Radishes. Very much used for growing under glass. You will be delighted with this variety. Pkt. 5c.; oz. 10c.; ¼ lb. 25c. postpaid.

WOOD'S EARLY FRAME

WINTER RADISH—Chinese Rose

This is a large and fine shaped Radish, growing partly above the ground. It is of a half long shape with a blunt point; rose colored skin, flesh white, solid as an apple. It has not the strong flavor of the Black Spanish and keeps equally as well. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; lb. 85c.

CHINA ROSE WINTER

SPINACH

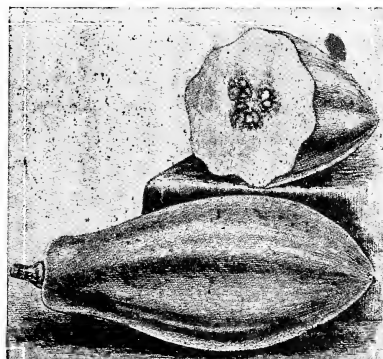

SPINACH—Victoria

This is a handsome variety, the leaves being of an exceedingly dark green color and has very long standing qualities. The foliage is heavy, the wide dark green leaves are wrinkled like a savoy cabbage and are of the finest quality. It produces nearly twice the bulk of crop as the ordinary sort and will remain in prime condition for a very long time. Pkt. 5c.; oz. 10c.; ¼ lb. 20c.; lb. 50c.

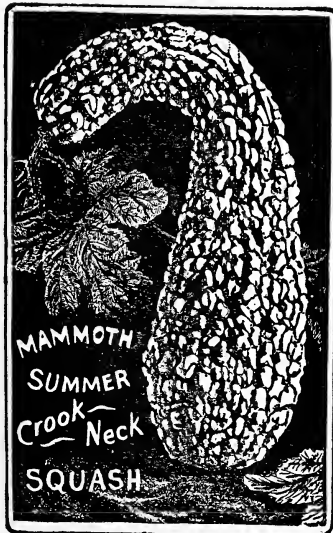

SQUASH

Giant Summer Crookneck

This magnificent strain is equally as early as the common small-fruited varieties. It is of a bright yellow color and from 18 inches to 2 feet long. Fruits are solid, heavy and freely produced on healthy, vigorous plants of compact bush habit. The flesh has a creamy yellow color, is dry and of the most agreeable flavor. A most profitable variety to grow for market as it grows very rapidly and is of superior quality. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.

BUSH FORDHOOK

Bush Fordhook—The Best Pie Squash

The most desirable Squash for either summer or winter use. It is of a true bush type and can be grown much closer than the running sorts. The vines are of strong, vigorous growth and wonderfully productive. The fruits are pear-shaped, 7 to 9 inches long, slightly ridged, a smooth, thin, yellow skin. Flesh is very thick and of a light straw yellow color. For frying, baking or making pies they are unsurpassed. Stored in a dry place they will keep until the following spring. It is early and has proven to be one of the hardiest and most dependable squash for all localities. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.; lb. \$1.35

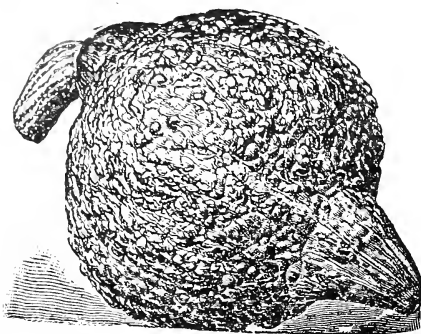

BANANA SQUASH

SQUASH—Continued

Banana

RIPENS EARLY, ENORMOUSLY PRODUCTIVE, FINEST QUALITY, GOOD KEEPER

This squash is better shown in the illustration than we can describe it. It keeps equal to Hubbard, is even better quality, more prolific and earlier in ripening. The color is grayish-green, shell soft, so that it can be cut with a knife. It grows from 18 to 30 inches long and six to eight inches in diameter. It is very prolific and a shy seeder, which accounts for the high price of the seed. Flesh is of deep orange color, entirely free from fibre or stringiness. Cooks up perfectly smooth and of the most delicious flavor. Pkt. 8c.; oz. 20c.; ¼ lb. 50c.

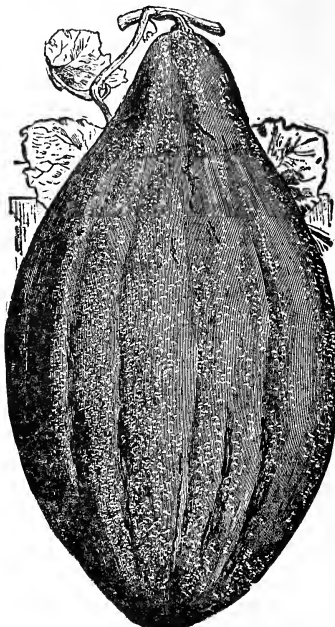

GOLDEN HUBBARD

Golden Hubbard

An elegant Winter Squash. Flesh a deep golden yellow, much richer in color than Hubbard; fine grained, cooks very dry and is of excellent flavor. In keeping quality is has no superior. Its productiveness, combined with its sweet rich flavor attractive color and shape, are bound to make it a popular fall and winter variety. Golden Hubbard is a sport from the well known old Hubbard which it closely resembles in every respect except in color, which is a bright golden orange. Pkt. 5c.; oz. 12c.; ¼ lb. 30c.

Mammoth Whale

This is the "Jumbo" of the Squash family and creates great attention wherever grown or placed on exhibition. It is an extra large-fruited sort, quite distinct in form and appearance. The squashes grow from 2½ to 3 feet in length, with a slight neck at the stem end. The large seed end is swelled to a width of 12 to 18 inches and slightly flattened, giving a most distinctive appearance which suggests its name, "Mammoth Whale." Under good cultivation the fruits frequently attain more than one hundred pounds in weight. Flesh firm and solid, of beautiful orange yellow and excellent quality. Pkt. 8c.; oz. 20c.; ¼ lb. 35c.; lb. \$1.25.

MAMMOTH WHALE

Geo. W. McKean, Dodge Center, Minn.—Nothing like the John Baer Tomatoes for us, this is our 4th year with them.

JUNG'S NORTHERN GROWN TOMATO SEED

We take special pride in our tomato seed and are sure that it is unexcelled for quality. It is northern grown and will produce a crop that will ripen earlier, produce solid fruit and healthier plants than seed grown further south. It is folly to use cheap tomato seed, for it only takes a few ounces to plant an acre.

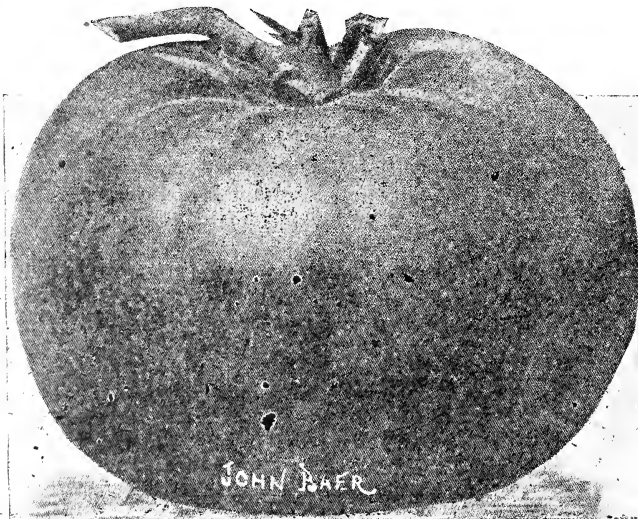

Jung's Private Stock "JOHN BAER"

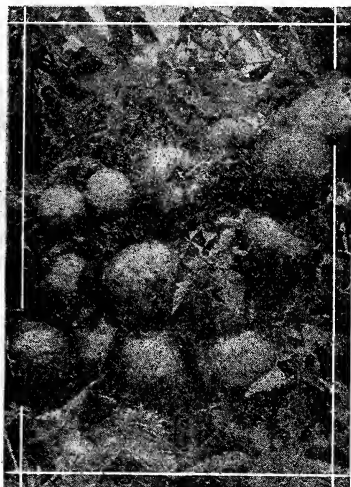

We are offering seed of our own growing, which for earliness, freedom from all disease, great productiveness and solidity of fruits, is unexcelled.

Here are a few reasons why you should plant this excellent variety:

1. It is the quickest to ripen.
2. It produces the smoothest fruits of any extra early variety.
3. It is enormously productive, bearing throughout the season.
4. The fruits ripen evenly up to the stem; no cripples, cracked, blighted or wrinkled fruit. A very good shipper, as it will not burst.
5. It is of the most brilliant red color and the flavor is deliciously sweet.
6. It produces an enormous crop, 50 to 100 fruits to each plant.
7. In shape and form exactly like the photograph.

Market gardeners, with whom earliness is a great factor, will find that our northern grown seed will produce a crop that will ripen earlier, produce a larger crop and more solid fruit, than seed grown further south. Plant JUNG'S JOHN BAER once and you will not be without it again. Price of seed of our own growing: Pkt. 10c.; ½ oz. 40c.; 1 oz. 75c.; lb. \$6.00, postpaid.

PLANT OF MAGNIFICENT

Fairfield First

This variety has been carefully bred for extreme earliness, productiveness and smoothness of fruit. Fruits are of good size, smooth and borne in clusters. It is a very heavy cropper. Although one of the first to ripen the vines continue to bear until frost; the size and smoothness of the fruits is maintained until the end of the season. The color is an intense velvety scarlet; fruits are all globe shaped, making it a splendid variety for slicing. The fruits are remarkably solid and firm; flesh is thick and heavy, of fine flavor and contains but few seeds. Vines are strong and healthy growers. Pkt. 7c.; $\frac{1}{2}$ oz. 20c.; oz. 35c.; $\frac{1}{4}$ lb. \$1.00.

JUNG'S FAIRFIELD FIRST

TOMATOES—Continued

Magnificent

The best main crop red tomato, as it ripens early, is a heavy yielder and produces very large tomatoes. The fruit is uniformly large, smooth and solid, almost all meat and produces but few seeds. On account of its smoothness and handsome appearance they always command highest prices. It has been planted in all sections and always gives satisfaction. It might be said that it is ever-bearing and the later fruit on the vines is just as large and perfect as the first. We offer seed of our own growing which you can rely upon to be early. Pkt. 7c.; $\frac{1}{2}$ oz. 25c.; oz. 40c.; $\frac{1}{4}$ lb. \$1.

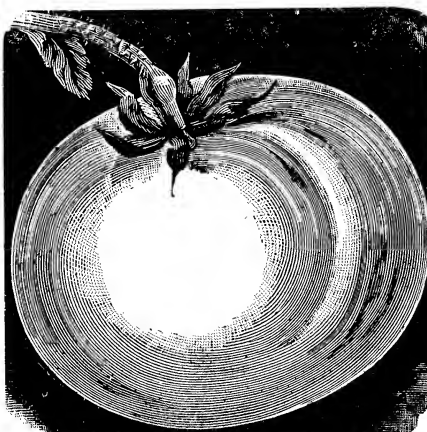

JUNG'S PRIZETAKER TREE

Jung's Prizetaker Tree

**Extra Early and Large Fruits.
Enormous Yielder. Bright Red.**

The best variety for the home garden. It is the largest fruited dwarf tree Tomato. The plants grow to a height of about two feet and are stiffly erect until they become overloaded with fruit. The fruit is produced in clusters of three to five and as the growth is close-jointed, each plant produces a large number. The tomatoes are of large size and are smooth and solid. Fruits have a solid, meaty center and no hard core and produces but very little seed. We consider the PRIZETAKER invaluable for the home garden or shipping purposes. Pkt. 8c.; $\frac{1}{2}$ oz. 20c.; oz. 35c.; $\frac{1}{4}$ lb. \$1.00.

GOLDEN DWARF CHAMPION

Golden Dwarf Champion

The famous Golden Dwarf Champion owes its wide popularity to its stiff, vigorous, upright growth, with fruit well above the soil, its large fruit and fine color, and to the earliness with which it reaches maturity. Plants are bushy and compact, with heavy dark green, potato-like foliage. The tomatoes are always smooth, round and solid and of a beautiful lemon color. Nothing makes a more tempting dish than red and yellow tomatoes sliced together. This variety has an unusual flavor, especially fine for preserves, as it does not require as much sugar as other varieties. Pkt. 5c.; $\frac{1}{2}$ oz. 20c.; oz. 35c.

Jung's Jack Rose

One of the finest extra early tomatoes

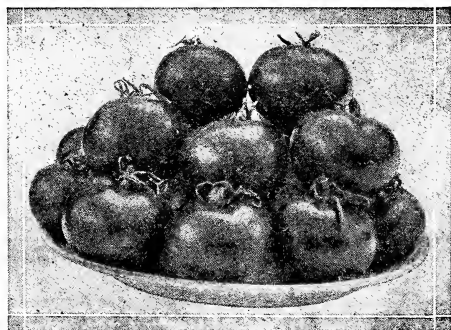

It is from three to five days earlier than Earliana which means much additional profit when planted for market, as every trucker strives to have the earliest tomatoes. The vines are vigorous growers and are well supplied with heavy foliage, which protects the fruits from the sun. The fruits are smooth, solid and of good size, some measuring four inches in diameter. It is almost solid meat, producing but a very small quantity of seed and for this reason the seed will always be expensive. The later fruit on the vines is just as large and solid as the first. If you want an abundant supply of large, solid, fine flavored, meaty Tomatoes, do not fail to order JACK ROSE. Pkt. 7c.; $\frac{1}{2}$ oz. 20c.; oz. 35c.; $\frac{1}{4}$ lb. \$1.00.

Special Offer

One pkt. of each of these five splendid tomatoes for only 25c.

Hans P. Hansen, Truesdell, Wis.—We got all our vegetable and flower seeds from you and had the best of luck. The Prizetaker Tree Tomato were the largest I have ever seen and my wife had the nicest Sweet Peas that I have seen.

Mrs. Maud A. Park, Grifth, Colo.—Your seeds are the best I can buy as they do fine here, especially your tomatoes.

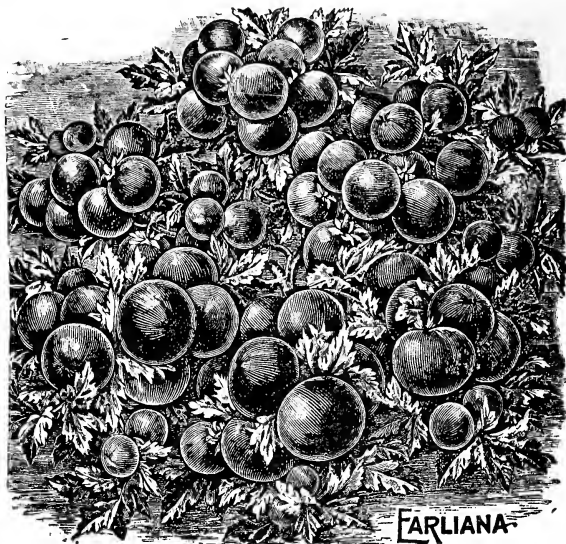

JUNG'S JACK ROSE

TOMATOES—Continued

Fairfield Strain of Earliana

A perfect early Tomato, large in size and beautiful in color, nearly seedless and very solid; a vigorous grower and prodigious bearer, yielding its splendid fruit until frost. Its solidity and fine quality are equal to the best medium and late sorts. The plants are compact in growth with short, close-jointed branches, setting fruits very freely in the center. It has become very popular with market gardeners who aim to supply the early demands of their market. On account of its firm skin it is an excellent variety for long distance shipping. The fruits mature quickly and generally can all be gathered in about three weeks from the time the first fruit ripens. The Tomatoes are quite uniform in size and of smooth, regular form, averaging three inches in diameter and $2\frac{1}{2}$ inches in depth. Pkt. 5c.; $\frac{1}{2}$ oz. 20c.; oz. 30c.; $\frac{1}{4}$ lb. \$1.00

Mrs. Jay Zeh, Jefferson, N. Y.—I am well pleased with your seeds, I have good success with the tomatoes I bought of you.

New Coreless

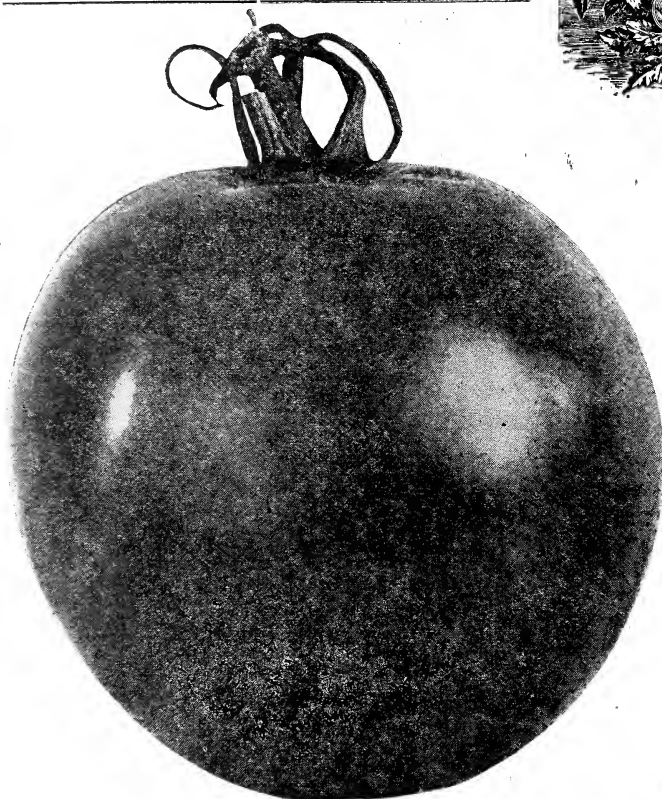

A LARGE MAIN CROP, GLOBE SHAPED,
BRIGHT RED VARIETY

Its shape is almost round, being about the same diameter each way. The depression at the stem-end has been almost eliminated, making it the most profitable variety for canning. It is immensely productive, clusters of four to seven fruits are produced at six to eight inches apart along the vines. All the fruits are of remarkable size, many of them are quite large—12 to 15 ounces. A good slicing variety, the seed cells being surrounded by bright red, heavy meaty and delicious flesh. Its color is bright red and the fruits ripen all over and at the same time. Always free from green cores. Every gardener should give this new Tomato a trial. Pkt. 8c.; $\frac{1}{2}$ oz. 20c.; oz. 35c.; $\frac{1}{4}$ lb. \$1.00.

Fancy Preserving Tomatoes

An interesting packet comprising a mixture of the different small fruited varieties such as Red and Yellow Pear, Plum, Peach and Cherry. These varieties are of unusually sweet, rich flavor and excellent for preserves.

May also be dried in the sun and packed in sugar thus making an excellent substitute for figs. Pkt. 5c.; 3 pkts. 10c.

NEW CORELESS

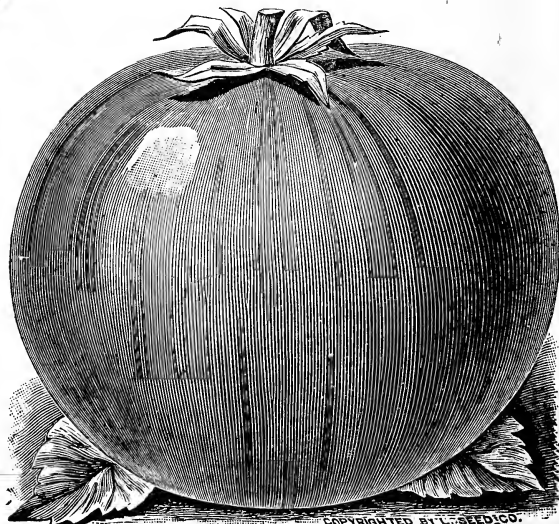

Trucker's Favorite

THE FINEST LARGE FRUITED PINK TOMATO

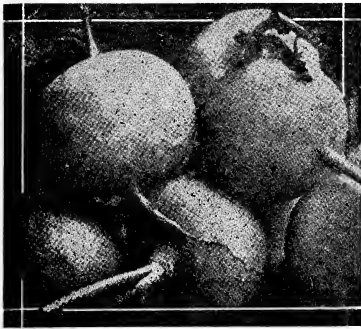

Very uniform in shape and size; thick, heavy and solid; one of the largest tomatoes grown. The fruits are of a beautiful purplish red or pink color, always smooth and fleshy. They hold their size to the very last picking and ripens well to the stem. Vines are of strong, vigorous growth, ripening the first fruits early. The vines are not subject to blight or rust and produce enormous crops until killed by frost. Delightful in quality and flavor and unexcelled for slicing or cooking. As a dependable main crop pink Tomato Trucker's Favorite can't be beat. Pkt. 5c.; $\frac{1}{2}$ oz. 20c.; oz. 30c.; $\frac{1}{4}$ lb. 90c.

It is poor economy to use seeds which have only their cheapness to recommend them.

The cost of good seeds is very small when compared to the resulting crop. QUALITY is always our first consideration.

TRUCKERS FAVORITE

GOLDEN BALL

White Flat Dutch

A very popular sort for either table use or for market. The roots are of medium size, very handsome, smooth and of clear ivory white, both inside and out. The flesh is fine grained, tender and of sweet flavor. It is one of the best varieties for the family as in addition to the heavy crop assured by its adaptability to close planting, it will be found to be the best sort for spring planting. Pkt. 5c.; oz. 10c.; ¼ lb. 20c.; lb. 60c., postpaid.

PURPLE TOP WHITE GLOBE

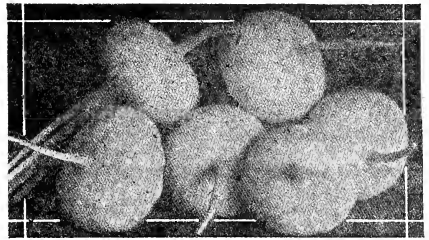

PERFECT MODEL

TURNIPS

Golden Ball

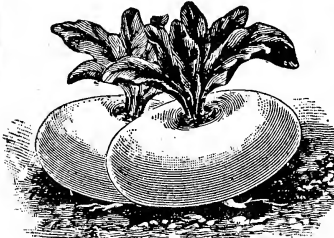

Of the yellow or golden fleshed turnips this is the best variety. Roots grow quickly to good size are smooth and very fine in appearance. Flesh is a rich yellow color, tender and mild in flavor; in fact we consider it the best turnip for table use. Pkt. 5c.; oz. 10c.; ¼ lb. 20c.; lb. 60c.

EXTRA EARLY WHITE MILAN

Extra Early White Milan

A very valuable sort, largely used by market gardeners for first or extra early use. The quickest growing variety and under favorable conditions is fit for use in a few weeks after sowing. The roots are of medium size, of pure white color and very handsome in appearance. Flesh is fine grained, sweet and of mild flavor. A splendid variety for both the home and market garden. Pkt. 5c.; oz. 10c.; ¼ lb. 30c.; lb. \$1.

WHITE FLAT DUTCH

J. W. Brint, Irvona, Pa.
—Your seeds are just right and all you claim them to be.

Purple Top White Globe

This grows very quickly to large size; roots even and regular in form and of most handsome appearance. The bulbs will measure six inches and more in diameter, being of perfect globe form; the upper portion is of rich, purplish red and the lower half clear, creamy white. Flesh white, firm and crisp, of mild flavor. It is an excellent keeper, and being so productive, is one of the best to grow for stock feeding. The plants being of such large, strong growth, should be thinned more severely than with small early sorts. This variety is very extensively used for market growing. Pkt. 5c.; oz. 10c.; ¼ lb. 20c.; lb. 60c., postpaid.

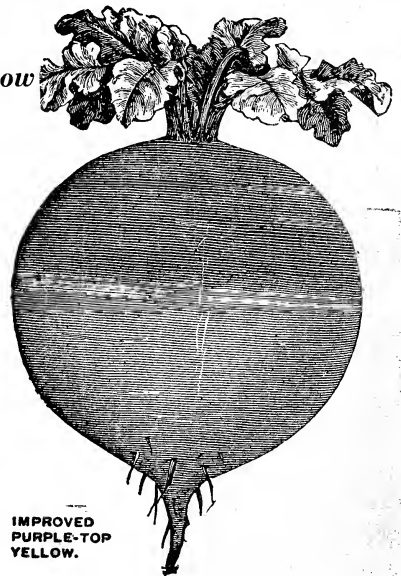

RUTA BAGAS

Improved Purple Top Yellow

A hardy and productive variety, widely grown for market and stock feeding. It is of fine quality and keeps perfectly all winter and even into the following summer. Bulbs are large, smooth, round and solid, with a small tap root. Flesh richly colored, fine grained and very sweet. It is justly held in high esteem for both table and stock feeding purposes. The shape is well pictured in the illustration. Pkt. 5c.; oz. 10c.; ¼ lb. 20c. lb. 60c.

Perfect Model

A great improvement in the stocks of Ruta Bagas offered. Roots grow to good size, are smooth and solid and do not have a tendency to grow a long neck. The roots are a rich yellow at the bottom and purple on top. Flesh deep orange in color, fine grained and very sweet. A most profitable variety to grow for market. Pkt. 5c.; oz. 10c.; ¼ lb. 20c.; lb. 65c.

PURPLE-TOP
YELLOW.

Jung's Fairfield Special Mixed Lawn Grass

Always Grows, Always Thrives. Hardy, Deep, Velvety Green.
Sure to Please

Our mixture combines the very best varieties of grasses suitable for the purpose of making a lawn beautiful in appearance durable and lasting, which will stand the frosts of winter and the hot sun of summer, showing a deep, rich green at all seasons. The seed used is PURE AND HEAVY and is especially cleaned. This mixture weighs from 25 to 27 pounds per bushel, is of strong vitality and makes a quick, healthy growth. One pound of our seed weighs as much as two quarts of most other seedsman's brands. **Pound 40c.; 5 lbs. \$1.80, postpaid.**

SUNFLOWER

Mammoth Russian Sunflower

Single heads measure twelve to twenty-two inches in diameter and contain an immense quantity of seed, which is highly valued by all farmers and poultry breeders who have tried it as an excellent and cheap food for fowls. They eat it greedily, fatten well on it and attain a bright, lustrous plumage and strong, healthy condition better than on almost any other food known. Every farmer should plant some of the seed in any waste piece of ground, any time from early spring to the middle of July. Four quarts of seed will plant an acre. The seed is also recommended as an excellent food for horses. **Oz. 5c.; ½ lb. 20c.; lb. 30c., postpaid. By freight or express lb. 15c.; 10 lbs. \$1.; 100 lbs. \$8.75.**

GLADIOLUS

There is no bulb of such easy culture, embracing the great range of color with endless combinations and variety, to equal the Gladiolus. Our bulbs are of the finest quality and will give bountiful satisfaction the first season. The bloom is continuous from the end of July until frost. Cultural instructions will be sent with each order.

AMERICA. A beautiful shell pink. Very strong and healthy with luxuriant dark green foliage and a freedom of growth and flowering surpassing all others. Spikes 2 to 3 feet long, with a great number of large, spreading blossoms, all facing one way. Single flowers measure 4 inches across. **7c. each; 75c. per doz.**

BARON HULOT. The finest blue Gladiolus yet introduced. This bears a good-sized flower well arranged on long and straight spikes. The color is a deep violet, bordering on blue. **7 cts. each; 75 cts. per doz.**

GOLDEN WEST. Bright orange with darker veinings. A big flower and spike. Each spike produces from 15 to 20 flowers. This variety is of good size in flower and spike with long stalks. **7 cts. each; 75 cts. per doz.**

MRS. FRANCES KING. Of exceptional value for cut flowers. Color is a very pleasant light scarlet. Individual blossoms are five inches in diameter and sometimes larger. Spikes produce 12 to 18 flowers and grow four feet high. Flowering is continuous. **6c. each; 60c. per doz.**

PANAMA. A new seedling of America which resembles the parent variety in every way except that it is a much deeper pink. A grand variety which evokes words of praise wherever exhibited. Spikes are very long with flowers large and well arranged. Many awards. **7c. each; 75c. per doz.**

MRS. FRANK PENDLETON. One of the most exquisitely colored and formed Gladioli in our list. Delicate Salmon-pink with brilliant deep red blotches in the throat, rivaling many of the finest orchids in richness of colors. Flowers are large and borne on a straight spike. Excellent for decorating. **10c. each; \$1.00 per doz.**

Special Gladioli Offer

We know that if you plant our Gladioli once you will want them year after year and as a special offer will send you 1 strong bulb of each of the following for only 45c.

America
Mrs. Frances King
Velvet King
Baron Hulot
Panama
Mrs. F. Pendleton
Golden West

Be sure to include this collection in your order. We guarantee that you will be pleased.

AMERICA

MRS. PENDLETON

VELVET KING. The color is a brilliant scarlet crimson usually carrying three white blotches on the lower petals. The flowers open out and are perfect and of enormous size. **8c., each; 90c., per doz.**

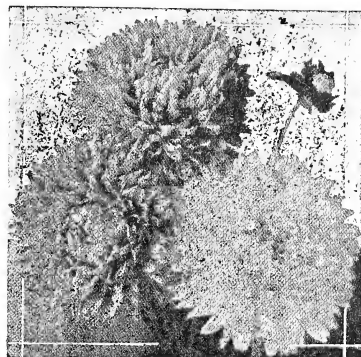

AMERICAN HYBRIDS MIXED

Many of our customers want a choice assortment of Gladioli at nominal expense and to have them we recommend this mixture. It is made up of many different types and colors and each bulb is guaranteed to produce a spike of flowers. We do not hesitate to recommend this mixture in every way. **6 for 25c.; 40c. per doz.; 50 for \$1.25.**

JUNG'S SUPERB ASTERS

Asters are our great specialty in the flower seed line and the degree of perfection to which we have brought the strains we are offering is unsurpassed. We are ASTER SPECIALISTS and spend much time and money in bringing our seed of these grand flowers up to the very highest possible standard. No other flower can rival the Aster in beauty, color, form or profusion of bloom, in fact they are superior to roses in many ways as they last so long when cut for bouquets...They are easy to grow and may be had in blossom from early summer until late in the fall, in fact at our farms we have them in blossom from July until late in November. Our sales on Aster Seed are increasing every year, last season we sold over 22,000 packets, this is the best proof that our seed is giving satisfaction.

JUNG'S INNOCENCE

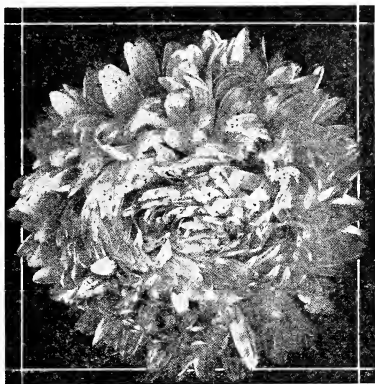

Jung's Innocence

Many people want Asters that come into blossom very early and we recommend these in every respect as they come fully

two weeks earlier than most other sorts. The blossoms are of good size, produced on long stems and are full and double to the very centers. You will be more than pleased with these extra early Asters. White, Pink, Lavender, Purple and Mixed. Pkt. 7c.; $\frac{1}{4}$ oz. 25c.; 1 pkt. of each color for 20c.

Jung's Chrysanthemum

This grand Aster is in a class by itself, in fact we consider it the most beautiful of all Asters. Its beautiful form is well shown in the illustration. It is of the most beautiful color known in Asters, being a delicate sea-shell pink. Its flowers are truly gigantic in size and closely resemble chrysanthemums, hence name. Well grown flowers measure five inches across and being borne on long stiff stems makes it invaluable for bouquets and cut flowers. Pkt. 8c.; $\frac{1}{4}$ oz. 35c.

JUNG'S CHRYSANTHEMUM

Jung's American Beauty

The petals of this grand new Aster are almost a half-inch wide. It is almost identical in color to the popular American Beauty Rose, hence the name. The plants are strong growers, from 35 to 46 inches tall, well supplied with heavy foliage and is a prolific bloomer. The immense fluffy flowers are borne on stems from 18 to 24 inches long. Specimen plants carried from 8 to 12 blossoms, each measuring over four inches across. We offer same in Rose and Purple. Pkt. 10c.; $\frac{1}{4}$ oz. 40c.; 1 pkt. of each color for 15c.

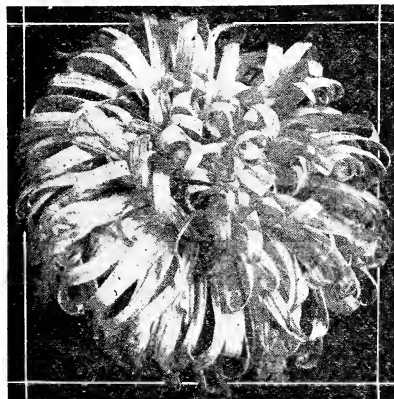

Miss Elsie E. Caverly, Northwood N. H.—I recommend your asters. I have had glorious American Beauties.

JUNG'S AMERICAN BEAUTY

Jung's Fairfield

We take pleasure in offering our customers this new Aster which is in a class by itself. The flowers are immense in size, and being borne on long stiff stems they rival Chrysanthemums for bouquets. The petals are very long and are curled and twisted to a remarkable degree. The plants are strong and healthy and it is not an unusual thing to find one with a dozen long, graceful stems, each crowned with flowers from four to six inches in diameter. Colors, White, Shell-pink, Rose, Purple, Lavender and Mixed. Pkt. 7c.; $\frac{1}{4}$ oz. 35c.; 1 pkt. of each color for 25c.

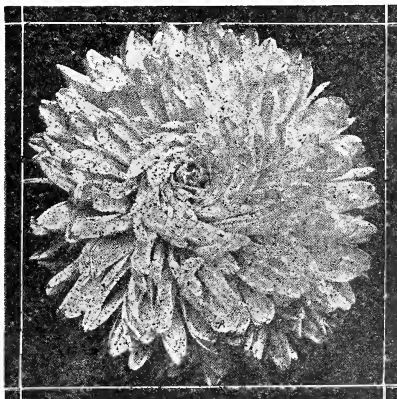

JUNG'S FAIRFIELD

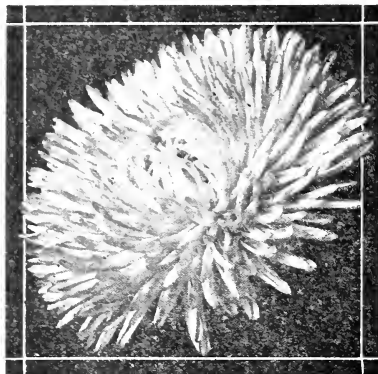

Jung's Giant Late Branching

After a number of years of careful selection we have brought this Aster to state of perfection where it is unexcelled. Plants form strong, stocky bushes, about 2 feet high, bearing on long stems their pretty flowers which measure from 4 to 5 inches across. The petals are gracefully curved toward the center and do not have an exposed yellow center. This variety is unexcelled for bedding or for bouquets. White, Shell Pink, Rose Pink, Purple, Lavender and Mixed. Pkt. 7c.; $\frac{1}{4}$ oz. 25c.; 1 pkt. of each color for 25c.

Mrs. Joseph Leckburg, Valier Pa.—Had the best luck with asters grown from your seed, many people took them for Chrysanthemums.

JUNG'S GIANT LATE BRANCHING

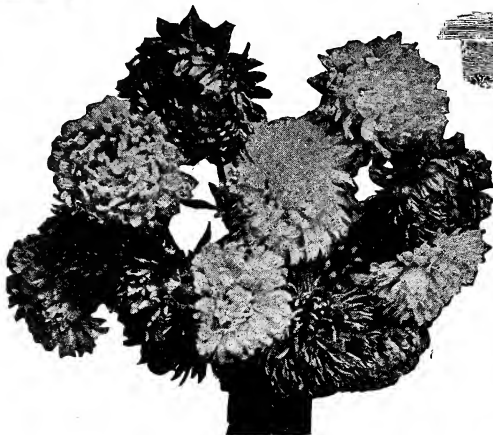

VIOLET KING

Jung's International Mixed

This splendid mixture contains every color known in Asters and includes early, medium and late varieties, thus giving you flowers throughout the season. It is not grown in mixture but carefully made up from the different kinds so as to get the right proportion of each color. If you want a fine lot of Asters at a low price sow this fine mixture. Pkt. 5c.; ¼ oz. 25c.; oz. \$1.00

Mrs. David Paice, Everett, Wash.—We were more than pleased with your seeds, we and lovely asters and Sweet Peas, everything was good.

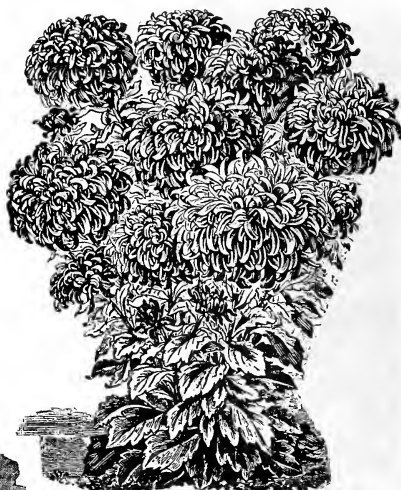

JUNG'S INTERNATIONAL MIXED

The King Asters

The habit of growth of this Aster is similar to the Branching type, growing vigorously about 2½ feet high; has long stiff stems. In form the flower is entirely new and distinct from any other variety; round, full and very large, many of the flowers measuring from 4 to 5 inches in diameter. Petals somewhat resemble the quilled varieties but are much longer and broader. Violet and Roes. Pkt. 8c.; ¼ oz. 35c.; 1 pkt. of each for 15c.

Mrs. Ben H. Reeves, Nelson, Nebr.—Last year I planted Giant Fancy Asters and took first prize at the Fair. Was more than pleased with your seeds.

JUNG'S GIANT FANCY

Jung's Giant Fancy Mixed

(See front cover.) This is the highest grade mixture of Asters it is possible to produce, being composed only of the very largest sorts. Most seedsmen do not put out such a grade as the seed costs too much but as we grow our own seed it is possible for us to do this. The colors include white, shell-pink, lavender, rose, purple and crimson. Many of the flowers are 5 inches across and are borne on stems 2 feet long. A finer lot of Asters are not to be had. Pkt. 10c.; ¼ oz. 45c.; oz. \$1.55.

JUNG'S QUALITY ASTER COLLECTION

We make this exceptional offer to convince you that JUNG'S ASTERS are in a class by themselves. We want every one of our customers to take advantage of this offer.

The following seven grand varieties will be sent to any address post-paid for only 35c.

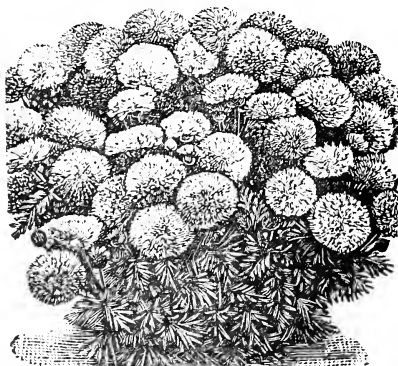

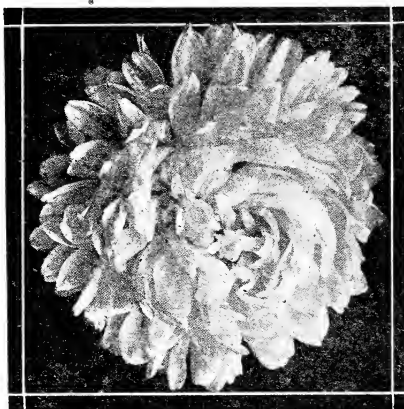

Chrysanthemum Flowered—Giant Sea-Shell Pink, A Beauty	10c
Jung's American Beauty—Giant Flowered Rose Pink	10c
Lavender Asternum—Charming Soft Lavender	10c
Giant Branching White—The Best Pure White	10c
Giant Branching Purple—The Darkest Colored of all	10c
Jung's Innocence—The Earliest of all, Pure White	10c
Violet King—Soft Violet Lilac	10c

Catalogue Value70c

From no other seedsmen can such a grand assortment of ASTERS be had for such a small price.

With each collection we send FREE INSTRUCTIONS on how to grow the large fancy flowers.

These packets are regular full sized and contain only the choicest of seed.

BABY GOLDEN GLOW

BABY GOLDEN GLOW

A most charming annual growing about 15 to 18 inches high, bearing scores of bright yellow flowers. Seeds should be started in doors; the plants will begin to bloom almost as soon as set in the open ground, affording an almost unlimited supply of cut flowers. One of the best bedders. Likened to Golden Glow on account of color, shape and profusion of bloom. Pkt. 5c.

CANDYTUFT—Little Prince

This is a dainty and distinct Candytuft, the plant growing only about six inches high and bears immense spikes of snow-white flowers in great abundance, remaining in perfection longer than any other annual strain. Pkt. 5c.

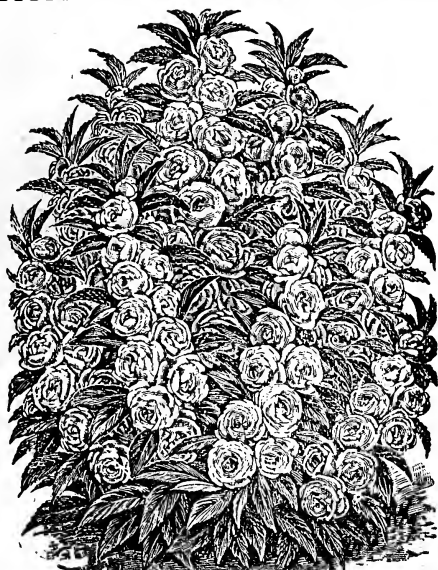

CANDYTUFT

BALSAM

DEFIANCE MIXED

A favorite quick growing annual. The plants from symmetrical well-branched erect bushes about two feet high. The branches are well covered with beautiful double flowers. The colors include white, rose, scarlet crimson, purple lilac and violet. Although such generous bloomers they are shy seeders. This variety is distinctly Camellia flowered. Our strain of these is unsurpassed for size of blooms, doubleness and beauty of flowers. Pkt. 5c.

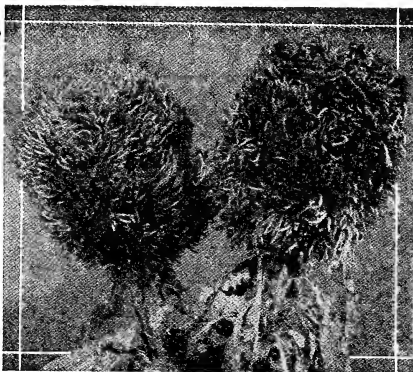

Miss Pauline Waters, Lexington, Ky.—Your flower and vegetable seeds are excellent, had much success with your seed.

DEFIANCE BALSAM

CHINESE WOOLFLOWER

Most Magnificent Garden Annual Ever Introduced. The plants average 2 feet in height, branching freely, each shoot bearing a beautiful ball of scarlet wool. It flowers early and profusely and the heads of bloom, mixed with fresh green foliage, makes the plant look like immense bouquet set in the ground. They continue to grow with a richness of color, a deep crimson-scarlet, all summer and fall, until severe frosts destroy them. A rare novelty. Fresh cut flowers when dried are much used for winter decorations. Pkt. 8c.

CHINESE WOOLFLOWER

CARDINAL CLIMBER

One of the most beautiful climbing annuals we know of and should be grown by every lover of vines or climbers. The foliage is like a palm-leaf, rich glossy green, with fringed edges against which the brilliant scarlet flowers about one inch across show off beautifully. In a warm sunny location and rich soil it grows 20 feet in height. It is of rapid growth, free from insects and a beautiful vine for porches or trellis. Pkt. 8c.

CARDINAL CLIMBER

COSMOS

EARLY FLOWERING MIXED

Grace and brilliancy are the characteristics of this pretty annual. The beautiful flowers, with their deep broad petals, rise from a cloud of fine feathery foliage. They are of compact bushy growth, about four feet high, with flowers fully as large as the old variety. Flowers are of various shades, ranging from pure white to purplish crimson. Pkt. 5c.

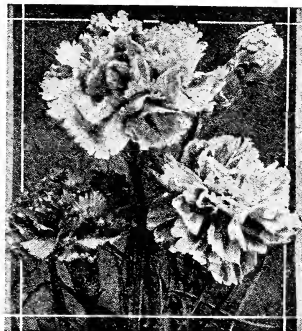

Elmer E. Smith, Fairfield, Nebr.—JUNG'S seeds are fine, have planted them before and always grow a garden.

Mrs. C. A. Currier, Hayward, Wis.—Last year was the first I ever tried your seeds but feel sure there are none better to be had.

CARNATION

GIANT MARGUERITE MIXED

These lovely fragrant Carnations produce fine double flowers. The flowers of this wonderful strain often measure three inches across and have a variety of colors, including white, blush, deep pink, salmon, scarlet, maroon and many variegated flowers. Most of them have lovely fringed petals. One great merit of these Carnations is that they begin to flower in about 13 weeks time from seed sown early in the spring. Pkt. 8c.

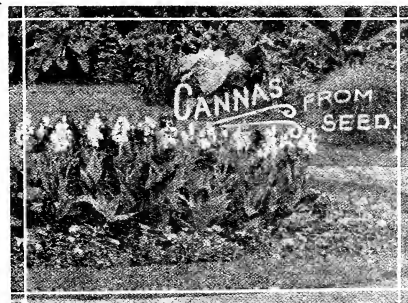

CARNATION

CANNAS

CROZY'S HYBRIDS

Very showy bedding plants with their tropical foliage and immense flowers borne on stalks three to seven feet high in all brilliant colors. Cannas are very easily grown from seed. For best results pierce the seed and soak in warm water then sow in a warm place or hot-bed. Seeds started in March or April produce a brilliant bed by July. Pkt. 5c.

SHASTA DAISY

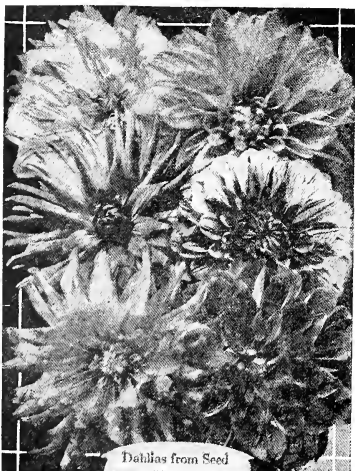

FAIRFIELD MIXED DIANTHUS

These hardy annuals may be ranked among the fairest gems of our flowers, as few can equal them in beauty or profusion of blooms. They are of the richest and most varied colors. The plants spread rapidly and make ornamental masses of growth. They may be sown in the open ground when danger from frost is over and in a few weeks they are masses of bloom, continuing so until frost. Our mixture includes the best single and double sorts. Pkt. 5c.

CELOSIA—Magnificent

This grand plumed Celosia is always one of the most admired plants for its rounded form and rich soft shades of coloring in the feathery plumes. Each branch has a pointed tip of richly colored bloom which later broadens to a loose, plummy head of the most brilliant color, all shades of orange and yellow, pink, scarlet and crimson having a rich softness most pleasing to the eye. Pkt. 5c

Dahlias from Seed

AFRICAN DAISY

This extremely showy annual has become a great favorite everywhere on account of its very easy culture and most beautiful flowers. The hardy plants of neat, branching habit grow only 12 to 15 inches high and are exceedingly profuse in flowering. Its Marguerite-like blossoms, $2\frac{1}{2}$ to $2\frac{3}{4}$ inches in diameter are of a peculiarly rich, glossy orange-gold. It bears its showy flowers very soon after being planted out in the open ground in sunny situations. A bed in full bloom is truly a magnificent sight. Pkt. 5c.

SHASTA DAISY

Is a perfectly hardy perennial, bearing flowers averaging 4 inches in diameter, on long stiff stems. It blooms freely for several months and the flowers remain fresh for two weeks or more after cutting. The petals or rays are pure glistening white, with small golden yellow centers. If sown early, it will flower the same season. Height $2\frac{1}{2}$ feet. Pkt. 5c.

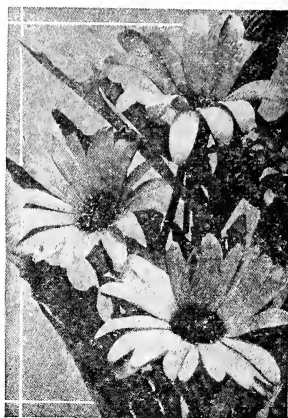

FIREBALL DIANTHUS

DIANTHUS or PINKS

FAIRFIELD FINEST MIXED

These hardy annuals may be ranked among the fairest gems of our flowers, as few can equal them in beauty or profusion of blooms. They are of the richest and most varied colors. The plants spread rapidly and make ornamental masses of growth. They may be sown in the open ground when danger from frost is over and in a few weeks they are masses of bloom, continuing so until frost. Our mixture includes the best single and double sorts. Pkt. 5c.

AFRICAN DAISY

DIANTHUS

FIREBALL

Dianthus are one of the most popular and satisfactory of our summer flowering annuals. The plants spread rapidly and make ornamental masses of growth with rich and varied colors. Flowers of a beautiful orange scarlet color, nearly two inches across, on long stems which makes it very valuable for cutting. Plant grows about 12 to 15 inches high. A fine bedder. Pkt. 5c.

CELOSIA

DAHLIAS

JUNG'S FANCY MIXED

The Dahlia still holds its place as "king" of all out-door autumn flowers and they may be grown to the greatest perfection from seed, blooming beautifully the first summer. As easy to grow from the seed as the most common plant. Anyone can have a magnificent display of these regal beauties at very small cost. Continue to bloom profusely until severe frost when the bulbs can be taken up and stored until spring. A superb mixture of the finest double varieties of largest size and finest colors. Pkt. 10c.

GAILLARDIA

FINEST MIXED

One of the most showy annuals and greatly admired for their fine form and rich blending of colors in orange, brown, bronze, maroon and crimson. Many of the flowers are 4 inches across and being produced on long stems are excellent for bouquets. They blossom from July until frost. Easy to grow. Pkt. 5c.

HOLLYHOCKS

EVERBLOOMING ANNUAL MIXED

This old but favorite flower may now be had in flower the first season. The diversity of form and colors of our selection will afford you many surprises. Some plants will produce dense double flowers others will be semi-double while some are single with double centers. The flowers are unusually large, some measuring 5 inches across. In colors there is also a great variety, some richly brilliant others dainty and elegant, ranging through black, maroon, crimson, rose, pink and white. You will find our strain to be unsurpassed. Pkt. 5c.

HOLLYHOCKS

LARKSPUR--Giant Annual Mixed

Well known annuals of great beauty and noted for their richness of their colors—particularly the blue. Our mixture includes the white, pink, rose, light and dark blue and violet. Our strain is a vast improvement over the old varieties, more of the flowers being double and all of them of larger size. They bloom very freely and produce large spikes of longkeeping flowers. Pkt. 5c.

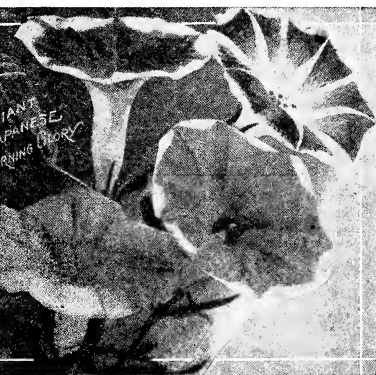

LARKSPUR

CHRISTMAS KOCHIA

CHRISTMAS KOCHIA

A great improvement on the old variety as this new strain retains its beautiful color until late in the winter while the old variety dried up in September. The bushes are a mass of dense live green in summer while after frost it turns to rosy claret-red and is highly ornamental after all other plants and shrubs are dead and the effect of this color against the snow is certainly a beautiful sight. The plants grow 3 to 4 feet high and very dense and symmetrical in shape from the very start. It is also very desirable for a pot plant, being especially fine for Christmas and New Year decorations. We are sure you will be more than pleased with this new ornamental plant. Pkt. 5c.

GIANT JAPANESE MORNING GLORY

MORNING GLORY

GIANT JAPANESE MIXED

The robust vines attain a height of from 15 to 20 feet. The foliage is luxuriant, distinct and varied, green, silvery and yellow leaves. Their charm lies in the entrancing beauty and large size of the flowers; they measure from 3 to 4 inches across. The color of the flowers, shadings and markings are limitless. Some flowers are of deep, rich velvety colors, others daintily tinted and shaded. There are reds from soft rose to crimson and garnet; daintiest blue to purple; snow-white to silver gray. They are easy to grow and quick to come into bloom. Pkt. 5c.

MARIGOLD

MIGNONETTE

BISMARCK

One of the finest, being of strong growth healthy and deep rooting. The average spikes of flowers are immense, measuring 6 to 8 inches long by 2½ inches in diameter and are compactly filled with giant florets, measuring ½ inch across and packed full, even to the center with anthers. The color of the bright red florets is strengthened on account of the density of florets and spikes, thus presenting almost solid columns of brilliant red, effectively contrasted against the healthy green foliage. Pkt. 5c.

FINEST MIXED

Highly esteemed for its delicate fragrance. It grows most rapidly and produces the largest and finest spikes of blossoms during the cool, moist weather of early spring and late fall months. A second planting should be made about the first of August to furnish fine spikes of flowers during the fall months. Pkt. 5c.

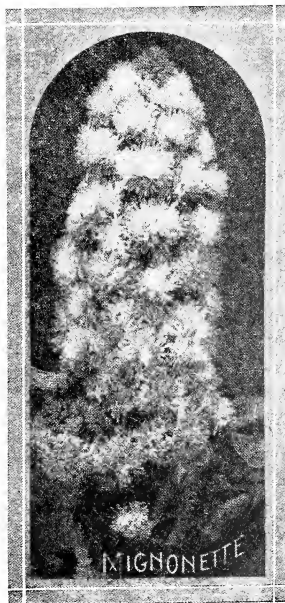

NICOTIANA

SANDERAE HYBRIDS

These flower from early summer until late in autumn. Their beauty is beyond description, flowers being purple, dark and light red, snow-white, violet, salmon, pink crimson and various other shades. It is a very easily cultivated plant, thrives in any soil, either in pots, boxes or in the open ground. The cut blooms last well, opening freely in water. All colors mixed. Pkt. 5c.

Nicotiana, Sanderæ Hybrids

MIGNONETTE

NASTURTIUMS

Dwarf Brilliant Beauties

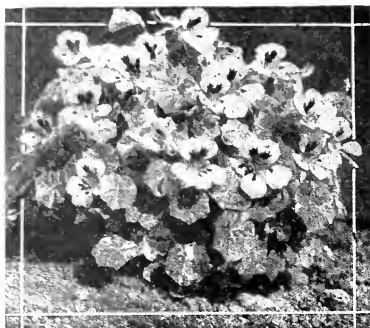

The plants are of strong, vigorous growth, erect habit and beautifully rounded form. The leaves on different plants range from light green to a rich purplish tint. They are of quick growth, begin to bloom early in the summer and continue to flower profusely until killed by frost. So greatly diversified are the colorings that it seems almost impossible to find two plants bearing flowers alike. The flowers are not only wonderfully brilliant but also of large size. It makes an excellent variety for bedding. Pkt. 5c. oz. 20c.

Giant Tall Mixed

This mixture is absolutely unsurpassed. Nothing can excel the wealth, richness and variety of these Nasturtiums for trellis, window boxes or brush planting, nor surpass them in freedom and profusion of bloom. They throw out running shoots that can be trained upon strings or wires and can be easily made to climb ordinary wire netting. On good soil they grow 8 feet tall. Our mixture includes a wonderful diversity of colors; some are solid while others are beautifully mottled and striped. Pkt. 5c.; oz. 20c.

GIANT TALL NASTURTIUM

BRILLIANT BEAUTIES

GIANT FANCY PANSIES

Giant Masterpiece

This giant Pansy is remarkable for having its petals waved or folded, giving it the appearance of a double flower. The truly giant-sized flowers are of the most striking character, the petals being of a rich velvety substance and heavily ruffled. The colors are mainly dark rich shades, bordered, blotched or marked in ray-like veinings. The mammoth size, richness and beauty of colorings, combined with the distinctly frilled or ruffled character of the petals makes the Masterpiece one of the most interesting novelties in Pansies ever developed. Pkt. 12c.

GIANT MASTERPIECE PANSY

PANSIES

Jung's Giant Fancy Mixed

This "Fancy Mixture" contains seeds of the largest, richest and handsomest pansies known to the horticultural world.

The well formed expanded flowers are uniformly of the largest size and of fine substance; they are borne on long, stiff stems, well above the heavy deep green foliage. The colors are rich and varied such as white, cream, yellow, deep orange, mahogany, claret rose, reddish bronze, lavender and light blue and each petal is distinctly blotched. The compact, rounded plants are of sturdy habit and so deep rooted that they bear gigantic flowers profusely and continuously. The petals are of thick, heavy substance, large size and various shapes. Pkt. 15c.

Large Flowering Mixed

This is a popular large flowering type just what you want for a pretty bed. The plants make a strong growth and flower freely. This mixture comprises many beautiful varieties and we know you will be delighted with it. Pkt. 5c.; 1/8 oz. 25c.

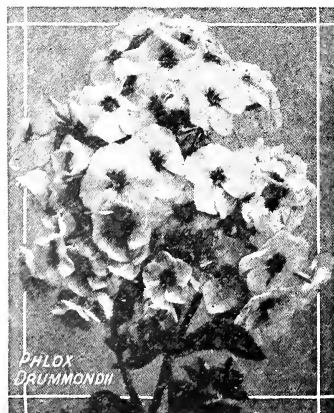

Mrs. R. D. Carlton, Stonington, Colo. — I like your seeds fine, and they do not cost any more than any other seeds.

PHLOX DRUMMONDI

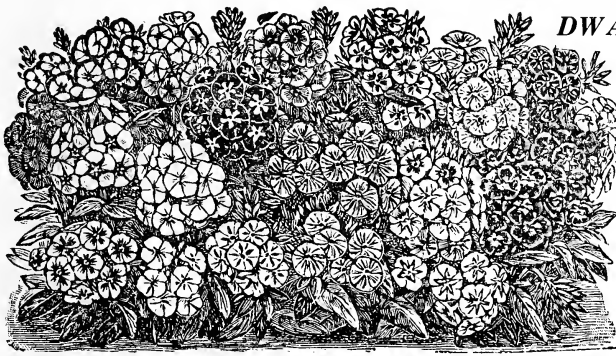

GRANDIFLORA MIXED

The Best of all Bedding Plants

This superb strain is notable not only for variety and brilliancy of colors, but also for the perfection and size of the flowers. Many of the single flowers are so large that they will nearly cover a 50-cent piece. The colors range from pure white to the deepest red or crimson, while the clear eye of some of the flowers is peculiarly marked. In good rich soil they will grow 18 inches high and for a mass of splendid colors no flower will give a more satisfactory return for so little cost. No garden should be without these most beautiful of all dwarf growing annuals. Pkt. 5c.

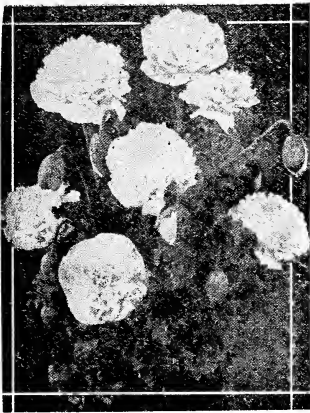

LARGE FLOWERING

DWARF PHLOX—NANA COMPACTA

DWARF PHLOX—*Nana Compacta Mixed*

This splendid race of dwarf annual Phloxes cannot be overpraised for brightness and beauty. The plants are always lavishly covered with large flowers of the most brilliant hues. Nothing better for bedding purposes is listed in this catalog. They succeed everywhere and are in universal favor for summer growing flowering purposes. Bushes are dwarf and compact, six to eight inches high, forming dense masses of bloom all summer. The colors include pure white, deep and showy red rose with white eye and many other shades. They are quite hardy and are to be treated as annuals. Pkt. 7c.

FEATHERBALL POPPIES

Featherball Poppies

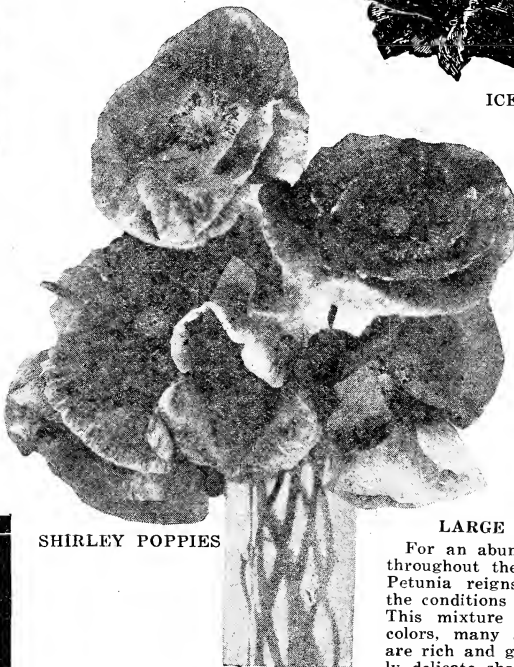

These double fringed annual Poppies are very beautiful; they belong to the carnation-flowered type, the large flowers having the same globe-shaped formation with gracefully fringed petals like big balls of slashed tissue paper. Plants are of branching, stocky growth, 15 to 18 inches high, each plant carrying several of these exquisite flowers. The great variety of coloring ranges from the most gorgeous shades down to pure white. They are of the easiest culture. Mixed colors. Pkt. 5c.

ICELAND POPPIES

Iceland Poppies

The Iceland Poppies are perennials blooming the first season from seed. The fragrant, elegant, crushed satin-like flowers are produced continually from June to October. They are of graceful, neat habit, with bright green fern-like foliage formed in tufts from which issue slender stalks about 12 inches long bearing their brilliant flowers in endless profusion. Their long stems and lasting qualities make them invaluable for cut flowers. The flowers last fully a week if cut as soon as open. Pkt. 5c.

SHIRLEY POPPIES

Petunia

LARGE FLOWERING MIXED

For an abundance of large showy flowers throughout the entire summer and fall the Petunia reigns supreme. No matter what the conditions are they are always in bloom. This mixture contains a great variety of colors, many are beautifully striped, some are rich and gorgeous while others are lovely delicate shades. Pkt. 5c.; 1/4 oz. 25c.

Petunia

DEFIANCE MIXED

This strain bears grand, substantial flowers of the largest size in profusion. The flowers frequently measure five inches across, the colors are indescribably rich and varied. Most of the flowers are beautifully fringed and have open throats. All are distinctly veined, especially in the throat portion and in many the throat is darker than the outer portion of the petals, imparting a rich velvety effect. The foliage is large and heavy and very dark green in color. Some of the colors are rich and gorgeous, while others are of lovely delicate shades. Pkt. 15c.

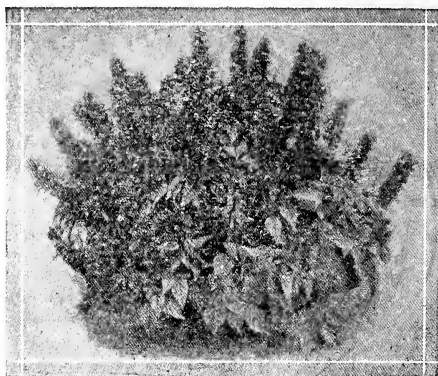

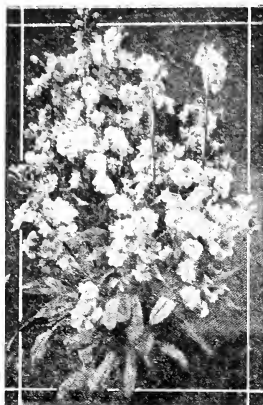

LARGE FLOWERING PETUNIA

DEFIANCE PETUNIA

Salvia—Bonfire

One of the finest Salvias and the grandest bedding plant known. A bed of them will surpass the finest scarlet geraniums in brilliancy and continuous bloom. The plants grow very bushy, attaining a height of about 30 inches and single plants often carry 100 spikes measuring from 8 to 12 inches in length. The flowers are a brilliant, dazzling scarlet and from the time they first begin to flower the plants are a continuous blaze of color until killed by frost. We know of no other flower that will equal the gorgeous effect of a row or bed of these Salvias when in full bloom. Why pay from 50 cents to 75 cents per dozen for these plants when you can raise at least 50 plants from a pkt. of our seed. Full instructions on growing are sent with every order. Pkt. 8c.; ½ oz. 35c.

SALVIA BONFIRE

STOCKS

Stocks

FINEST MIXED

One of the best known and most popular annuals, of easy culture and suitable for pots as well as the garden. The plants grow upright and produce the flowers on long spikes; the flowers are double and many of them two inches in diameter. The colors include white, rose, blue, crimson and yellow. Very fragrant and excellent for cut flowers. Pkt. 5c.

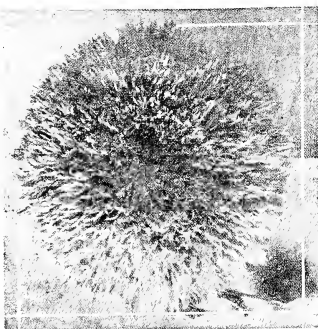

SALVIA SPLENDENS

Antirrhinum or Snapdragon

JUNG'S FANCY MIXED

These flowers were great favorites in old gardens but our giant flowered strain is such a great improvement that anyone would hardly recognize them as the same flower. The bushes grow about 18 inches tall and produce splendid spikes of blossoms in all shades of red, rose, salmon, yellow and white. Very easy to grow and should be in every garden. If carefully lifted and potted in the fall they will bloom in the house during the winter. Pkt. 5c.

SUNFLOWER

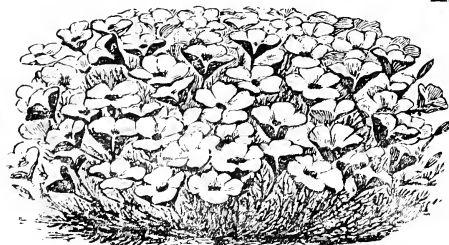

Sunflower

CHRYSANTHEMUM FLOWERED

Grows seven feet tall. Perfectly double. The color is the brightest golden yellow. The plants branch and afford fine, stout stems for cutting. This gigantic Sunflower will be of great value for the hardy garden and herbaceous border. The flowers are so perfect in form that they resemble Chrysanthemum flowered Asters with long stems. This is the very best variety. Pkt. 5c.

CALIFORNIA POPPY—Finest Mixed

Very handsome, quick growing annuals with fine cut foliage and bright poppy-like blossoms. Nothing can excel it for brightness and it blooms continually from June to October. Colors orange, yellow, crimson and maroon. Very easy to grow. Pkt. 5c.

CALIFORNIA POPPY

PORTULACA

Portulaca or Moss Roses

FINEST MIXED

One of the most showy and profuse blooming annuals. A great favorite for bedding, edging and rock work; also splendid for window boxes. Will grow and bloom in hot dry locations where almost any other plant would die. Blooms profusely from early summer until autumn. For brilliant color a bed of these easy growing flowers is a sight to behold. Our mixture includes all the finest colors. Pkt. 5c.

Sweet William

ANNUAL MIXED

The old favorite Sweet William, as all know does not flower until the second year but this new strain will begin to bloom in 50 to 60 days from seed sown in the spring and will continue to blossom all summer. The flowers or heads are of large size, very fragrant and of various colors, white, crimson, rose-pink, etc., many of which are edged with white. Splendid for beds or borders. Pkt. 5c.

GIANT SPENCER SWEET PEA

GIANT SPENCER SWEET PEAS

These new Sweet Peas are of enormous size, which together with their charming colors and fluted appearance entitles them to be put in a class by themselves. Some of the flowers grown on our farm measured 2½ inches across. The plants are vigorous in growth and should stand at least 18 inches apart.

ASTA OHN

Both standards and wings of flowers are a soft charming lavender. Flowers are beautifully waved and fluted. Pkt. 7c.; oz. 25c.

ELFRIDA PEARSON

Flowers of extra large size and a rich deep pink color; often four flowers to a stem. Pkt. 7c.; oz. 30c.

KING WHITE

The grandest of all white Sweet Peas, remarkable for its glistening pure whiteness and large size. Pkt. 7c.; oz. 30c.

KING EDWARD

The most brilliant scarlet Sweet Pea. Flowers of great size and perfect form. Pkt. 7c.; oz. 25c.

MRS. ROUTZAHN

A beautiful Sweet Pea, soft, salmon-pink shading towards apricot and rose at the edges. Flowers of largest size and beautifully waved. Pkt. 7c.; oz. 25c.

MARGARET ATLEE

Practically a new shade of pink. The lovely flowers, uniformly of the most advanced Spencer type are a rich glowing pink on cream ground while the wings are a rich shade of pinkish rose and salmon. The flowers are of extraordinary size, exquisitely waved and freely produced on long stout stems. Pkt. 10c.; 3 pkts. for 20c.

Jung's Special Sweet Pea Offer

These new Giant or Spencer varieties are very much superior to the old varieties and we want all of our customers to try them and we therefore make this special offer:

—SIX FULL-SIZED PACKETS FOR 25c.—

Mrs. Routzahn Spencer—A beautiful cream pink.

Asta Ohn—Charming soft lavender.

King White—The largest white sweet pea of all.

Elfrieda Pearson—A lovely pure pink.

Orchid Flowered Mixed—A superb mixture.

One packet each of the above with full instructions on how to grow the finest flowers for only 25c.

Giant Orchid-Flowered Mixed Sweet Peas

The new Spencer Sweet Peas are robust growers, producing flowers usually measuring two inches across, borne three and often four on long, strong stems, making them invaluable as cut flowers for bouquets, vases or other decorations. The flowers are beautifully formed, the upright standards and immense wings of the finest waved and fluted form. This mixture has been made with extraordinary care by us from the first named true, large flowering Spencer varieties, introduced to date, and in such quantities as to produce a well balanced and finely proportioned color effect. All dull and undesirable colors have been omitted making this mixture the best ever offered. No better can be had. Pkt. 10c.; oz. 25c.; ¼ lb. 50c.

Jung's Superfine Mixed Sweet Peas

This is not grown in mixture but carefully blended of the finest large flowering varieties, including some of the most beautiful introductions. For flowers of delicate colors varying from pearly white to the richest reds and purples this mixture leads, because it is the result of selecting year after year, seeds of the choicest flowers. Pkt. 5c.; oz. 15c.; ¼ lb. 25c.

JUNG'S SUPERFINE MIXED

Juline W Kent, Vermontville, N. Y.—We had beautiful sweet peas from the seed purchased from you last summer.

Wallace Shannon, Millersburg, Ky.—The Spencer Sweet Peas I received last year did fine, it looked as if every seed came up.

VERBENA—Fairfield Famous Mixed

A choice perennial, 6 to 12 inches high, indispensable for bedding purposes. The average trusses measure 9 to 12 inches in circumference and the individual florets on properly grown plants measure one inch across. They bloom freely, are vigorous in growth and contain beautiful new colors and shades. For garden beds and massing these Verbenas are unrivaled; flowers of the most brilliant colors produced continually from spring until late in the fall. Pkt. 5c.

W. P. Bird, Colome, S. D.—I never used better seed or got as much for the money.

VERBENA

ZINNIAS

Fancy Double Mixed

Our strain of these beautiful giant-flowered annuals is unsurpassed. The flowers are of giant size, when well grown will measure from 4 to 5 inches in diameter. Flowers have a wide range of color from creamy white through all shades of yellow, salmon, pink, rose and crimson. Plants grow three feet in height and form large bushes which bloom until killed by hard frosts. We know you will be delighted with our Fancy Zinnias. Pkt. 7c.; 3 pkts. 20c.

Curled and Crested

The petals are long, elegantly curled and twisted giving them the appearance of a fine Cactus Dahlia. The colors range from white through many shades of yellow, rose-pink and salmon to deep crimson. Plants are strong growers and produce flowers in great profusion until killed by hard frosts. Pkt. 5c.

FANCY DOUBLE ZINNIAS

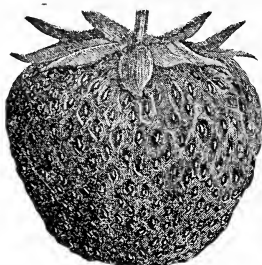

Jung's Bargain Flower Collection

This assortment of flower seeds will give you a big supply of flowers for beds and bouquets all summer and fall. At the small price of 50c it is one of the greatest bargains to be had. One pkt. of each as follows:

ASTERS	NASTURTIUM
AFRICAN DAISY	PANSY
BALSAM	PHLOX
DIANTHUS	POPPY
COSMOS	STOCKS
HOLLYHOCKS	SWEET PEAS
MIGNONETTE	ZINNIAS

VERBENA

With each collection we send a book of culture instructions. If you want lots of beautiful flowers at a small small price be sure to order this collection.

GIBSON STRAWBERRY

Gibson Strawberry

This is considered to be one of the best main crop varieties. In the big strawberry sections more Gibsons are planted than any other, it out-yields and out-sells all other berries on the market. The plants are extra strong growers and bear for a long time thus making a heavy yield. The berries are very large, of a beautiful red color and finest quality. We know you will not be disappointed with Gibson. Price 25 for 50c.; 50 for 80c.; 100 for \$1.25.

St. Regis Everbearing Raspberry

A splendid early, red Raspberry that should be in every garden. It produces an abundant crop, like other varieties the old canes continue to bear until the middle of August when they should be removed to make room for the young canes which are already beginning to bear fruit, continuing until hard frosts. The berries are bright crimson and of excellent quality. Price 6 for 50c.; 12 for 85c.; 50 for \$3.00.

Concord Grape

The best known and most widely grown grape in cultivation. It is hardy and succeeds everywhere. Bunches are large and compact, fruit large and purplish black. It's easy to grow grapes and everybody should set out a few plants. Price of strong well rooted plants each 15c.; 6 for 80c.; 12 for \$1.50.

Rhubarb or Pie Plant

A few Rhubarb plants should be in every garden. They are excellent for pies or sauce and are ready for use at a time when no other fresh fruits can be had. Price 3 for 25c.; 12 for 75c.

Barr's Mammoth Asparagus Roots

Every home garden should have an asparagus bed, once planted it will require but little care and produce a great quantity of this nourishing food. By planting roots you will be able to get results much quicker than by sowing seed. Price, 25 for 40c.; 50 for 75c.; 100 for \$1.25.

Jung's Hardy Northern Grown Fruit Plants

Every year we receive a large number of requests from our customers for berry plants and in order to meet this demand we are offering a select list of the very best kinds.

Place our order early and they will be shipped at the proper time. We pay all shipping charges.

Progressive Everbearing Strawberry

There are a great number of everbearing strawberries being offered but so far, the Progressive has proved to be by far the best. It produces a large crop of good-sized berries, of rich scarlet or red color and the finest flavor. It will bear a fine crop in June and then keep on bearing until November. It is the only variety that will bear the first season; just as easy to grow as the common varieties.

We offer strong well-rooted plants of our own growing. Order early as the demand is sure to exceed the supply. Price 25 for 80c.; 50 for \$1.25; 100 for \$2.25; 1000 for \$19.00.

A great "buy" in Berry Plants on back cover.

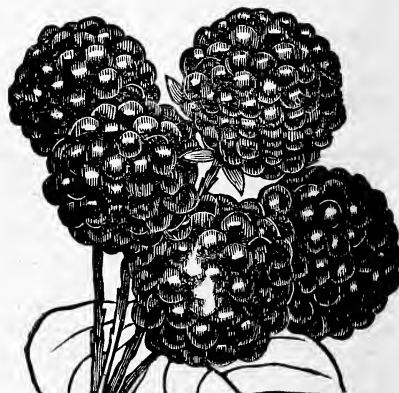

EARLY KING RASPBERRY

Early King Raspberry

Acknowledged by most growers to be the best red raspberry. It ripens extra early, the berries are very large, bright red, firm and easily picked. Canes are very vigorous growers and unusually hardy. If you want a big supply of the finest red raspberries plant Early King. Price 6 for 40c.; 12 for 75c.; 50 for \$2.50; 100 for \$4.50.

Cumberland Raspberry

The biggest and best black raspberry grown, the most desirable for either home or market and is hardy everywhere. It is very productive berries are jet black, of good size and superior quality. Price 6 for 40c.; 12 for 75c.; 50 for \$2.50; 100 for \$4.50.

CUMBERLAND BLACK RASPBERRY

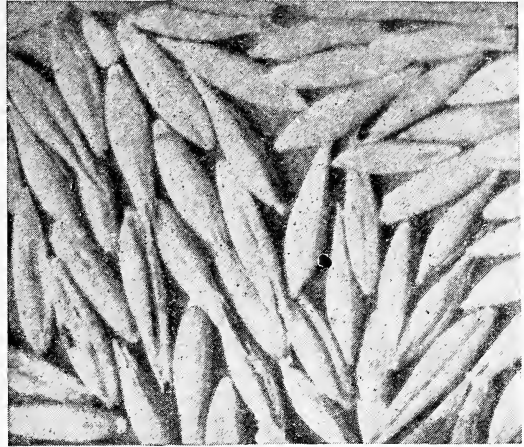

Jung's "Heavy Yielding" Wisconsin Pedigree Seed Oats

We make a specialty of Pedigree Seed Oats. This is not oats that is bought on the open market given a fancy name and then sold at a good price. All of our Seed Oats is State Inspected; it is very plump and heavy, (40 to 42 lbs. test) of high germination and free from foul weeds. It will pay any farmer to sow some of these fine oats as you will raise enough extra bushels from each acre to more than pay for the cost of the seed.

Wis. Wonder—Pedigree No. 1 Oats

The stiffest straw of any variety. Will stand up on rich bottom lands where other varieties go down. The most popular and widely sought Oats, surpassing all varieties.

This new Oats was developed at the Wisconsin Agricultural Experiment Station. Over 100 varieties were tested out there, and they say of the Wisconsin Pedigree No. 1: "It has outyielded everything thus far and does not lodge even on rich soils. We call it the BEST OATS IN THE WORLD." Wis. Pedigree No. 1 is a pure white oat, good sized kernels which are a little longer than Swedish Select but have a thinner hull. Straw grows very stiff and ripens a little ahead of Swedish Select. A remarkable characteristic of this oat is that it usually produces two fully developed kernels to a pod; other varieties often produce only one kernel and a hull. This is just where the increase in yield comes in and is a point of great value. This oat has been thoroughly tested out in all parts of the state the past five years and has given such satisfaction that it has been rightfully called "The Most Valuable Oat Ever Introduced." Lb. 25c.; 3 lbs. 50c., postpaid. By freight: Pk. 45c.; Bu. \$1.10; 3 bu. \$2.80; 10 bu. \$8.80. Bags free.

WIS. PED. NO. 1 OATS

Jung's Bumper Crop or Wis. No. 5

A new Pedigree Oats originated at the Wis. Agr. Exp. Station the same time as Wis. Pedigree No. 1 but entirely different in character. The kernel is of medium length with a thin hull, by all means the nicest looking oats, big fat kernels fairly bursting with life and energy. The straw grows strong and stiff, making it a good variety to sow on rich soil. Why sow poor or inferior run out oats when you can buy pure pedigree seed at very reasonable prices. We are positive you will get enough extra bushels from each acre to more than pay for the seed. Lb. 25c.; 3 lbs. 50c., postpaid. By freight: Pk. 40c.; Bu. \$1.00; 3 bu. \$2.80; 10 bu. \$8.85. Bags free.

JUNG'S BUMPER CROP OATS

Early Kherson or Wis. No. 7

The Earliest of all Oats

The past season the superior qualities of early oats were especially noticeable as they produced much heavier oats and larger yields than later varieties due wholly to the fact that they ripened before the severe heat. It ripens as early as barley, in fact can be cut and shocked while the common oats are still green. They grow a short stiff straw and every bundle seems to be a mass of heads so you will not have to handle a lot of straw to get a bushel of oats.

Owing to its stiff straw it is well suited for growing on rich soil. It is a remarkably good yielder on a test plot it produced 108 bu. per acre. Kernels are medium in size, pure white and have a very thin hull, this accounts for their heavy weight as they seem to be all meat. The sowing of extra early oats is increasing every year and you will make no mistake by planting part of your oat land with this variety. Lb. 25c.; 3 lbs. 50c., postpaid. By freight: Pk. 40c.; Bu. \$1.00; 3 bu. \$2.75; 10 bu. \$8.75. Bags free.

Farm Seed Prices Subject to Change

The prices on all farm seeds quoted in this catalog such as seed oats, barley, seed corn, clover, alfalfa, timothy, potatoes, etc. are the prevailing values at the time this catalog goes to press, Jan. 1, 1922 and are subject to market changes... We will fill orders at these prices as long as our present stock lasts. It is always advisable to send orders early as we then have complete stocks and you will be sure to have the seeds on hand at planting time, also prices almost always advance with the season. Samples of farm seeds are sent free to intending purchasers. PLEASE REMEMBER THAT WE MAKE NO EXTRA CHARGE FOR BAGS.

Wis. Pedigree Barley

THE BARLEY THAT ALWAYS WINS
FIRST PREMIUM AT ALL THE GRAIN
SHOWS.

It has been thoroughly tested at the Wisconsin Experiment Station and throughout Wisconsin and proved to be superior to any other variety. It will out-yield all others, has the stiffest straw and the plumpest berry. The heads are of great length and a remarkable characteristic is that all the kernels are uniform in size. This barley will yield from five to fifteen bushels more per acre than any other and it will pay any farmer handsomely to buy seed enough to sow all his barley land. Under normal conditions the kernels are bright and white, making it most attractive. Lb. 25c.; 3 lbs. 50c., postpaid. By freight: Pk. 45c.; Bu. \$1.25; 3 bu. \$3.50; 10 bu. \$10.65. Bags free

Wis. No. 1 Field Peas

RICHEST FOOD KNOWN FOR HOGS

Excellent for hay or green feed

Field Peas should be more generally grown, as you can produce pork at a low cost by sowing a few acres of these peas. A good way to raise a bunch of excellent hogs is to sow some field peas and plant a few acres of our Smut Nose Flint Corn. When the peas are fairly ripe, turn your shoats into them which will give them a fine start and when the peas are gone let them into the corn as it will be ripe by that time. Field Peas also make excellent hay when sown with oats, also splendid when cut green and fed to milch cows. Our seed is extra fine and we offer it at a price so that any farmer can afford to sow a few acres. Lb. 25c.; 3 lbs. 50c., postpaid. By freight: Pk. 85c.; Bu. \$3.25

Early Amber Cane

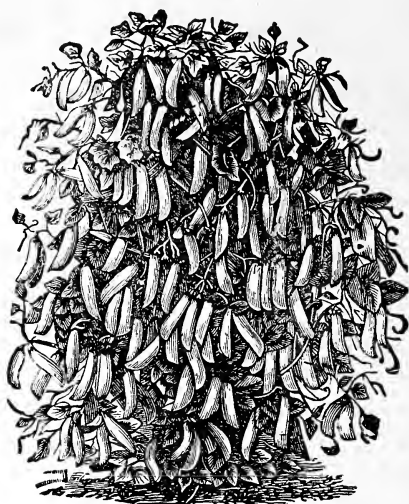

Owing to the high price of sorghum and syrup there will be a great increase in the growing of cane for this purpose. For this purpose use only northern grown seed and sow in drills about three feet apart, using five pounds of seed to the acre Lb. 20c.; 3 lbs. 40c., postpaid. By freight: Lb. 15c.; 5 lbs. 40c.; 50 lbs. \$2.75.

Ito San Soy Beans

Great for Silage and Equal to Clover for Hay

Soy Beans have a double value as they are great for feed and also nitrogen gatherers, making the soil richer wherever they are grown. They can be sown broadcast for hay or sown in rows and cultivated if wanted for the beans. Soy Beans are much richer in protein than oil meal or bran and can be used to good advantage in making a balanced ration when ground with oats or barley. For ensilage they may be sown in rows or also planted with the corn as the corn binder will cut them very nicely. They are a tender plant and should be planted about the same time as corn. Probably the best all round variety as it makes a good growth, about 30 inches tall and is excellent for ensilage. Wisconsin Grown Seed: Qt. 40c., postpaid.

By freight: Pk. 95c.; Bu. \$3.50.

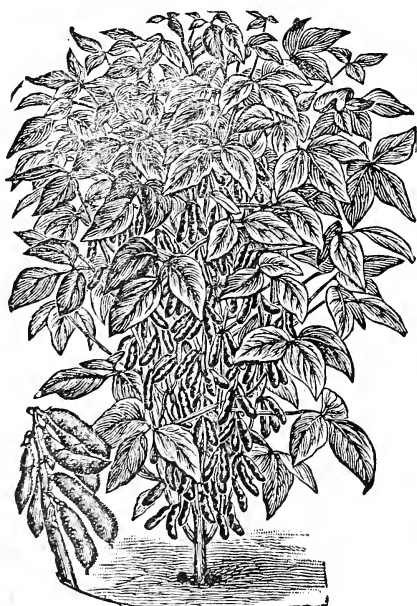

Field Peas

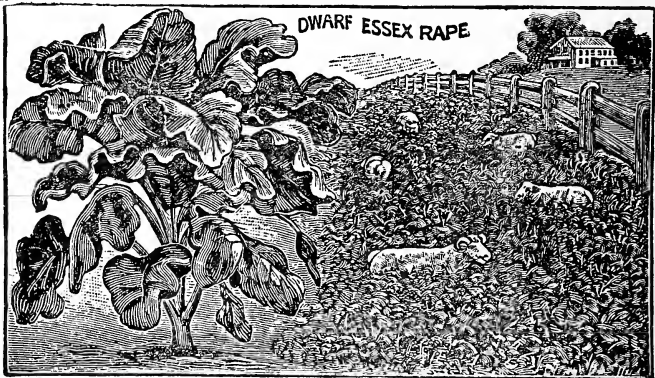

EARLY AMBER CANE

WIS. PEDIGREE BARLEY

Soy Beans

DWARF ESSEX RAPE

Genuine Dwarf Essex Rape

The greatest of all forage plants. It is ideal for sheep pasture and is now also largely sown for cattle and hogs. It furnishes an immense amount of green feed on a small area and is nutritive value is nearly twice that of clover. Under favorable conditions it is ready for pasturing in 6 weeks from the time of sowing and furnishes excellent feed through out the summer and fall. Dwarf Essex Rape thrives best on good soil, rich in vegetable matter. Rape should be sown in drills at the rate of three pounds to the acre, or broadcast, using four to six pounds to the acre, all through the summer months, so as to furnish a successive crop of sheep and hog feed. Some firms ask more for their Rape Seed than we do, but we handle only the VERY BEST SEED which is always sure to give satisfaction. Lb. 20c.; 3 lbs. 50c., postpaid. By freight: 5 lbs. 60c.; 10 lbs. \$1.00; 100 lbs. \$9.50.

Jung's Wis. Pedigree Seed Corn

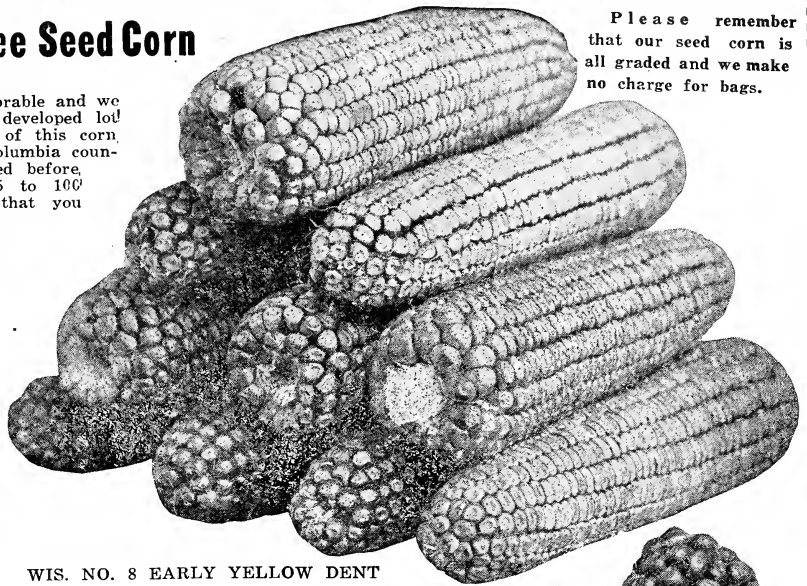

Wisconsin Grown

The past season was again favorable and we have about the finest bred and developed lot of corn we have ever had. All of this corn was grown here in Dodge and Columbia counties. It was all ripe and cured before frosts and germinates from 95 to 100 per cent. We are so confident that you will be satisfied with Jung's Wis. Pedigree Seed Corn that

We Ship Our Seed Corn On Approval

Order your seed corn and after it arrives test it in any way you wish within 10 days after you receive it. If it is not perfectly satisfactory in every way, return it at our expense and your money will be refunded. Could anything be more fair?

All of our Seed Corn is carefully graded and will work perfectly in any corn planter. Remember that graded seed corn is worth at least 50 cents more per bu. than ungraded seed corn kernel will go through your planter, no waste.

WIS. NO. 8 EARLY YELLOW DENT

Wis. No. 25 Extra Early Yellow Dent

This variety was developed by the Wis. Exp. Assn. the idea being to produce a very early maturing corn suitable for the northern counties of Wis., Minn. and Mich. It was bred from a cross of Wis. No. 8 with a very early variety which Prof. Delwiche secured from Northern Mich. That it is a success is well proved by the excellent showing it has already made in the many northern counties of Wis. In appearance it is similar to Wis. No. 8 but matures about one week earlier. On the branch of the Wis. Exp. Station at Spooner, Wis., a remarkable yield of over 80 bu. per acre was made. If you wish a very early ripening corn do not fail to plant Wis. No. 25. Lb. 30c.; 3 lbs. 80c., postpaid. By freight: Pk. \$1.00; Bu. \$3.25; On Ears per bu. \$4.25.

Wis. No. 8 Early Yellow Dent

This is the corn for Northern Wis., and similar latitudes. The commanding points are: Its earliness, its enormous productiveness, its adaptability to a great variety of soil and climates. It fully matures on the shores of Lake Superior and ripens anywhere in Wisconsin. Ears average 7 to 8 inches in length, with long kernels, very uniform in type and color. It grows a medium-sized stalk with good leaf development. It will thoroughly mature in about 90 days on favorable soil and good location and yields from 40 to 50 bu. per acre, producing often two ears to a stalk. By careful breeding the kernels have been materially lengthened without sacrificing the extreme earliness. The tips are remarkably well filled.

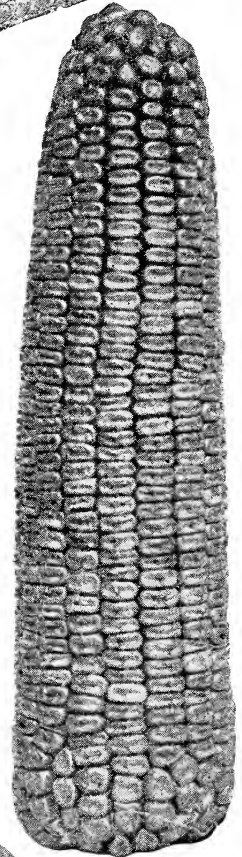

Sample ear by mail 25c. By freight: Pk. 90c.; Bu. \$3.00. On Ears per bu. \$4.00.

Golden Glow—Wis. No. 12

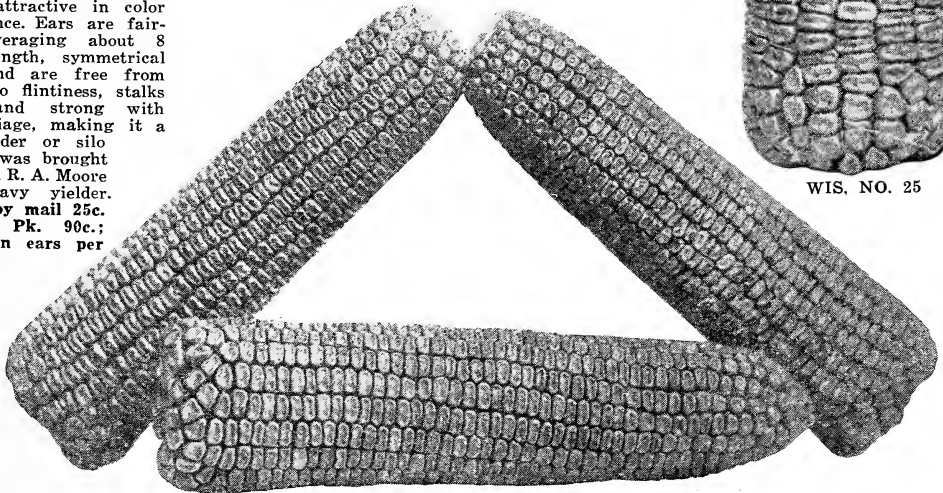

THE MOST POPULAR YELLOW DENT CORN IN WISCONSIN

A new early Yellow Dent for Central Wisconsin and similar latitudes. This is the corn many have been looking for. It is a little earlier than Silver King and Clark's Yellow Dent and yet large enough to make it a popular variety for general culture. It matures as far north as Central Wisconsin and yields big crops of large-sized ears. Golden Glow is a pure golden yellow dent corn, most attractive in color and appearance. Ears are fairly large, averaging about 8 inches in length, symmetrical in shape, and are free from a tendency to flintiness, stalks are large and strong with abundant foliage, making it a desirable fodder or silo variety and was brought out by Prof. R. A. Moore. It is a heavy yielder.

Sample ear by mail 25c. By freight: Pk. 90c.; Bu. \$3.00; on ears per bu. \$4.00.

WIS. NO. 25

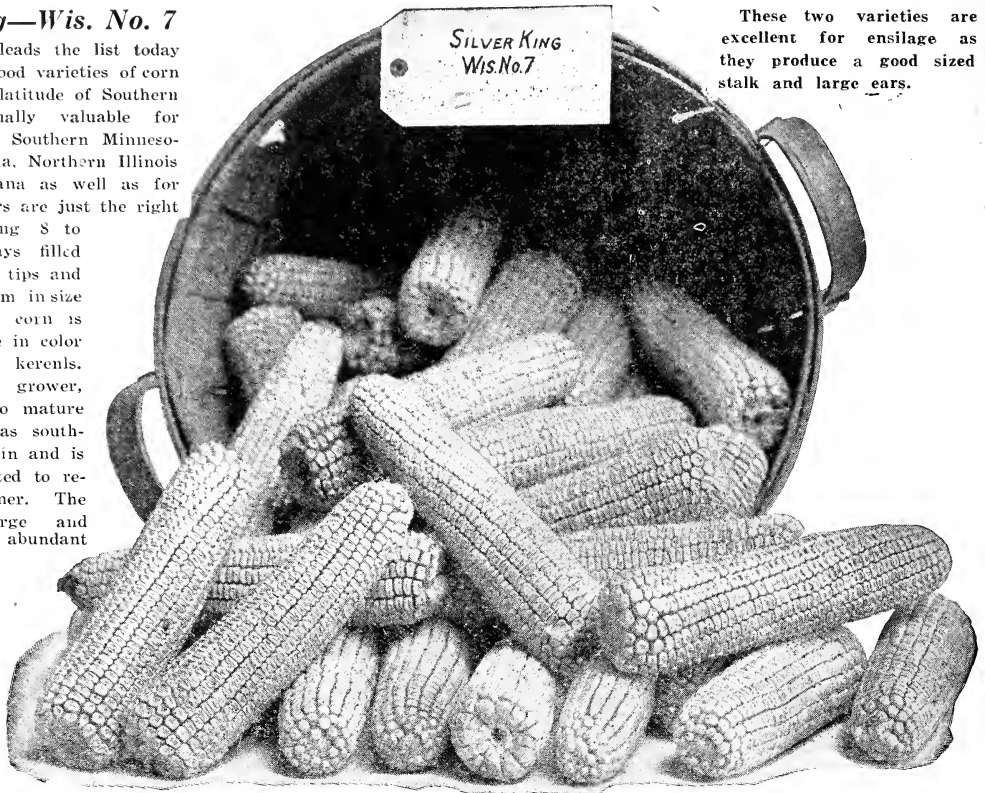

WIS. NO. 12 OR GOLDEN GLOW

Please remember that our seed corn is all graded and we make no charge for bags.

Silver King—Wis. No. 7

Silver King leads the list today of all-around good varieties of corn adapted to the latitude of Southern Wisconsin. Equally valuable for Northern Iowa, Southern Minnesota, South Dakota, Northern Illinois, Ohio and Indiana as well as for Wisconsin. Ears are just the right length, averaging 8 to 10 inches, always filled out clear to the tips and are very uniform in size and type. The corn is pure snow-white in color with good long kernels. It is a strong grower, early enough to mature as far north as south-central Wisconsin and is especially adapted to resist cold weather. The stalks are large and strong with abundant foliage, making it a very desirable silo or fodder variety. The leading Late Variety of Corn in Wisconsin today. Sample ear 25c. By freight: Pk. 90c.; Bu. \$3. On ears per bu. \$4.00.

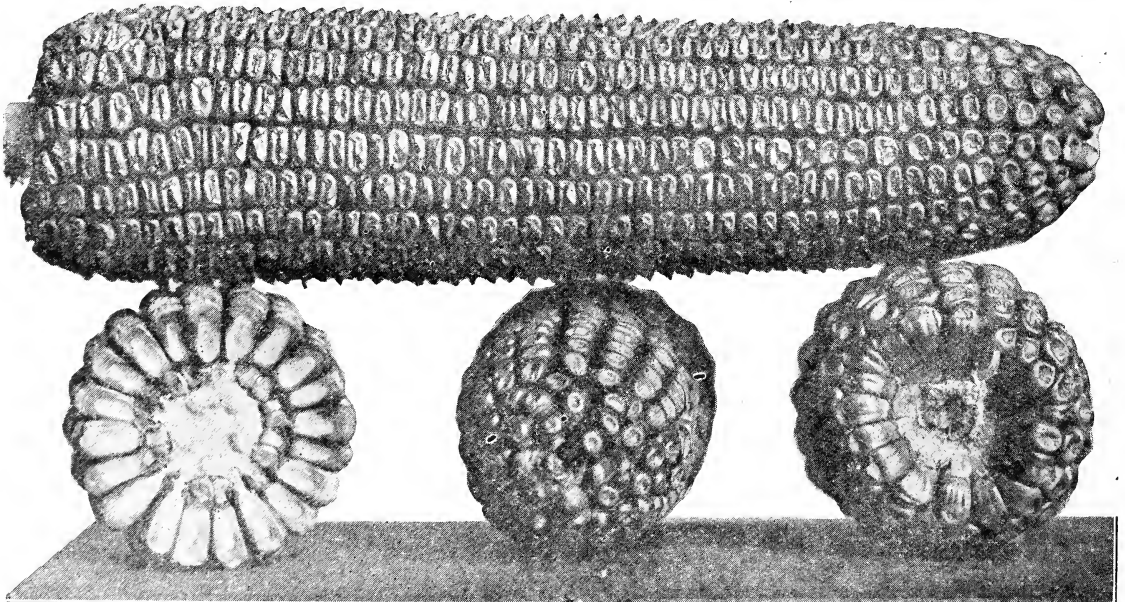

These two varieties are excellent for ensilage as they produce a good sized stalk and large ears.

Clark's Yellow Dent—Wis. No. 1

THE LARGEST EARED, DEEPEST KERNELED, YELLOW DENT CORN THAT WAS EVER ORIGINATED IN WIS.

It matures in from 110 to 125 days. The stalks are strong vigorous growers, generally bearing one good ear, being well supplied with long broad leaves, which make excellent fodder. The corn always breeds very true to type, is uniform in color, size and shape of ear. Kernels are of a bright golden color, compactly set on the cob and of un-

usual length for so early a corn. (See illustration.) A very noteworthy characteristic of this corn is that the ears hold their size almost to the tip, instead of tapering out to a slim point or showing a bare cob. A heavy yielder and a good sheller, shelling from 60 to 62 pounds of corn from 70 pounds of ears. Our strain of Clark's Yellow Dent is a great improvement over that generally sold as it has been critically bred under rules approved by Prof. Holden, the noted corn expert. Sample ear by mail, 25c., postpaid. By freight: Pk. 90c.; Bu. \$3.00; on ears, per bu. \$4.00

CLARK'S YELLOW DENT

NOTICE—Please bear in mind that all of our Seed Corn is Wisconsin Grown and should not be confused with corn of the same names that was grown in Nebraska and is being offered at low prices. Such corn is not suited for Wis. conditions as it will not ripen except under very favorable conditions.

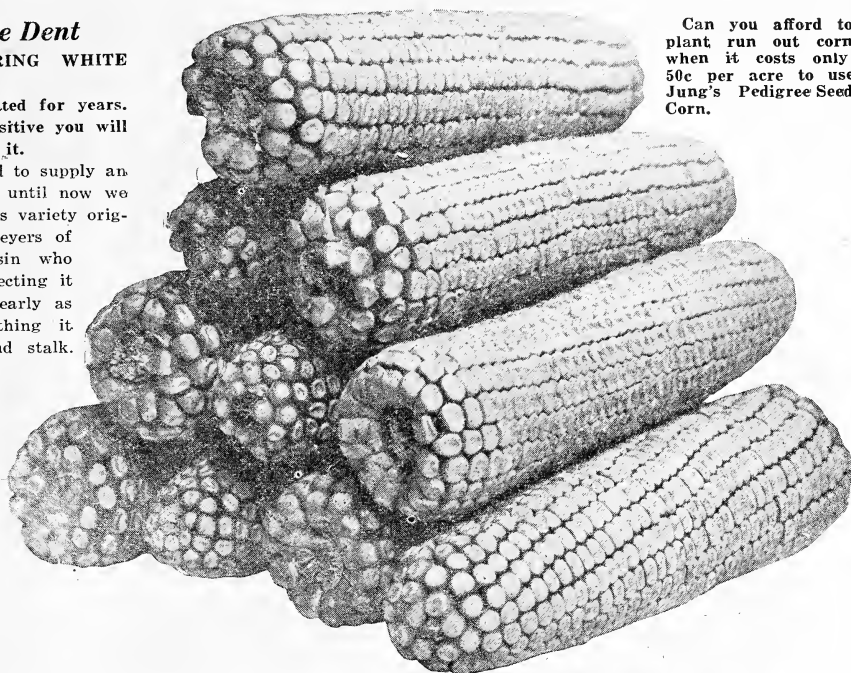

Wis. Early White Dent

THE EARLIEST MATURING WHITE DENT CORN

Just what you have wanted for years. Plant this corn, we are positive you will be more than pleased with it.

We have often been asked to supply an early White Dent Corn but until now we were unable to offer it. This variety originated with Mr. W. B. Meyers of Columbia county, Wisconsin who has been breeding and selecting it for years. It is fully as early as Wis. No. 8 and if anything it produces a larger ear and stalk.

It has never failed to ripen or produce a good crop. The corn when on the ear is a pure silvery white but when shelled the kernels show a slight golden tinge. If you want a strong growing, heavy yielding, early white dent corn then plant this variety. We offer a very nice stock of this corn grown from carefully selected stock. Sample ear by mail 25c., by freight Pk. 85c.; Bu. \$3.00; on ears, per bu. \$4.00

Can you afford to plant run out corn when it costs only 50c per acre to use Jung's Pedigree Seed Corn.

WIS. EARLY WHITE DENT

Wis. No. 15 Imp. Smut Nose Flint

Extra Early. Enormously Productive. Ears Often Over 15 Inches Long

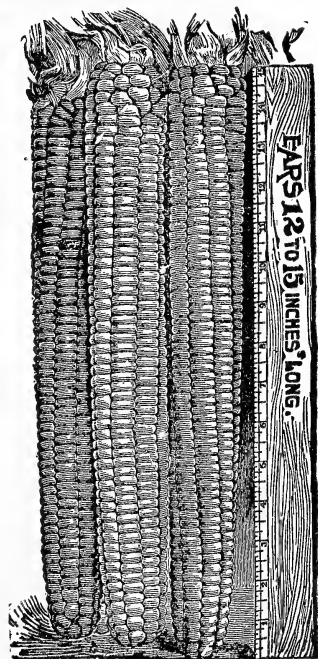

This variety was developed, improved and first sent out by the Wisconsin Agricultural Experiment Association. It is more prolific than any other flint corn and also has a stronger stalk, being especially well adapted to Wisconsin conditions. A peculiar characteristic is that instead of each kernel producing one stalk and many short suckers like most flints this variety often produces 3 and 4 stalks from each kernel, each of which have a well developed ear, no short suckers at all. The ears are long, often 14 inches and have eight rows of large yellow kernels which shade to deep red towards the tip. The stalks grow from 6 to 7 feet tall and make excellent fodder. This also makes an excellent corn to plant for "hogging down" as it matures so early. We have an excellent lot of seed of our own growing which tests 98 per cent germination. Sample ear by mail 25c. By freight: Pk. 90c.; Bu. \$3.00.

Dry Land Alfalfa

A clover-like leguminous plant of great importance as a hay crop; nutritious and rich in protein elements. It grows from 2 to 5 feet high and roots 8 to 12 feet deep. It needs one season to become established; after that it yields enormous crops annually for years. Two to six cuttings per season, aggregating three to eight tons of cured hay are harvested, according to conditions and locality. It does well on all good rich soils, except heavy clay, if it is well drained. It is a perennial plant lasting many years under good treatment. It should be grown by every farmer and dairyman. We offer only DRY LAND SEED. Dry Land Alfalfa is much to be preferred to seed grown under irrigation as the Dry Land Seed produces a much heavier and more vigorous plant. Insist on having DRY LAND SEED. EAGLE BRAND: Lb. 35c.; 3 lbs. \$1.00 postpaid. By freight: Pk. (15 lbs.) \$3.25; Bu. \$12.60.

Grimm Alfalfa

The Alfalfa known as Grimm is the hardest of all varieties and has been so widely advertised by the leading farm publications and experiment stations, that almost every farmer knows about its superiority over all other varieties. Its one great merit is the fact that it has a branching root system instead of a long straight tap root like common varieties, this enables it to withstand heavy freezing without injury. Owing to the fact that it makes such a spreading growth 10 to 12 lbs. of seed per acre is sufficient. We have only a small stock of this seed so advise early orders. Lb. 50c., postpaid. By freight: Lb. 45c.; Pk. (15 lbs.) \$6.50; Bu. \$25.50.

SMUT NOSE FLINT

Why You Should Grow Alfalfa

It contains as much protein as wheat bran.

It does not exhaust but enriches the soil.

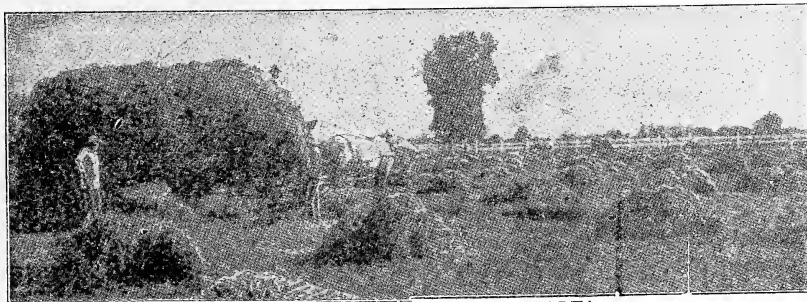

It produces from three to eight tons of hay to the acre.

One acre will pasture 20 hogs for 6 months.

Thirty-five pounds makes a full feed for fattening steers.

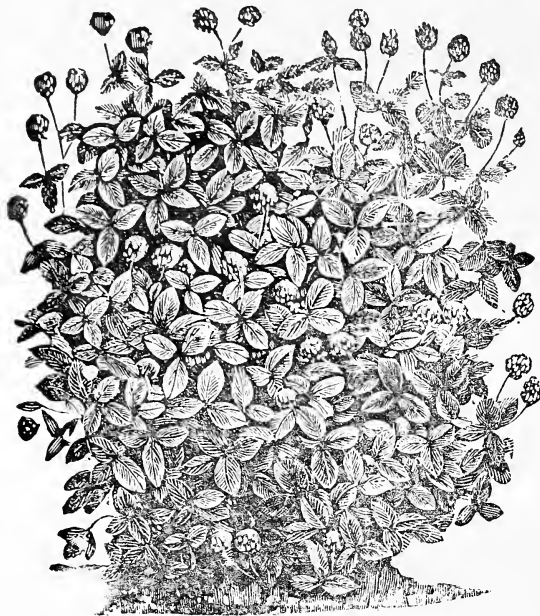

A lamb will winter and thrive on three pounds a day.

There is no state in the Union where ALFALFA cannot be successively grown.

A SECOND CUTTING OF ALFALFA

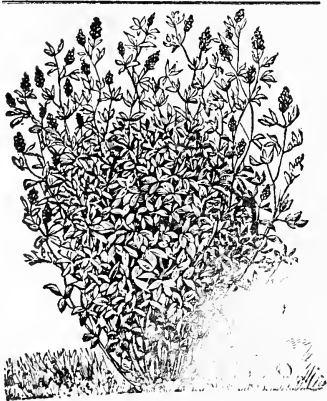

Jung's "Eagle Brand" Recleaned Clover and Timothy Seed

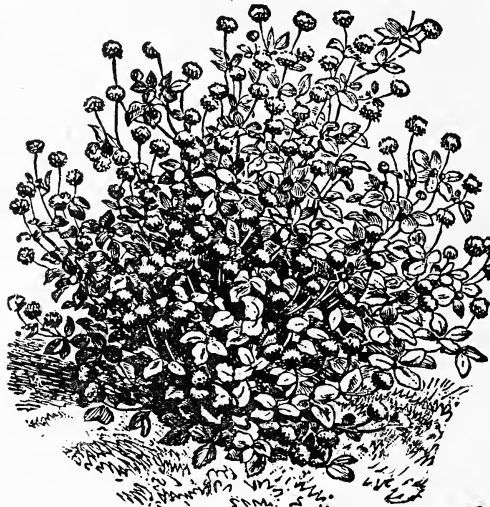

MEDIUM OR RED CLOVER

Mammoth Clover

This is well known for its enormous yields and is largely used as a fertilizer to plow under green. It has no equal, also excellent to sow with small grain for fall pasture, using from 4 to 6 lbs. per acre. Eagle Brand—Lb. 35c.; 3 lbs. \$1.00 postpaid. By freight: Pk. \$4.25; Bu. \$15.50.

SWEET CLOVER

ALSIKE CLOVER

White Blossom Sweet Clover

Sweet Clover belongs to the family of leguminous plants and adds greatly to the fertility of the soil on which it is grown. Sweet Clover will grow and make a crop on soil where other clovers and grasses would perish and makes a very good hay for cattle, also excellent pasture

for hogs, being the first to start in spring and the last to be killed by frost in fall. It is coming into popular favor more every year as its good qualities are being recognized. As the price of the seed is very reasonable every farmer should sow some. Lb. 25c.; 3 lbs. 60c., post paid. By freight: Pk. \$2.00; Bu. \$7.25.

Jung's Fancy Northern Grown Timothy

As a crop for hay TIMOTHY is probably unsurpassed by any other grass. It is highly relished by all kinds of stock, especially horses. It yields more nutritive matter than any other grass or forage plant. It is not suited for a permanent pasture as it will run out in the course of a few years. The largest crops of hay are raised on rich land. It is not suited for light, sandy soil as well as some other grasses. The most important point in the growing of TIMOTHY is the selection of GOOD SEED. POOR SEED, besides containing weed seeds, WILL NOT ALL GROW. Eagle Brand—Lb. 20c.; 3 lbs. 50c., postpaid. By freight: Pk. \$1.00; Bu. \$3.50

TIMOTHY

Clover is without any question the most popular and widely grown crop for hay, pasture and also for building up or enriching the soil.

You will find the quality of our seed to be equal to the best in both purity and germination, it is home grown seed, free from foul weeds and can be relied upon to be suited for our climate.

WARNING—There is much clover and timothy seed being offered at "so called bargain prices." We will not handle such seed under any circumstances as much of it is imported and will not survive our winters and almost all of it contains so much trash and foul weeds that it is not fit to sow. Get a free sample of our Eagle Brand Clover or Timothy and compare it with some of the "cheap" grades as are being advertised. It always pays to sow the best seeds. Prices on all Clovers, Timothy, Alfalfa and other Farm Seeds are subject to market changes.

Medium or Red Clover

We have an unusually fine stock of Medium Clover Seed. It is bright, pure, of high germination and free from foul weeds. This is the standard Red Clover and a dependable all-around variety of farmers and stockmen. It makes two crops a year. The first is usually cut when in bloom for hay; the second crop may be cut for hay, harvested for seed or plowed under to add fertility to the soil. It pays always to buy the best grade of CLOVER SEED that can be obtained. Even though the first crop cost is more than the cheaper grade it will be found in the long run that inferior seed is the most expensive, not only on account of less hay or seed being produced from it, but from the fact that one's land is liable to become infested with weeds. Sow GOOD CLOVER SEED and plenty of it. Eagle Brand—Highest Quality—Lb. 35c.; 3 lbs. \$1.00 postpaid. By freight: Pk. (15 lbs.) \$3.90; Bu. \$14.

Alsike Clover

The advantage of Alsike over Red Clover is its true perennial character and great hardiness. It will adapt itself to extremes of either wet or drought and will flourish on soils where red clover would not grow, it is also more leafy and does not have heavy stalks and for this reason makes a much finer hay, especially when sown with Timothy. It is highly nutritious and very fragrant; excellent for bees. Also excellent for pasture as it is very hardy and seldom winter-kills. Alsike is the only clover that will thrive and not kill out on low places. Eagle Brand—Lb. 35c.; 3 lbs. \$1.00 postpaid. By freight: Pk. \$3.40; Bu. \$12.75.

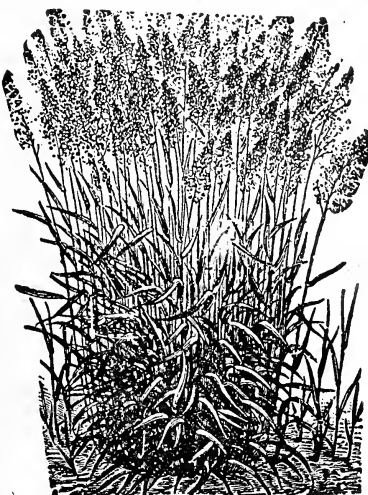

Fancy Red Top

A suitable grass for moist rich soils, where it thrives most luxuriantly. It is a good variety to sow with Timothy or Clover for meadow or pasture and is more permanent than either of the other two. It should be fed close as if it is allowed to grow up to seed cattle dislike it. On good soil it grows about four feet high. Lb. 40c., postpaid. By freight: Lb. 28c.; 5 lbs. \$1.35; 50 lbs. \$12.00.

German or Golden Millet

In the north Millet is grown altogether for hay and for that purpose southern grown seed is much the best. It grows taller and finer than from northern seed and that means more and better hay. Golden Millet is very sweet and palatable and when fed to dairy cows produces a large amount of milk. On good soil it grows four to five feet high. It is very tender when cut at the right stage which is when it is in full bloom. We offer Genuine Southern Grown Seed.

Lb. 20c., postpaid. By freight: Pk. 60c.; Bu. \$1.75.

RED TOP

GERMAN MILLET

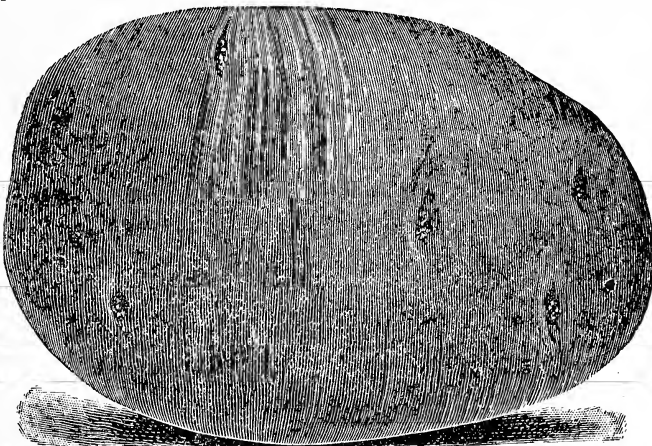

JUNG'S NORTHERN GROWN SEED POTATOES

There is no longer any doubt about the superiority of Northern Grown Seed Potatoes. They are full of life and by planting our seed you are assured of early maturity, increased yield and vigorous growth. Tests conducted by experiment stations in different states have all proved that northern grown potatoes invariably produce the largest crops. The value of seed potatoes cannot be gauged by the market for eating stock as much more expense is had in growing a seed crop, such as select planting stock, treating the seed for disease, intense cultivation, spraying, roguing and careful handling in harvesting. We have made our prices very reasonable and it will pay you handsomely to plant JUNG'S SEED POTATOS. Prices Subject to Market Changes.

Red River Early Ohio

Money Makers—First Early No Waste in Cooking or Peeling—Easy to Dig

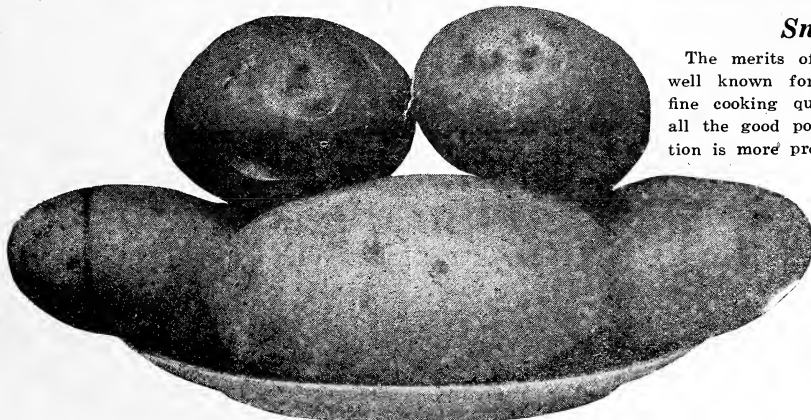

Skin light pink or flesh color, flesh pure white. Matures about one week earlier than Early Rose. Potatoes all run good marketable size, very few small ones and the shape is so even they sell on sight on the market. Buyers know of the excellent quality and housewives find there is no waste in peeling; the eyes are set close to the surface. Further, it requires less expense than most varieties to grow; vines upright, allowing easy and thorough cultivation and tubers are set in a compact clump near the surface so that digging is easy. Our Red River grown seed of this variety will increase your yield far beyond your expectations. The soil in this valley is peculiarly adapted to the best development of the Potato crop. Not only do you get an increased yield but the Potatoes are far better, cleaner and entirely free from scab, besides being pure, with none of the mixture usually found in eastern grown stock. It will pay you to change your seed. Our Red River strain will mature two weeks earlier than stocks grown farther south. Prices by mail postpaid: 3 lbs 50c. By freight: Pk. 65c.; Bu. \$2.20

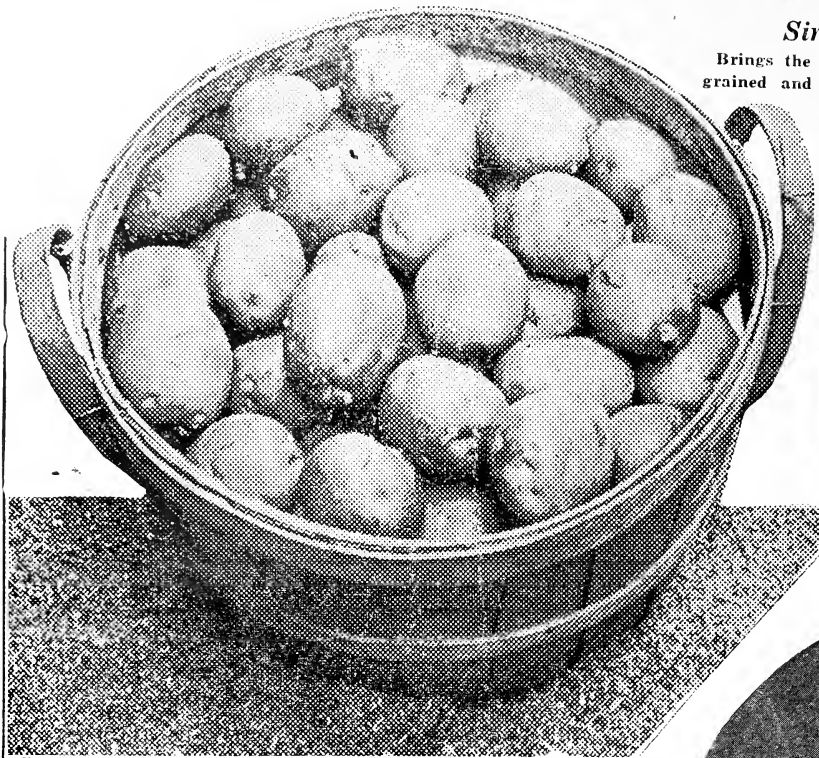

RED RIVER EARLY OHIO

Snowflake Jr.

The merits of the old Snowflake Potato are well known for its handsome appearance and fine cooking qualities. The Snowflake Jr., has all the good points of the parent and in addition is more prolific and has the merit of being the nearest to BUG PROOF of any potato we have ever known. As an all-round family potato or market potato, we consider Snowflake Jr., perfect. It is handsome in appearance, grows to good size, pure white color, cooks evenly and mealy. The vines are remarkably strong, growing upright and are dark green in color. We have an unusually fine stock of our own growing. Lb. 25c.; 3 lbs. for 50c., postpaid. By freight: Pk. 60c.; Bu. \$2.00; Second size: Bu. \$1.50.

SNOWFLAKE JR.

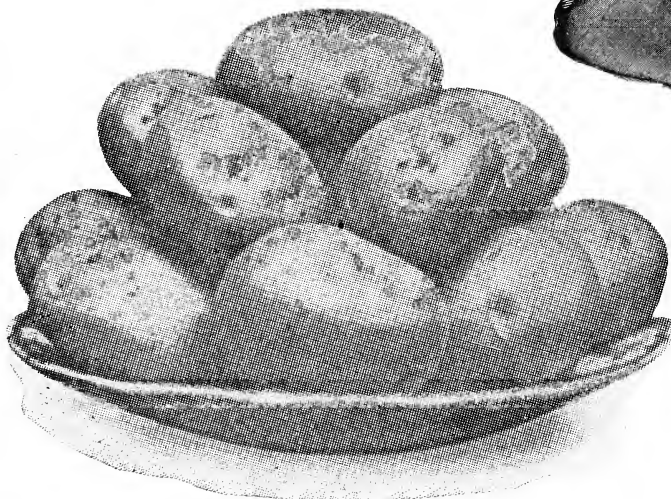

SIR WALTER RALEIGH

ORDER EARLY—Seed Potatoes are not as plentiful as they were a year ago and on some varieties we will be sold out before the season is over. Send your orders in now and we will make shipment as soon as safe or usually from Mar. 20 to Apr. 1.

Jung's White Bonanza

A new potato that promises to surpass anything we have ever tried out in Potatoes. We discovered it in a field of Russets as it was a plant with strong, healthy vines and upon digging we were surprised to find the finest looking hill of potatoes we had ever seen. Since then we have been increasing our stock of it as fast as possible and now have a limited quantity to offer. On our farms the past season it beat all other varieties in yield and also beautiful appearance. The size and shape are well shown in the illustration. A remarkable thing is the even size of the tubers, no overgrown or small ones at all. We have only a small stock and advise early orders. **Lb. 35c.; 2 lbs. 50c., postpaid.** By freight: **Pk. \$1.00, Bu. \$3.00.**

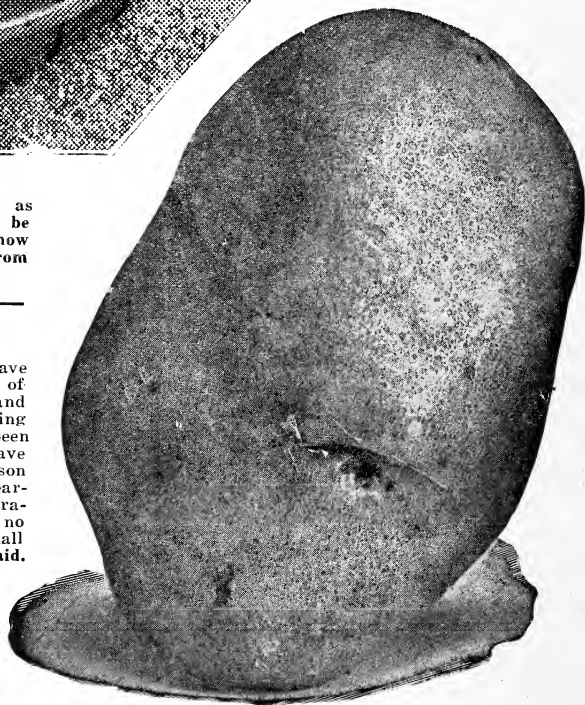

JUNG'S WHITE BONANZA

Sir Walter Raleigh

Brings the highest main crop price. Finer grained and whiter fleshed than any other variety.

Sir Walter Raleigh is a perfect main crop variety. It is spoken of as "Mr. Carman's Best" and is a seedling of Rural New Yorker. Good size, hardly ever any small ones, nearly round in shape; skin pure white; eyes few and very shallow, potatoes never pronged and never scabby; almost blight proof; a sure yielder where others fail, in clay soils or other soils. It can be justly claimed that Sir Walter Raleigh is the whitest fleshed and finest grained Potato on the whole list of main crop varieties. On trial grounds of the Rural New Yorker, it proved the best and heaviest cropper of 49 varieties. It is just the size of Potato that brings the highest price in every market and it always yields well. **Lb. 25c.; 3 lb. 50c., postpaid.** By freight **Pk. 60c.; Bu. \$2.00; second size: Bu. \$1.50**

HARVEST KING

Harvest King

A Money Maker Main Crop Potato

We take pleasure in offering our friends this grand Potato and we are sure that everyone who tries it will be more than pleased with its fine quality, vigorous growth and great productiveness. It has proved itself to be of great value on account of its tremendous yield, together with the fact that it produces but very few small potatoes. It is a magnificent sort, nice, large sound white tubers, which are of excellent quality for cooking or baking. Harvest King will bring the highest price on all markets. We offer an unusually nice stock of our own growing which is clean and healthy having been treated for both scab and blight. **Lb. 25c.; 3 lbs. 50c., postpaid.** By freight: **Pk. 60c.; Bu \$1.95; second size, Bu. \$1.40.**

Jung's Great \$1.00 Collection.

THE GREATEST SEED BARGAIN OF THE SEASON

Thirty-one big packets of Jung Quality Seeds, as listed below
sent postpaid to any address for \$1.00

This collection is made up of the finest strains of seeds and each variety was selected for it unusually good qualities. If upon receipt of this collection you are not satisfied in every way your money will be refunded. With each collection we will send a book of instructions of "How to Grow the finest Vegetables."

BEANS—Stringless Green Pod
BEANS—Pencil Pod Black Wax
BEETS—Detroit Dark Red
CAULIFLOWER—Early Snowball

TURNIP—Golden Ball

With each collection we will also send a free copy of "How to Grow Vegetables."

NOTE. These collections are put up before the busy season and no changes can be made. All packages sent postpaid.

Progressive Everbearing Strawberry.

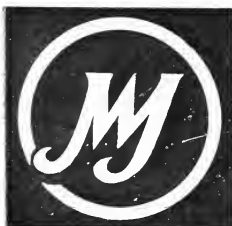

This is the best of all the everbearing varieties and is just as easy to grow as the common varieties, will produce an abundant crop in June and then keeps bearing until late fall.. We offer strong well rooted plants of our own growing. Order early as the demand is sure to exceed the supply. Price, 25 for 80c.; 50 for \$1.35; 100 for \$2.25, prepaid.

Jung's \$2.00 Berry Collection.

It costs almost as much to fill a small as a larger order for fruit plants so as a special inducement we are giving you an unusually big bargain by offering a collection of the best varieties at a reduction in price. If bought from traveling tree agents this collection would cost as least \$3.50 but we will send it to you all charges prepaid for \$2.00

- 25 PROGRESSIVE EVERBEARING STRAWBERRIES
- 25 GIBSON STRAWBERRIES
- 6 CUMBERLAND RASPBERRIES
- 6 KING RASPBERRIES
- 3 ST. REGIS EVERBEARING RASPBERRIES

These are all strong hardy plants and we are sure will more than please you. Be sure to send your order early.
